WORK EXPERIENCE

Senior Consultant
Deloitte USI

04/2024 - Present *Gurugram*

Achievements/Tasks

- Designed, implemented, and maintained 15 + ETL pipelines using Databricks and Astronomer Airflow, improving data processing efficiency by 25 %.
- Analyzed traffic and financial datasets, providing insights that contributed to a 10 % increase in product growth.
- Enhanced the performance of data pipelines, reducing processing time by 30 %.

Consultant
Deloitte USI

10/2021 - 04/2024 *Gurugram*

Achievements/Tasks

- Developed etl pipelines to pull data from sources like Snowflake, Api, S3 bucket etc. and populated them in BigQuery.
- Drove requirements gathering from client and helped build smooth process for easy availability of the data.
- Developed Airflow, Docker, CICD, BigQuery, Databricks components to meet client requirements.
- Developed custom operators in python for airflow as and when required in absence of already developed operators in airflow.

IT Analyst
Tata Consultancy Services

09/2016 - 10/2021 *Kolkata,India*

Achievements/Tasks

- Drove business requirements, developed and maintained features for Retail Data through GCP.
- Migrated database components and etl framework from on-premises ORACLE(Enterprise Data Warehouse) to GCP.
- Developed infrastructure in GCP for data transformation, storage and Analytics using BigQuery and Cloud Composer(Apache Airflow).
- High Proficiency in Data Analysis and Complex SQL Queries with over 4 years of experience.

ACHIEVEMENTS

Completed Google Certified Professional Data Engineer Certification

Completed Google Certified Professional Cloud Architect

Completed Professional Cloud DevOps Engineer

AWS Certified Data Analytics – Specialty
(12/2023 - 12/2026)

Databricks Certified Data Engineer Professional
(12/2023 - 12/2025)

SKILLS

Google Cloud Platform: CloudBuild, BigQuery, DataFlow, Dataform, Pub/Sub, IAM, GCP Cloud Storage, Compute Engine, Cloud Run, Cloud Functions, Google Kubernetes Engine, Dataproc

Amazon Web Services: S3, Redshift, Athena,EMR, EC2

Data Analysis | ETL | Data pipeline | Python

Docker | Gitbash | Airflow | Databricks

Shell Scripting | Hive | Delta Tables | Warehousing

Data Modelling | Agile Scrum Process | SQL

Data Engineering | Big Data | RDBMS | PySpark

GitHub | Delta Lake & Delta Tables | Jenkins | CI/CD

Bash Scripting

PROJECTS

Leading UK Supermarket(Morrisons) (09/2016 - 10/2021)

- Created infrastructure in GCP for retail data, coming from different sources, by leveraging GCP services.
- Optimized queries performance in BigQuery up to 50% that made the reports availability to the clients a lot earlier.
- Resolved issues related to query cost optimization during the migration of tables and complex sql queries from on premises to GCP.
- Worked in Oracle Database and ODI to maintain Enterprise Data Warehouse.

Leading US Media/Radio Company(iHeart Media)
(10/2021 - 11/2022)

- Closely worked with clients on gathering different business requirements related to data processing to BigQuery in GCP.
- Developed pipelines from scratch using different GCP services like Composer,Kubernetes,Dataflow and BigQuery.
- Helped improved the data processing and CICD processes for deployment through Cloud Build.

Adobe (12/2022 - Present)

- Helped with data solutioning and data modeling for Bounce Rate,Trials metrics and other business health metrics using tech stacks like Databricks and Airflow.
- Created Data Quality checks and relevant dependency setup in airflow for the efficient and smooth processing of daily data.

EDUCATION

Bachelor of Technology
West Bengal University of Technology(WBUT)

07/2012 - 06/2016 *Kolkata*

LANGUAGES

English
Full Professional Proficiency

Hindi
Native or Bilingual Proficiency

Candidate Skill Report

by codingninjas & naukri

Ankit Kumar Singh View complete coding profile

Top skills

Evaluated by tests and Coding Ninjas experts

	Proficiency
Python	85%
DSA	79%

113 difficult problems solved

Mastered complex topics across different skills

Coding problems solved — **216** DSA problems

Trained to be industry ready

Candidate put in dedicated efforts over 5 months of intensive training

Data Structures & Algorithms in Python

Duration: 3 months | Awarded in: January, 2025

Introduction to Python

Duration: 2 months | Awarded in: December, 2021

Ankush Singla (CEO, Coding Ninjas)
