WORK EXPERIENCE

Uncia Technologies

Software Engineer April 01 2023 - February 28 2025

- 2years of experience in parsing, reading, writing, and validating XML using C# with technologies like XmlDocument, XDocument, and LINQ to XML
- Developed RESTful APIs in .NET, ensuring efficient data exchange and integration with front-end applications.
- Written complex SQL queries in SQL Server to manage, retrieve, and manipulate data, optimizing database performance.
- Developed microfrontends in Angular 16.14.2, enabling modular and scalable web applications with enhanced maintainability.
- Worked on complex logic for a fintech application, addressing intricate business requirements and ensuring robust functionality.
- Implemented continuous integration and deployment (CI/CD) pipelines to deploy code in Azure DevOps, improving deployment speed and reliability.

MenThee Technologies

Software Engineer May 10 2022 - March 31 2023

- Provided basic solutions for the fintech application, addressing user requirements and enhancing application functionality.
- Worked on bug fixes and implementations in .NET applications, improving software stability and performance.
- Created screens for the Angular microfrontend application, ensuring a seamless and user-friendly interface.
- Written basic to intermediate SQL queries for SQL Server databases to manage and manipulate data effectively.
- Worked on creating REST APIs for basic CRUD operations in the application, facilitating data management and integration.

EDUCATION

JP College of Engineering

Bachelor of Engineering in Mechanical Engineering - 7.65 GPA April 2021

SKILLS

- HTML,CSS
- Dot Net Core and Entity FrameWork
- Angular TS
- MS SQL
- Microservices
- AzureDevOps (CI/CD Pipelines)
- GitHub
