ANSHAJ SINHA

Salesforce Developer

■ 9455306069 ✉■ anshaj290796@gmail.com ■ Prayagraj, UP

Professional Summary

Salesforce Developer with 5+ years of experience specializing in OmniStudio, Apex, and LWC, with proven expertise in Health Cloud and Insurance domains. Skilled in Salesforce customization, configuration, and deployments using Git, Azure DevOps, Bitbucket, and Jenkins. Strong track record of delivering scalable solutions, optimizing processes, and ensuring high-quality deliverables.

Skills & Expertise

• Salesforce Configuration & Customization (Custom Objects, Page Layouts, Record Types, Validation Rules, Flows)
• Apex (Synchronous & Asynchronous), Triggers, Test Classes
• Lightning Web Components (LWC)
• Vlocity/OmniStudio (OmniScripts, DataRaptors, Integration Procedures, Data Mappers, FlexCards)
• Security Model (Roles, Profiles, OWD, Permission Sets, Sharing Rules)
• DevOps & Tools: Git, Azure DevOps, Jenkins, AutoRabit, VS Code, Bitbucket

Professional Experience

Wilco Source (CitiusTech) | Salesforce Developer | Dec 2024 – Present
Independent Blue Cross Project
• Leveraged Salesforce Health Cloud with focus on Provider Network Management.
• Developed OmniScripts, Integration Procedures, Data Mappers, Apex classes, and LWCs to deliver scalable, high-performance solutions.
• Handled deployments up to QA using Git and Azure DevOps ensuring smooth testing cycles.
• Actively contributed during hypercare period by troubleshooting and resolving ~100 production bugs, ensuring system stability.

Accenture | Salesforce Developer | Sep 2023 – Oct 2024
AT&T; Project
• Served as Senior Salesforce Vlocity/OmniStudio Developer.
• Built APIs using Integration Procedures and Apex, consumed by MuleSoft for seamless Opportunity & Quote creation.
• Delivered OmniStudio components (DataRaptors, OmniScripts) improving quoting efficiency by ~30%.
• Also contributed with Apex classes and Lightning Web Components (LWC) development.

Deloitte Consulting USI | Salesforce Developer | Jan 2023 – Aug 2023
Point32 Health Project

• Insurance-sector client using Salesforce Communities.
• Created & enhanced OmniScripts, DataRaptors, Remote Action classes, LWCs, and Custom Metadata.
• Implemented Asynchronous Apex for efficient background processing.
• Managed deployments using Bitbucket and Jenkins.
• Enabled brokers to seamlessly navigate quoting flows in Community portal.

Deloitte Consulting USI | Salesforce Developer | Jan 2022 – Dec 2022
Illumina Project
• Developed a framework leveraging Platform Events to generate custom debug logs.
• Created reusable Apex utility methods for logging, reducing debugging effort by 60%.
• Automated log capture via Platform Event triggers storing logs into custom objects.

Deloitte Consulting USI | Salesforce Developer | Apr 2021 – Dec 2021
CVS Health Care Project
• Implemented Salesforce configuration (custom objects, page layouts, record types, duplicate rules).
• Developed Apex triggers and test classes for automation.
• Designed security model using Roles, Profiles, OWD, Permission Sets, and Sharing Rules.
• Built LWCs such as input forms for record creation and editable related lists.

Tech Mahindra | Salesforce Admin | Nov 2019 – Mar 2021
Netgear Project
• Configured Salesforce (page layouts, profiles, flows, process builders).
• Created reports and dashboards to provide actionable insights.
• Supported business users and ensured smooth Salesforce adoption.

Certifications

• Salesforce Certified Platform Developer I
• Salesforce Certified OmniStudio Developer
• Salesforce Certified Platform App Builder

Education

• B.Tech in Civil Engineering, Dr. APJ Abdul Kalam University, 2019 – 76.4%
• Senior Secondary, CBSE, 2014 – 66.6%
