VIGNESH G

NETWORK ANALYST | IT INFRASTRUCTURE AND NETWORKING

vigneshgv9821@gmail.com 7795523538 Bengaluru

CAREER OBJECTIVE

To utilize my technical skills and provide a professional service to the organization by applying and honing my knowledge and working in a challenging and motivating working environment

SKILLS

>Microsoft Applications : Word, Excel,Power Point

>Networking : Switching,Routing,Subnetting,Supernetting,Topologies

Stimulation Tool : Cisco Packet Tracer
Configuration Tool : Putty Terminal,Secure CRT, Versa Directory and Orchestrate, Cisco DNAC.
Devices : Cisco Routers and Switches, Juniper Switches,Versa SD-WAN,F5 Load Balancer.
Networking Models : OSI, TCP/IP
Architecture : Client server, Peer to Peer
Security : Firewall ,ACL
Routing Protocols : OSPF, BGP, EIGRP
Switching : VLAN, VTP, STP, Etherchannel(PAgP,LACP)
High Availability : HSRP,VRRP, GLBP

EXPERIENCE

NETWORK ANALYST
JUN 2023 – PRESENT
INFOSYS | EXXON MOBIL

Roles and Responsibilities

1. IOS Upgrades:
   - Planned, tested and executed IOS upgrades on Cisco Switches and routers, OS upgrade of Juniper devices, F5 Load balancer and Versa SD-WAN to enhance performance,security and stability.
   - Ensured minimal network downtime during upgrades by implementing proper back up and rollback strategies

2. Network Configuration and Troubleshooting :
   - Configured and optimized network devices.
   - Troubleshooting Network related issues in LAN/WLAN/WAN
   - Resolved network connectivity issues and performance bottlenecks encountered after firmware upgrades.
   - Implementation of switches and routers.

3. Patch Management:

   - Managed patching schedules and version control to keep the network infrastructure upto date with security patches

4. Documentation and Reporting:
   - Maintained detailed documentation of network configurations and troubleshooting steps for future reference.
   - Generated periodic reports on network performance and upgrade outcomes.

5. Collaborations and Coordination:
   - Collaborated with cross-functional teams to schedule upgrades, minimizing impact on business operations
   - Coordinated with vendors for support during complex upgrade or hardware compatibility checks

6. Monitoring and Post-Upgrade Testing:
   - Monitored the network after IOS Upgrades to ensure optimal functionality and zero disruption
   - Conducted post upgrade testing to verify that all devices met performance benchmark

7. Security Enhancement:
   - Implemented security-focused updates to address vulnerabilities in outdated IOS versions.

8. Communication:
   - Effectively Communicate upgrade schedules, progress and potential impacts to stakeholders, ensuring transparency and alignment
   - Providing timely and accurate customer feedback.
   - Talking to customers through a series of actions to resolve a problem.
   - Following up with clients to ensure the problem is resolved

Key Competency

- Knowledge about OSI model, TCP/IP model, IP addressing, Network topologies and working of Network devices.
- Knowledge about Protocols.
- Software management of the network devices.
- The ability to quickly diagnose and resolve complex network issues and identify trends in network data.
- Practical Knowledge on Routing protocols like OSPF, BGP, HSRP and Static Routing
- Implementing and configuring cisco switches ,routers and Wireless Controllers.
- Troubleshoot the functions of Port-Channel, Switch Stacking , VSS
- Knowledge on RADIUS/TACACS tools like IDR
- Implementing and configuring Juniper switch, SD-WAN and F5 Load Balancer

- Implementing LAN and WAN connections using switches and routers.
- Subnetting
- Knowledge about DHCP and DNS Configuration
- Basic Linux Commands, Managing file permissions, Users and groups management.
- The ability to collaborate effectively with other IT professionals and work as a part of a team to resolve issues
- The ability to provide technical support and training to end-users and manage client expectations.

OPERATION | IT INFRASTRUCTURE AND NETWORKING
APRIL 2021-DEC 2022
APMSE SOFTWARE SERVICE | EAGLEVIEW

Roles and responsibilities

- Performing Linux, OS installation and configuration both manual, kick start installations and windows installation, Performed basic System Administration tasks, assisted in maintaining optimum server performance
- Analyzed operability requirements for upgrades and new equipment installations.
- Provided independent technical reviews of operational procedures and plans to eliminate functional bottlenecks.
- Developed and maintained standardized operating procedures for numerous functions and tasks to streamline measuring operations.

EDUCATION

Degree	College/School	Year	CGPA/Percentage
BE(Civil Engineering)	BMS College of Engineering	2016-2020	8.83
Pre University	KLE S.Nijalingappa PU College	2014-2016	92.5%
SSLC	MSS High School	2013-2014	94.4

ACHIEVEMENTS

GATE: Qualified in 2021
Above and beyond performance in APMSE company for my outstanding performance for the month of December 2021

PERSONAL STRENGTH

- Highly adaptable to any situation.
- Curious and eager to learn new things.
- Quick learner.

PERSONAL INFORMATION

- Father's Name : Govindaraj S
- Mother's Name: Varalakshmi G
- Hobbies : Painting , Music, Paper art
- Languages : English ,Hindi, Kannada, Tamil

DECLARATION

I hereby declare that the above-mentioned information is correct up to my knowledge and I hear the responsibilityfor the correctness of the above-mentioned particulars.
