SUBHADEEP KUMAR

Network Support Specialist | Routing | Switching | Wireless | Firewall Security

📍 Pune (Relocatable to PAN India) | 📞 +91 8709003877 | ✉ subhadeepkumar23@gmail.com

PROFESSIONAL SUMMARY

Network Engineer with 5+ years of experience in LAN/WAN/WLAN/SD-WAN design, implementation, and support across BFSI, telecom, and government sectors. Skilled in Cisco IOS/IOS-XR, Juniper JunOS, Networking Protocols (OSPF, BGP, MPLS, IS-IS), Switching (VLAN, STP, HSRP, VRRP, LACP), and Firewall Security. Strong background in network capacity planning, NOC operations, customer handling, and ITIL-based change management. Adept at troubleshooting critical network issues, preparing RCA reports, and mentoring L1/L2 engineers. Experienced in design principles of network infrastructure to ensure robust network performance and security.

CORE COMPETENCIES

- **Routing & Switching: OSPF, BGP, MPLS, IS-IS, VLAN, STP (PVST, RSTP, MSTP), HSRP, VRRP, LACP**
- **Wireless & WLAN: Cisco WLC, CAPWAP, Cisco Meraki, Wi-Fi troubleshooting (RSSI, SNR, interference)**
- **SD-WAN: VeloCloud (Edge, Orchestrator, Gateway), Fortinet SD-WAN**
- **Firewalls & Security: Palo Alto, Cisco ASA, Fortinet FortiGate, Checkpoint | IPSec/SSL VPNs, NAT, ACLs**
- **NOC Operations: Incident escalation, shift management, RCA, SOPs, customer handling**
- **Protocols: TCP/IP, DHCP, DNS, ARP, CDP**
- **Tools & Monitoring: Wireshark, SolarWinds, ServiceNow, ITIL Change Mgmt**
- **Documentation: Network topology diagrams, SOPs, KB articles, asset records**

PROFESSIONAL EXPERIENCE

Senior Network Engineer

GTS Technosoft Pvt. Ltd. (DRDO Project) | Apr 2025 – Sept 2025

- **Designed and supported LAN/WAN/WLAN networks with Cisco Catalyst/Nexus switches and WLC/AP deployments, aligning with design principles for optimal network infrastructure.**
- **Implemented OSPF, BGP, VLANs, ACLs and optimized routing for secure, scalable performance, ensuring adherence to networking protocols.**
- **Troubleshot wireless connectivity issues (RSSI, SNR, interference) and configured CAPWAP tunnels to facilitate remote access.**
- **Managed firewall rules, VPNs, and capacity planning for secure access, illustrating a strong focus on security operation.**
- **Produced detailed RCA and SOP documentation for change and incident management, emphasizing my responsibility in maintaining network service.**

IT Security & Network Operations Engineer

HDFC Life Ltd. | Aug 2024 – Mar 2025

- **Deployed and supported VeloCloud SD-WAN – Edge, Orchestrator, and application policies, contributing to the acquisition of innovative networking solutions.**
- **Configured and troubleshot Meraki MX and Cisco devices – VLAN, link flapping, device provisioning.**
- **Handled routing and switching changes, ensuring ISO 27001 compliance and the integrity of information systems.**
- **Acted as escalation point for L2 incidents, guiding junior engineers and NOC teams, thereby enhancing team competency in incident response.**
- **Maintained documentation: topology diagrams, asset records, SOPs, serving as a critical resource for ongoing researcher initiatives.**

NOC & Security Engineer

Reliance Industries Ltd. | Aug 2021 – Jul 2024

- **Provided L2/L3 support in NOC environment for LAN/WAN incidents and VPN issues.**
- **Escalated and resolved network problems, collaborating with L3/vendor teams to ensure adherence to security principles.**
- **Managed firewall configurations (NAT, ACL, VPNs) and supported migrations, contributing to the safeguarding of network infrastructure.**
- **Monitored network performance using SolarWinds/Wireshark and generated RCA reports.**
- **Ensured compliance with RBI, PCI-DSS security standards, enhancing the overall security posture of the organization.**

Technical Support Engineer – Network & Security

Tech Mahindra Ltd. | Feb 2021 – Jul 2021

- **Assisted in firewall migrations (Cisco ASA/Checkpoint to Palo Alto), directly contributing to service continuity and migration efficiency.**
- **Supported LAN/VLAN and WLAN troubleshooting during production cutovers, demonstrating adaptability and hands-on responsibility.**
- **Configured and troubleshot VPN, NAC, and HA setups, minimizing downtime and ensuring resilient service delivery.**

CERTIFICATIONS

- **Cisco Certified Network Associate (CCNA)**
- **CompTIA Network+**
- **ITIL Foundation**
- **AWS Cloud Practitioner – Networking**

- **Cisco Certified Network Professional (CCNP) – In Progress**
- **CISSP & CISA – In Progress**

EDUCATION

B.E. – Electrical & Electronics Engineering
Birla Institute of Technology, Mesra | 2016 – 2020

PROJECT HIGHLIGHTS

- **NOC Operations: Managed shift escalations, incident handling, and RCA documentation, emphasizing my role in ensuring uninterrupted service.**
- **SD-WAN Migration: Deployed VeloCloud solutions for BFSI customers, highlighting my capacity for talent acquisition in networking solutions.**
- **Network Security: Designed firewall policies, VPNs, and ACLs for multi-site enterprises following critical design principles.**
- **Routing & Switching Projects: Supported VLAN, MPLS, OSPF, BGP, IS-IS, and wireless optimizations, ensuring robust network performance and system integrity.**
