ANKITA MISALKAR

iOS Developer

Email: ankitamisalkar01@gmail.com Phone No: +91 9075208941 Address: Pune, Maharashtra, India
LinkedIn: https://www.linkedin.com/in/ankita-misalkar-520080220

Summary

A detail-oriented iOS developer with 4.2 years of experience in developing and maintaining iOS applications using Swift, proficient in creating responsive and pixel-perfect user interfaces with Swift storyboard, optimizing app performance through bundle size reduction and memory management, and deploying applications on the App Store in dynamic, deadline-driven environments.

Academic Details

MSc (Computer Science)

- Sant Gadge Baba Amravati University
- Aggregate: - 8.18 (CGPA)
- Passing Year: - 2020

BSc (Computer Science)

- Sant Gadge Baba Amravati University
- Aggregate: - 60 %
- Passing Year: - 2018

Technical Skills

- **Programming languages**: Swift, Objective C (Basic), React Native (Beginner), swiftUI.
- **Development Tools**: XCode, VSCode, Android Studio
- **Frameworks**: UIKit, Foundation, WebKit, MapKit
- **Persistence**: Core Data, UserDefaults
- **Networking**: URLSession, Alamofire, REST API
- **Version Control**: Git, GitHub, SourceTree
- **Bugs Tracking**: Redmine.
- **Design Patterns**: MVVM, MVC, Singleton
- **Other**: Firebase, Push Notification, Localization, Payment Integration, Lifecycle, AutoLayout, Cocoapods, Storyboard, XIB**,** Sendbird, SQlite, App Store submission and review process

Core Competencies

- Restful API
- Debugging
- Performance Optimization
- Application & View Life Cycle
- Agile Methodology
- Localization

Work Experience

iOS Developer (Swift)

Austere Systems Ltd, Pune May 2024 – Till Date (1 year 4 Month)

- Developed new features and maintained iOS applications using Swift and UIKit, adhering to best practices and coding standards.
- Collaborated with cross-functional teams, including product managers, designers, and backend developers to deliver app features.
- Conducted through testing and debugging, resulting in high quality, bug-free applications.
- Optimized app performance, ensuring smooth and responsive user experiences.
- Proposed and implemented innovative ideas to enhance app development and user experiences.

iOS Developer (Swift)

Encoding Solutions Pvt Ltd, Pune July 2021 - April 2024 (2 Years 10 Months)

- Added new features and fixed multiple bugs in iOS applications using Swift.
- Utilized version control systems like Git to manage codebase and facilitate collaborative development.
- Participated in agile development processes, contributing to sprint planning and retrospectives to improve team efficiency.
- Researched and evaluated new technologies to incorporate into app development, staying up-to-date with industry trends.

Projects

KBMC Road Conditions Monitoring **Language**: Swift

KBMC app enabling members to access various services.

- The system detects potholes, wrong parking, road encroachment, and roadside tree conditions.
- Officials can upload geo-tagged images, enabling quick action, predictive analysis, and data-driven governance for safer roads.

App Store Link: https://apps.apple.com/us/app/kbmc-road-condition-reporting/id6751272141

Azual Bank **Language**: Swift

Azual Bank mobile app providing secure banking features.

- Azual Bank integrates advanced technology for secure transactions and real-time account management.
- Experience effortless banking with features like balance checking, fund transfers, and bill payments - all on your mobile device.

Eventpedia **Language**: Objective-C and Swift

Eventpedia app offering event content all in one place on mobile devices.

- It is an encyclopedia of mobile event apps.
- Eventpedia eliminates the need for traditional program guides by providing all the event content on your mobile device.
- View speaker/sponsor/exhibitor/attendee profiles, take notes, create personalized schedules, and much more.
- Simply download an event in Eventpedia and access all of the important content in the palm of your hand.

App Store Link: https://apps.apple.com/in/app/eventpedia/id1052185229
