Professional Summary

Experienced and detail-oriented **Senior QA Engineer** with **6+ years** of experience in **Manual Testing, API Testing**, and **FinTech applications**. Skilled in **test planning, test case design & scenarios, defect triage, and database validation** using **MySQL**. Strong experience with **Postman, JIRA, TestLink, AWS CloudWatch, Firebase, and Cloudflare**. Knowledgeable in automation concepts with **Java & Selenium**. Adept in Agile/Scrum methodology, SDLC/STLC, and UAT coordination, ensuring quality delivery in high-demand environments.

Core Competencies / Skills

- ✅ Manual Testing (Functional, Regression, Sanity, Smoke, UI, Compatibility, End-to-End Testing)
- ✅ API Testing (Postman, JSON, Headers, Status Codes, Schema Validation)
- ✅ Database Testing & Validation (MySQL Queries, Data Consistency Checks)
- ✅ Test Planning & Estimation
- ✅ Test Scenarios, Test Case Design & Peer Review
- ✅ Defect Tracking & Bug Reporting (JIRA & TestLink)
- ✅ AWS CloudWatch Log Analysis
- ✅ Mobile Testing (Android, IOS, Web Applications)
- ✅ Agile / Scrum Methodology, SDLC, STLC, Sprint Testing
- ✅ UAT Support & Production Validation
- ✅ Tools: JIRA, TestLink, Zeplin, Firebase, Cloudflare, AWS CloudWatch
- ✅ Knowledge of Automation Testing using Java & Selenium

Professional Experience

Senior Test Engineer
Finnovation Tech Solutions Pvt Ltd [KreditBee] – Bangalore
March 2019 – Present

- Executed manual, API, and mobile testing on KreditBee app (Android, IOS, Web) for financial services including onboarding, credit enhancements, and compliance.
- Designed and executed test cases, test scenarios, and end-to-end workflows for functional, regression, sanity, smoke, UI, and compatibility testing.
- Performed API testing using Postman validating request/response cycles, headers, status codes, and JSON schema.
- Conducted database validation with MySQL to ensure backend data consistency across multiple modules.
- Monitored logs using AWS CloudWatch, supporting live issue investigation and root cause analysis.
- Participated in defect triage meetings to define severity, priority, and track resolution in JIRA/TestLink.
- Collaborated with cross-functional teams (Dev, BA, Product) in Agile ceremonies following SDLC & STLC processes.
- Collaborated with cross-functional teams (Dev, BA, Product) during Agile ceremonies.
- Supported UAT cycles, production validation, and deployment testing.

Key Projects

KreditBee Loan Lending Platform: Tested modules such as **User Onboarding, Loan Eligibility, Profile Creation, KYC Verification, Profile Reverification, Credit Limit Enhancement.**

- Validated compliance flows using Aadhaar, PAN, Digilocker.
- Verified post-transaction data consistency via SQL queries.
- Leveraged CloudWatch logs for quick defect resolution.
- Assisted in reviewing automation script results to ensure accuracy with manual test cases.

Achievements

- ✅ Reduced defect leakage by 25% through improved test coverage and early regression testing
- ✅ Improved QA productivity by 30% by enhancing review and planning workflows
- ✅ Led testing for 3+ major releases with zero high-priority defects in production

---

Education

Bachelor of Engineering (B.E.) – Electrical & Electronics Engineering
Kingston Engineering College, Vellore

Certifications

- Software Testing & Development – **QSpiders, Bangalore**
