Manthan Aggarwal

Android Developer – Java, Kotlin, Jetpack Compose, SDKs, Firebase

manthanaggarwal2903@gmail.com 9372723167 Linkedin Chandigarh, India

Summary

Android Developer with 3 years of experience in designing, developing, and maintaining scalable mobile applications. Proficient in Java and Kotlin with hands-on expertise in Android SDK, API integration, and custom SDK development. Proven track record of reducing crash rates, optimising performance, and delivering production-ready features on time. Skilled in Clean Architecture and MVVM/MVP patterns, building robust solutions in Agile environments.

Skills

Java, Kotlin, MVVM, MVP, Clean Architecture, Jetpack Compose, Android Architecture Components, Android Studio, Git, Firebase Console, Postman, Azure, ADB, Debugging Tools, Proguard, Retrofit, Google Maps API, Room, DataStore, SQLite, WorkManager, Custom Views, Picasso, Gson, Hilt, Coroutines, Flows, LiveData, FusedLocationProviderClient, RecyclerView, Unit Testing, JUnit, CI/CD Pipelines, RESTful APIs, JSON, Dependency Injection (Dagger/Hilt), Material Design, AndroidX, View Binding, Data Binding, Location Services, Maps Integration, Data Structures & Algorithms (DSA)

Professional Experience

Android Developer Sep 2022 – Present
Jio Platforms Limited- Reliance Navi Mumbai, India

- Developed and maintained multiple high-impact Android apps and SDKs, including **Jio Beat Planner** and **Jio mHerePro**, improving workforce management and AI-based attendance systems.
- Implemented features like **visit scheduling**, **geo-tagged attendance**, **claim workflows**, and **performance tracking** across business units.
- Increased app stability by reducing crash rates (e.g., from **88% to 99%**, and **90% to 98%**) through targeted optimisations.
- Built reusable SDKs such as **Jio Forms SDK** and **JioYuva chatbot SDK**, enabling seamless cross-platform integration and enhancing in-app support.

Education

Bachelor of Technology, Information Technology Jun 2018 – Jul 2022
Chandigarh Engineering College Mohali, India
CGPA - 8.8

Personal Project

Expense Tracker
Android (Kotlin, MVVM, Room, Jetpack Compose)

- Built a personal expense management app using MVVM architecture and Jetpack components.
- Implemented features like adding, editing, and deleting transactions with category-wise filtering and total calculation.
- Used Room Database for local data persistence, LiveData for UI updates, and Material Design for a polished UI.
- Handled edge cases like input validation, empty states, and optimized UI with RecyclerView and Coroutines.

Achievements

- Delivered 71+ Android features using Kotlin, MVVM, and Jetpack with 100% on-time delivery and zero production-critical bugs.
- Developed reusable Android SDKs (JioForms, JioYuva) using Kotlin and Retrofit, integrated into key apps for cross-platform form handling and AI chatbot support.
- Engineered AI-based attendance solutions with location services, covering 50,000+ users across Reliance workforce apps.

Certification

- **Certificate of Excellence** for contributions to Jio BeatPlanner and mHere Pro, awarded at the JioTalks Stage.
- **Appreciation Certificate** from L1 and L2 managers for delivering quality work and timely project execution.
- **Jio Bond Mentor Recognition** for successfully mentoring new graduates and helping them onboard and skill up quickly.
