VIVEK KUMAR

Ghaziabad, Uttar Pradesh • +91-9555757297 • singhvivek.2593@gmail.com
https://www.linkedin.com/in/vivekkumar2593/

PROFESSIONAL SUMMARY

Results-driven ETL and SQL Developer with experience in developing and optimizing database applications. Proven expertise in ETL processes using tools such as Informatica PowerCenter and Informatica Intelligent Cloud Services, along with strong skills in data migration, performance tuning, and troubleshooting. Effective collaborator with excellent communication skills, comfortable leading teams or working independently to achieve project goals.

SKILLS

Technical Skills

- Programming languages: SQL, PL/SQL, Python, Unix/Linux, C,C++, Java ETL
- ETL Tools: Informatica Power Center, IICS CDI/CAI, TOAD
- Database: Oracle database, Microsoft SQL Server
- Git and GitHub

Personal Skills

- Management Skills
- Leadership
- Problem Solving
- Analytical Thinking
- Adaptability
- Multi-tasking

WORK EXPERIENCE

Impressico Business Solutions | Noida, INDIA — DEC 2024 - PRESENT

Project: Aramark_GFF | Client: Philadelphia, USA

- Designed and implemented over 15+ ETL mappings and workflows using Informatica PowerCenter, enabling seamless integration of operational data into the enterprise data warehouse.
- Improved workflow performance by 30% through optimization of session configurations, transformation logic, and pipeline partitioning, reducing total run time and increasing job reliability.
- Conducted over 100+ manual data validation test cases in TOAD using advanced Oracle SQL queries to ensure data accuracy and successful migration from source to target systems.
- Collaborated with the Business Analyst team to draft technical design documents (HLD/LLD) for 10+ ETL processes, improving cross-functional team efficiency and reducing onboarding time for new developers.
- Participated in daily business meetings with onshore stakeholders, contributing to requirement clarification and refinement, which improved delivery turnaround time by 20%.
- Supported production environments by identifying and resolving ETL job failures and performance issues, achieving a 98% SLA compliance rate.

Freelance ETL/SQL DEVELOPER — Feb 2019 - Oct 2024

- **ETL Development & Optimization:** Designed and developed ETL workflows using Informatica PowerCenter and IICS (Informatica Intelligent Cloud Services), handling complex data integration for various clients, including insurance and healthcare sectors.
- **SQL and PL/SQL Expertise:** Created and optimized advanced SQL and PL/SQL scripts to manage and process large datasets, significantly improving data extraction, transformation, and reporting efficiency.
- **Automation & Scripting:** Developed Unix shell scripts and Python automation solutions, streamlining data extraction processes and reducing manual intervention by 30%.
- **Performance Tuning:** Optimized ETL workflows, reducing data processing times by 25% through improved query performance, efficient transformations, and database optimizations.
- **Client Collaboration:** Worked closely with clients to gather business requirements, provide regular updates, and deliver customized ETL solutions, ensuring project success and client satisfaction.

Key Projects: Health Insurance Claims Processing: Designed a claims data integration system for ahealth insurance company, reducing data processing time by 30% and improving overalldata quality.

TATA CONSULTANCY SERVICES | KOLKATA & GURUGRAM, INDIA — DEC 2012 - AUG 2018

Project 1: Friends Life | Client: Diligenta, Peterborough — **March 2015 - Aug 2018**

- Translated the business requirements into Informatica mappings to build data warehouse by using Informatica PowerCenter, which populated the data into the target.
- Implemented comprehensive SQL queries using Joins and Sub-Queries and developed PL/SQL scripts to support business analytics.
- Executed ETL processes using Informatica PowerCenter and developed automated scripts for data extraction, transformation, and loading(ETL), improving data migration efficiency by 25%.
- Reduced SQL query execution time by 20% through performance tuning and optimization.
- Interacted with on-site leads to provide updates on daily activities, ensuring smooth project progress and client satisfaction.

Project 2: HES-SSE | Client: SSE, Scotland — **Jan 2014 - March 2015**

- Executed complex SQL queries and optimized PL/SQL stored procedures to meet business requirements.
- Coordinated cross functional teams to create comprehensive documentation for ETL processes including High-Level Design (HLD) and Low-Level Design (LLD) documentation which is now utilized by over 15 team members as a standardized reference, improving onboarding efficiency and knowledge sharing.
- Developed and executed unit test cases for the SSRS build team to ensure accurate report generation and data integrity.
- Provided L2/L3 technical support, resolving critical issues and ensuring smooth operations using ticketing tools, while collaborating with the maintenance team to handle system improvements.

Project 3: United Biscuits | Client: UB, UK — **Dec 2012 - Jan 2014**

- Executed SQL and PL/SQL code to simplify complex queries involving multiple tables while optimizing procedures and triggers in production and improving database performance and loading.
- Analyzed Excel-based reports using .NET, adapting scripts to meet business requirements and improve data accuracy and reporting efficiency for stakeholders.
- Collaborated closely with on-site leads, providing regular updates on daily activities, project milestones, and issue resolutions.

EDUCATION

B.E (Electronics Engineering)
Yeshwantrao Chavan College of Engineering
- University: RTM Nagpur, Maharashtra | Percentage: 75.01%

HSC
Creane Memorial High School, Gaya, Bihar
- Board: CBSE | Percentage: 86.80%

ADDITIONAL INFORMATION

- **Languages:** English, Hindi
- **Certifications:** Informatica Tutorial: Beginner to Expert Level (Udemy) , Informatica Cloud (IICS): TheComplete Guide 2024 Edition (Udemy), IBM Professional Certified Python for Data Science (Coursera)
- **Awards:** Received the "Employee Excellence" Award for outstanding contributions to the project.
