Rajavardhani Kathiresan **rajavardhani.qa@gmail.com**
QA Manager **+91 8939 625601**
https://www.linkedin.com/in/rajavardhani-kathiresan/ **Chennai**

ROLE HIGHLIGHTS

- **Proactive QA Specialist** – Leveraged **11** years of automation expertise to drive high-impact quality improvements and streamline testing processes.
- **Test Strategy & Automation Leadership** – Built end-to-end automation frameworks and test strategies in Agile/CI-CD environments, improving QA efficiency by 40% and accelerating defect-free deployments through close collaboration with cross-functional teams.
- **Multi-Domain QA Expertise** – Delivered 30% defect reduction across E-Commerce, Manufacturing, Healthcare, and Banking by applying **functional, UI, API, database** and **performance** testing using **Selenium, Cucumber, AccelQ, Cypress** and **Gatling.**
- **Cross-Functional Team Leadership** – Successfully led and guided **cross-functional QA teams**, providing strong mentorship and fostering collaboration to achieve consistent, high-quality outcomes.

SOFT SKILLS

- **Strategic Thinking & Agile Communication** – Aligned QA with high-risk modules and led agile ceremonies, improving test readiness by 30% and reducing defects by 45%.
- **Reliability & Quality-Driven Execution** –Spearheaded end-to-end QA testing for a large-scale data migration to CDP, ensuring zero data loss across 15+ critical tables and delivering 100% on-time sign-offs for all test cycles.

TECHNICAL SKILLS

- **Automation & BDD Testing** – Built scalable automation suites using **Selenium**, **Cypress**, **AccelQ**, **Rest-Assured**, **Cucumber**, and **TestNG** boosting test coverage to 95% and reducing regression time by 50%. Familiar with Continuous Integration and Continuous Deployment (CI/CD) pipelines to enable seamless automated test execution and faster delivery cycles.
- **CI/CD & Performance Engineering** – Integrated Gatling-based performance testing and 100% test automation into Jenkins and Azure DevOps pipelines, ensuring fast and reliable releases.
- **Cloud QA & Test Management Excellence** – Validated large-scale data in **GCP** (Spanner, BigQuery), managed test lifecycles using **JIRA**, **Azure**, and **TestLink**, and developed reusable scripts with **Java Programming** Language.

EXPERIENCE

Publicis Sapient-Chennai, India **Senior Associate QA Level 2**
Client: Lloyds (Banking) **Sep 2023 – Present**

- Led QA for a major data migration program; conducted Gatling-based performance testing to ensure smooth transition from OCIS to CDP.
- Validated complex API flows and cloud-based data integrity using Jenkins pipelines and GCP SQL queries.

- Integrated real-world customer journeys into test strategy, improving product quality and end-user satisfaction.

Publicis Sapient-Chennai, India **Senior Associate QA Level 2**
Clients: Cargill (E-commerce) & Optum (Healthcare) **Feb 2022 – Sep 2023**

- Automated E2E workflows using Cypress for Cargill and API validations using AccelQ for Optum, boosting coverage and regression reliability.
- Developed lightweight, maintainable frameworks integrated into Azure DevOps for faster and more efficient test execution.

Altimetrik India Pvt Ltd- Chennai, India **Senior Software Engineer**
Client: PayPal (Payments) **Apr 2019 – Jan 2022**

- Automated API testing PayPal's payment services using Rest-Assured. Integrated test frameworks into Continuous Integration pipelines, reducing manual QA by 60% and accelerating delivery timelines.

Automotive Robotics India Pvt Ltd – Chennai, India **Automation Test Engineer**
Client: Caterpillar (Manufacturing) **Aug 2017 – Apr 2019**

- Built reusable SpecFlow-based automation frameworks and integrated UI/API scripts, enabling full E2E coverage and reducing manual test cycles by 50%.

Photon Interactive Pvt Ltd – Chennai, India **QA Engineer**
Client: Darden (E-commerce) **Aug 2015 – Aug 2017**

- Engineered Behavior-Driven Development (BDD) UI test automation suite with Cucumber and Page Object Model (POM), resulting in consistent cross-browser test results and improved product quality.

Photon Interactive Pvt Ltd – Chennai, India **QA Engineer**
Client: American Eagle Outfitters (E-commerce) **Sep 2014 – Jul 2015**

- Executed through cross-device and cross-browser validation, including automated test scripts, identifying critical defects early and ensuring stable, high-quality releases across iOS and Android platforms.

EDUCATION

Bachelor of Engineering (CSE), Velammal Engineering College – CGPA: 7.7/10 | **HSC**: 91.42% | **SSC**: 93.6%

AWARDS & RECOGNITION

- **Bug Hunter Award** – Recognized for identifying critical bugs in early development stages, significantly reducing rework and production issues.
- **Dual Automation Excellence** – Acknowledged for executing both functional and performance automation testing, ensuring robust and reliable product delivery.

ADDITIONAL INFORMATION

- Committed to well-being and resilience through regular **marathon** runs and fitness event participation.
