EXPERIENCE

UI Developer, BranchX, July 2023-Current
Bangalore, India

Neo-Banking Application (BranchX)

- Led end-to-end **design and development** of Mobile App, Website, Vendor, and Admin Panels from scratch.
- Integrated **Wallets, Scan & Pay, BBPS, Investments, and Insurance** for a seamless digital banking experience.
- Core Tech: **JavaScript, HTML, CSS, SCSS, Bootstrap, Tailwind CSS** | Hands-on in **React**
- Tools: **Git, Bitbucket, Jira** | **Server Deployment** experience
- Website: branchx.in

Torus Investment Platform

- Took ownership of **revamping all static pages** with responsive designs, improving UI/UX consistency.
- Frontend contributions enabled **30,000+ user onboardings in Q1**, proving scalability and engagement.
- Core Tech: **JavaScript, HTML, CSS, SCSS, Bootstrap** | Hands-on in **React**
- Tools: **Git, Bitbucket, Jira** | **Server Deployment** experience

- Website: torusdigital.com

UI/UX Developer, Imcrinox, August 2022-July 2023
Bangalore, India
Description:
Designed responsive web/mobile interfaces with wireframes and prototypes; collaborated with developers and stakeholders to meet goals. Converted PSD mockups into clean HTML/CSS pages and resolved cross-browser issues.
Projects:
E-Commerce BNPL Platform

- Built a **Buy Now, Pay Later (BNPL)** e-commerce solution enabling customers to pay bills using EMI options.
- Key Modules:
  Admin – Managed platform activities and operations.
  Merchant – Integrated restaurants and hotels offering services.
  Customer – Mobile app interface for purchases and payments.
- **Environment:** HTML, CSS, SCSS, JavaScript, Bootstrap

Imcrinox – Service-Based Projects

- Contributed to **UI development** across multiple service-based projects for the company.
- Designed and implemented **responsive web interfaces** to enhance usability and user engagement.
- Ensured seamless frontend performance with clean, scalable code using **HTML, CSS, SCSS, JavaScript, and Bootstrap**.

UI/UX Designer, Renaissance Technology, December 2021-July 2022
Bangalore, India
Description:
Focused on UX design by researching trends and creating wireframes, storyboards, and sitemaps to enhance usability. Collaborated with developers and stakeholders to deliver user-centered, business-aligned design solutions.
Projects:
Worked on the **Toyota Website** (UX research, wireframes, responsive layouts) and the **U-Trust Platform** (UX flows, prototypes, scalable design components) to enhance usability and user experience.

Graphic & Web Designer, Spider Web India, February 2020-November 2021
Bangalore, India
Description:
Experienced in the complete design process, from **defining requirements to visualizing and creating graphics** including illustrations, logos, layouts, and web banners. Skilled in **UI/UX design** and building responsive web interfaces. Proficient with **Adobe Photoshop CC, Dreamweaver CS6, CSS3, HTML5, JavaScript, jQuery, WordPress**, and prototyping tools such as **InVision and Figma**. Currently leveraging **Bootstrap Framework (v3, v4 & v5)** to develop modern, responsive websites.
