SUMMARY - I am an experienced Senior Test Automation Engineer with significant expertise in automation testing across various domains, including finance, healthcare and oil & gas. My skills with automation tools such as Cypress, Playwright and Selenium, complemented by my knowledge in Agile methodologies, enable me to contribute effectively to team projects.

EXPERIENCE

e-zest Solutions pvt ltd, Pune— Senior Test Automation Engineer
Onsite Location- Emerson Export Engineering Center, Pune

July 2023 - PRESENT

- Proficient in developing and executing automated test scripts using the Cypress testing framework, seamlessly integrated with the Mocha testing framework.
- Possess a solid understanding of Agile methodologies, contributing effectively to iterative development processes and cross-functional team collaborations.
- Collaborated with cross-functional teams to streamline test case reviews, reducing review time by 20%.
- Led weekly sync-up meetings with developers and product owners, ensuring alignment on sprint goals and minimizing defects by 15%.
- Successfully completed a comprehensive Proof of Concept (POC) for Playwright, conducting detailed analysis to validate its suitability for our testing requirements.
- Possess extensive knowledge in data analysis and reporting. Also I'm passionate about driving efficiency and innovation in testing processes through collaboration and technical excellence
- Participated in an exploration program at Emerson Pune where I Presented an innovative solution that accelerated delivery processes and reduced critical task time.
- Tech Stack: Cypress, playwright, azure devops, git, vscode, mocha framework and chai assertion library, javascript

LTIMindtree, Pune— Senior Test Automation Engineer

April 2022- July 2023

- Worked on Cypress and Playwright automation testing tool integrated with Mocha framework.
- Gained software testing experience in Automation and Functional testing , various types of testing techniques.
- Strengthened communication skills through regular interaction with team members and clients.
- Worked independently and collaboratively in a team environment.
- Helped junior team members with understanding automation frameworks, reviewing code, and resolving technical challenges.
- Tech Stack: playwright, git, vscode, azure devops, Manual testing , javascript

SKILLS

Technical Skills:

Development Language:
Javascript, Core Java

Test automation tool:
Cypress, Playwright, Selenium, Protractor

Framework: Mocha, Jasmine, WebdriverIO, chai(Assertion Library)

Application Software (IDE):
Visual studio, WebStorm

Version control system:
Github, Azure DevOps

CI/CD tool: Jenkins

Project management tool:
Azure DevOps, Jira

Domain knowledge:
Oil & Gas, Chat Bot, Finance, Healthcare, Ticketing

Management Skills:

- **Effective team leadership**
- **Strategic planning and execution**
- **Time management and prioritization**
- **Goal setting and performance tracking**
- **Stakeholder management**

ZenQ, Hyderabad— Senior Test Automation Engineer

Jan 2019 - April 2022

- Worked in the Finance, Medical, Ticketing domain.
- Gained 3 years of automation experience in Selenium, Protractor, Cypress, Git (Version control system), Jenkins (CICD tool), Jasmin, WebdriverIO, Mocha frameworks.
- Managed the team and handled client POC roles for extended periods.
- Managed time efficiently in order to complete all tasks within deadlines.
- Direct interaction with clients, understanding future requirements, design loopholes.
- Tech Stack: Selenium, Protractor, WebdriverIO, Cypress, Mocha framework, VS Code, Postman, SQL, Git, testrail, azure devops, banking domain, medical domain,ticketing domain,core Java, javascript

EDUCATION

- B.E - Computer Science (Savitribai Phule Pune University)
  Passed Year - 2018 with 64.00%
- Diploma - Computer Science (Savitribai Phule Pune University)
  Passed Year - 2015 with 83.55%

PROJECTS

EEEC (Emerson Export Engineering Center) Data Studio— *July 2023 - Present*

Role – Senior Test automation Engineer

- Experienced in automating applications using JavaScript with Cypress and Proficient in Agile methodologies, contributing effectively to iterative development and cross-functional collaborations. Strong communicator, enhancing team interactions and client engagements. Skilled in independent and collaborative work environments. Extensive expertise in data analysis and reporting. Successfully completed a comprehensive Proof of Concept (POC) for Playwright, conducting detailed analysis to validate its suitability for our testing requirements.

PVA Microsoft— *May 2022 - July 2023*

Role – Senior Test automation Engineer

This project is for early building chatbots to engage conversationally with customers and employees.

- Automated applications using JavaScript in the Cypress tool. Employed the Page Object Model to reduce code redundancy and gained experience in both automation and functional testing, utilizing various testing techniques and developing a working knowledge of Agile methodology. Demonstrated proficiency in quickly and efficiently learning new concepts and mentored junior team members to enhance their skills and performance.

AWARDS and Recognitions

– Awarded for building expertise in version controlling test automation code using Azure DevOps tool (Dec 2020 - ZenQ)

– Rewarded by management for managing the team and handling client POC role during absence of lead for extended period ensuring no impact to delivery (June 2021 – ZenQ)

– Recognized for displaying exemplary team spirit, taking initiative & delivering high value to customers (March 2023 - LTIMindtree)

– Contributed in an exploration program and brainstormed new ideas to enhance delivery processes (Aug 2024 - EEEC Pune)

PERSONAL DETAILS

Date of Birth : 08-05-1997

Permanent Address : A-10, Yogeshwar Park, Ingale Nagar, Nashik, 422101

Languages : English, Marathi, Hindi

Hobbies : Reading, Travelling

Ticketing Project in Canada— *March 2021 - April 2022*

Role – Senior Test automation Engineer

This project provides a vision to help entertainment organizations deliver exceptional experiences for people who love live events.

- Led a team and served as the primary client point of contact for extended periods. Automated a ticketing application using WebDriver and Mocha with JavaScript. Designed and implemented automation test scripts across multiple test environments and browsers, including Chrome, Firefox, and Safari. Identified issues, analyzed information, and provided automation solutions to preload data, reducing manual dependencies in testing.

Healthcare Project in US— *February 2020 - March 2021*

Role – Test automation Engineer

This project delivers virtual healthcare delivery systems that enable care to anyone, anywhere.

- Analyzed requirements and collaborated with architects on design and modeling within Agile development cycles. Updated regression test results in Azure DevOps and designed and executed automation test scripts across various environments. Utilized the Page Object Model to enhance code maintainability and reduce redundancy also managed version control of test automation code using Azure DevOps.

Leading Finance Project in US — *January 2019 - February 2020*

Role – Test automation engineer

This project provides loans to users such as personal loan, auto loan, Medical loans, Home loans and OportunPath.

- Analyzed software requirements, developed and executed automated test scripts for AngularJS applications using JavaScript, and collaborated effectively with manual and development teams to resolve issues. Reported bugs via Jira, maintained and scheduled automation scripts with Jenkins and Git, implemented Swagger API based on client requirements.
