Professional Summary

Results-driven Salesforce Developer with 8+ years of experience designing, customizing, and optimizing Salesforce solutions to drive business growth and efficiency. Skilled in end-to-end Salesforce development, integrations, and deployments across Sales, Service, CPQ and Experience Clouds. Adept at gathering requirements, architecting scalable solutions, and collaborating with cross-functional teams. Recognized for delivering high-quality, user-focused CRM implementations that improve productivity and enhance customer experience.

Core Skills

- Salesforce Technologies: Apex classes, Triggers, Integrations, Automation, Security, Lightning Components (Aura, LWC), SOQL, SOSL
- Cloud Expertise: Sales Cloud, Service Cloud, Experience Cloud, Salesforce CPQ, AI Agentforce.
- Integrations: REST/SOAP APIs, Middleware, External Systems Integration.
- Tools & Platforms: Git, Jenkins, VS Code, Copilot, Data Loader, Postman, Workbench, Gearset.
- Methodologies: Agile/Scrum, DevOps, CI/CD.
- Other Skills: Requirement Gathering, Solution Design, User Training, Production Support.

Experience

Ultimate Kronos Group

Lead Salesforce Developer | *2021 – Present | Location - Noida (201301)*

- Designed and delivered scalable Salesforce solutions across Sales, Service, and Community Clouds by gathering business requirements and translating them into technical implementations.
- Developed and customized Apex, Visualforce, Lightning Web Components (LWC), triggers, workflows, and automation (Flows, Process Builder, Workflow Rules) to streamline operations.
- Built and supported integrations with external systems (NICE inContact, Saviynt, Active Directory, GCP) using REST/SOAP APIs, improving data flow and system connectivity.
- Led CRM consolidation, data migration, and component upgrades (Visualforce → LWC), ensuring data integrity and seamless user adoption during major transformations.
- Implemented case management, live chat, and CPQ solutions including product bundles, pricing rules, discount tools, and approval processes to enhance customer and sales operations.
- Conducted peer code reviews and enforced Salesforce best practices to maintain code quality, reusability, and compliance with enterprise standards.
- Oversaw Agile delivery cycles, release management (Gearset), production support, and dashboard/report creation, ensuring stability, transparency, and business intelligence.

Cognizant Technology Solutions

Sr. Salesforce developer | *2019 – 2021 | Location - Noida (201301)*

- Analyzed organizational data, business processes, and workflows to align with Salesforce.com implementation requirements.
- Led and managed a development team by assigning tasks, monitoring progress, and coordinating with clients to address priority issues and provide regular updates.
- Assessed requirements for feasibility and proposed effective design approaches to ensure scalable and maintainable solutions.
- Performed Salesforce configuration, data migration (Apex Data Loader), and developed Apex Triggers and Classes to support complex business processes.
- Handled project analysis and administrative activities, including status reporting, documentation of analysis sessions, and preparation of deliverables.
- Authored technical specification documents, unit test plans, and project reports to ensure clarity and quality of deliverables.
- Designed and implemented custom objects, ER models, Lightning components, Flows, formulas, validation rules, page layouts, and custom tabs, along with security features such as roles, profiles, permission sets, public groups, custom settings, and labels to meet application needs.

Ubitech Solutions

Salesforce developer | *2016 – 2019 | Location - Gwalior (474001)*

- Assisted in the development and configuration of Salesforce applications for Sales Cloud.
- Wrote Apex triggers, classes, and test methods to support business logic and maintain code quality (above 85% coverage).
- Provided day-to-day production support and bug fixes, ensuring system stability and business continuity.
- Collaborated with QA teams to test and validate new functionality before deployment.

Education

Master of Computer Application
RGTU Bhopal | *2013 - 2016*

Bachelor of Computer Application
MCNUJC Bhopal | *2006 - 2009*

Certifications

- Salesforce Certified Platform Developer 1 - (2017)
- Salesforce Certified Platform Administrator - (2020)
- Salesforce Certified Platform App Builder - (2021)
- Salesforce Certified AI Associate - (2024)

Achievements

- Successfully delivered 10+ major/minor Salesforce implementations across industries.
- Recognized as a key contributor in multiple digital transformation initiatives involving Salesforce migrations.
- Consistently achieved 95%+ client satisfaction scores for delivered solutions.
- Awarded multiple times for critical deliverables.
