SUMMARY

Detail-oriented QA Lead with 8+ years of expertise in software testing, specializing in both automation and manual testing. Skilled in leading QA teams, designing test strategies, and implementing scalable testing frameworks to enhance efficiency and product quality. Adept at driving process improvements, mentoring teams on best practices, and ensuring seamless delivery of complex projects across web, mobile, and API platforms.

EXPERIENCE

QA Lead

Falcon Auto-tech pvt. ltd

03/2024 - Present

A company focused on innovative automation solutions in the industry

- Oversaw the end-to-end QA process, including team training and creating test scenarios
- Conducted regression, compatibility, and smoke testing, as well as test report documentation
- Tracked and updated defect statuses daily in Jira and conducted UI, mobile, and compatibility testing
- Participated in weekly client calls to gather requirements
- Designed and maintained Selenium automation scripts using Java and TestNG with POM
- Automated critical regression flows and integrated automation suites with Jenkins for CI/CD execution
- Developed reusable libraries and API automation scripts using RestAssured
- Enhanced reporting using Extent/Allure Reports and mentored team members on automation best practices
