- HTML
- CSS
- SASS
- JAVA SCRIPT
- REACT JS
- REDUX TOOLKIT
- NEXT JS
- ADOBE XD
- FIGMA

Working Experience

Nov 2021 - May 2025

Sr. Software Engineer (frontend Developer)

Chetu India Pvt. Ltd., H6 Noida Sector 63

- Enhanced software functionality by identifying and resolving complex technical issues.
- Mentored junior developers, fostering professional growth and enhancing team productivity.
- Developed scalable applications using agile methodologies for timely project delivery.
- Managed multiple projects simultaneously while maintaining strict deadlines and high-quality standards.

- Analyzed proposed technical solutions based on customer requirements.
- Regularly reviewed peers'' code contributions, offering constructive feedback to enhance overall product quality.

Aug 2017 - Sep 2021

UI/UX Designer

Sine Info Tech, Dwarka, India

- Developed wireframes and prototypes to effectively communicate design ideas to stakeholders and team members.
- Designed user flows, ensuring seamless transitions between different stages of the user journey.
- Worked closely with marketing teams to align branding elements within the UI/UX design.
- Developed interactive mockups using prototyping tools such as Sketch or Adobe XD for validation purposes before implementation phases began.
- Used wireframes, mock-ups and prototypes to establish user interface design and architecture.
- Recommended design changes and iterative updates to IT manager.
- Verified program logic using testing and debugging best practices.

Projects

Frontend Developer

Group Chat Application (Project Name Confidential due to Company Policy)

Tech Stack: Shadow DOM, WebSockets/Pusher, Firebase, HTML, CSS, JavaScript

- Built modular and encapsulated **UI components** using **Shadow DOM**, ensuring style and behavior isolation across the chat interface.
- Created user-facing features such as **chat rooms**, **message threads**, **user presence**, **typing indicators**, **polls**, **quizzes**, **emoji reactions**, and more.
- Integrated **WebSocket/Pusher** for real-time message delivery and maintained **chat history** and user data dynamically.
- Implemented **real-time web notifications** using **Firebase**, keeping users instantly updated on new messages, mentions, and activities.
- Ensured smooth API integration and reliable synchronization between frontend and backend services for seamless user experience.

Crypto Project (Project Name Confidential due to Company Policy)

Tech Stack: React.js, ApexCharts, Adobe XD

- Collaborated with UI/UX designers and translated **Adobe XD mockups** into functional, pixel-perfect web pages.
- Developed and maintained responsive frontend interfaces using **React.js** for a crypto-based platform.
- Integrated **ApexCharts** to visualize dynamic crypto market data with interactive chart components.
- Ensured optimal performance and cross-browser compatibility through efficient component design and code optimization.

UI/Frontend Developer

Automobile Service Center Portal (Built on .NET Framework, Project Name Confidential due to Company Policy)

Tech Stack: HTML, CSS, JavaScript, DataTables, Adobe XD (or Figma, if applicable)

- Designed interactive **mockups and prototypes** to demonstrate user flow and core functionality of the portal.
- Translated design mockups into fully responsive **HTML/CSS/JavaScript** pages, ensuring UI consistency and usability.
- Integrated **DataTables** to efficiently display, search, and paginate service records and appointment data.
- Collaborated closely with backend developers to align frontend implementation with .NET-based APIs and data structures.

UI/Frontend Developer

Multiple eCommerce Website Projects

Tech Stack: HTML, CSS, SCSS, JavaScript, jQuery, Bootstrap (or other libraries you used)

- Designed and developed multiple **custom eCommerce website layouts** based on client requirements and industry standards.
- Translated high-fidelity mockups into **responsive, cross-browser-compatible HTML pages** using **HTML, CSS/SCSS, JavaScript, and jQuery**.
- Utilized frontend libraries and frameworks to implement **interactive components** such as sliders, product carousels, filters, and dropdown menus.
- Focused on clean, modular code and **responsive design practices** to ensure optimal user experience across desktop and mobile devices.
- Collaborated closely with designers and backend teams to integrate UI components with functional APIs and data sources.

Professional Qualification

Nov 2015 **Bachelor of Arts: Political Science**

SOL, Delhi University - Delhi, India
