KARTHIK J

SOFTWARE TEST ENGINEER

jkarthik.jsp@gmail.com | +91 94456 11423 | Experience : 3 Years 5 Month | Bengaluru, India

PROFILE SUMMARY

- 3.5 years of experiences in area of Software Testing(Automation&Manual) in Selenium WebDriver with Java.
- Have strong experience in framework like Behavioral driven development (Cucumber), TestNG, Junit, Page object Model (POM) and data-driven frameworks.
- Using Maven as Software Build tool and Jenkins as Continuous Integration Tool.
- Hands on experience in Tracking and Reporting of defects using Defect Tracking Tool JIRA.
- Extensive experience in maintaining my code over version control using GIT.
- Performed testing like Smoke, Sanity, Regression
- Participated in all the meetings of Agile-Scrum Methodology
- Proficient in automating different platforms over cloud devices like Browser Stack.
- Good experience in API with REST assured framework.
- Analyzing the API requirements from API documents and user stories
- Performing different HTTP request methods like GET, POST, PUT, DELETE

TECHNICAL SKILLS

Automation Tool : Selenium WebDriver, Rest API ACCELQ, OPKEY
Framework : Cucumber, TestNG, JUnit
Programming Language : Core Java
Defect Tracing Tool : JIRA / Agile Scrum
Version Control Tool : GIT, GitHub / Jenkins
Query Language : SQL
Build Tools : Maven

PROFESSIONAL EXPERIENCE

PROJECT 3 :

Software Engineer , Zensar Technologies LTD **JUNE 2025 - SEP 2025**

- Analyses the User Stories and Acceptance criteria.
- Involved in developing Test planning as well.
- Designed and implemented end-to-end automated test scenarios for Web, API, using the ACCELQ and OPKEY codeless platform, resulting in a 100% reduction in manual testing effort..
- Categories the test cases as part of Smoke, Sanity, and Regression etc.
- Prepare the Automation scripts using Selenium WebDriver with Cucumber.
- Implemented different automation frameworks from scratch like Page Object Model and Data Driven framework.
- Developed BDD scripts with Cucumber and writing step definitions for behavior framework.
- Good in understanding the API documentations and user stories.
- Validated the XML and JSON body by using JSON parsers.
- Doing Regression and report generation with the help of Jenkins tool for achieving the Continuous Integration.
- Raise and Track defects until closure. Updating and maintaining test cases in test management tool JIRA.
- Safeguarding my code in GIT version control tool.

Project 3 Details :

Project Details : Macy's Ecommerce
Project Domain : Ecommerce Domain
Testing Approach : Automation & Manual
Tools Used : ACCELQ & OPKEY with Java
Defect Tracking Tool : JIRA

PROJECT 2 :

Associate Test Engineer , Wipro Limited **SEP 2023 - FEB 2025**

- Analyses the User Stories and Acceptance criteria.
- Involved in developing Test planning as well.
- Identifying end-to-end scenario, created Test Scenarios, test cases need to be automated.
- Categories the test cases as part of Smoke, Sanity, and Regression etc.
- Prepare the Automation scripts using Selenium WebDriver with Cucumber.
- Implemented different automation frameworks from scratch like Page Object Model and Data Driven framework.
- Developed BDD scripts with Cucumber and writing step definitions for behavior framework.
- Good in understanding the API documentations and user stories.
- Validated the XML and JSON body by using JSON parsers.
- Doing Regression and report generation with the help of Jenkins tool for achieving the Continuous Integration.
- Raise and Track defects until closure. Updating and maintaining test cases in test management tool JIRA.
- Safeguarding my code in GIT version control tool.
- Tested Web app and Native app using cloud for Mobile Automation Testing in Browser Stack with cucumber using Selenium WebDriver.

Project 2 Details :

Project Details : Macy's Ecommerce
Project Domain : Ecommerce Domain
Testing Approach : Automation & Manual
Tools Used : Selenium WebDriver with Java
Testing Frameworks : Cucumber Framework
Defect Tracking Tool : JIRA

PROJECT 1 :

Junior Software Test Engineer , Glibware Soft Solutions **FEB 2022 - AUG 2023**

- Analyze the Requirements in BRD documents and clarification will be raised to our project business analyst.
- Prepare Test plan, Test Scenario, Test cases review with Team.
- Executed test cases using TestNG framework.
- Creating Re-usable methods for maintainability.
- Defects reporting and daily status reporting by using JIRA.
- Participate in all Agile Ceremonies-Planning, Daily Standup/Scrum call, Sprint Review and Sprint Retrospective.
- Prepare Test Execution reports and Defect reports.
- Involved in documentation of the steps that have been followed during the testing process.
- Communicate and provide timely updates with the Test Manager in status meetings.
- Reviewing all the failures in daily build and prepared the document with screenshot of the issue reported and send to the client.

Project 1 Details :

Project Details : WIZZ AIR
Project Domain : Airline Domain
Testing Approach : Automation & Manual
Tools Used : Selenium WebDriver with Java
Testing Frameworks : TestNG
Defect Tracking Tool : JIRA

PROFESSIONAL EXPERIENCE

Bachelor of Computer Application **MAY 2019 - AUG 2022**
Annamalai University - CHIDAMBARAM

ADDITIONAL INFROMATION

Languages: English, Tamil, Kannada, Telugu.
