WORK EXPERIENCE

Senior Salesforce Developer
Accenture - AXA Partners(Insurance)

07/2023 - Present

Achievements/Tasks

- Designed and developed Salesforce solutions using Aura Components, Lightning Web Components (LWC), Apex, Flows, and standard configurations.
- Implemented custom Apex classes, triggers, and test classes, along with third-party integrations.
- Contributed to both frontend and backend development within Experience Cloud, including site setup and customization.
- Used Azure DevOps and Git for deployment, collaborating closely with cross-functional teams to deliver business-focused solutions.

Senior Salesforce Developer
Accenture - United Utilities(Water Services)

01/2023 - 06/2023

Achievements/Tasks

- Developed and enhanced features using Aura Components, Apex classes, triggers, and test classes based on business requirements.
- Worked on Field Service Lightning (FSL) for sales rep service allotment and work order automation.
- Handled end-to-end development including frontend, backend, flows, Process Builder, and deployments.

Salesforce Developer
Capgemini - CocaCola Euro-Pacific Partners

02/2019 - 12/2022

Achievements/Tasks

- Monitored internal Salesforce support inbox, investigated, resolved user issues and worked on the development of Business enhancement requests.
- Performed system admin tasks including user management, field/configuration updates, data loading activities, and email template setup within the Sales Cloud.
- Managed user profiles, roles, security settings, and sharing rules to control access in Salesforce; used Copado for deployments.
