Chennai, India

Developer with 3 years of experience in designing, developing, and maintaining dynamic web applications using **C#,ASP.NET, .NET Core, MVC,WEP API**, **SQL Server** and related technologies. Adept at integrating and managing background job processing systems, enhancing system scalability, and automating business workflows.

WORK EXPERIENCE

Product Development Engineer

Gradatim It Ventures Private Limited.

09/2022 - Present *Chennai, India*

Roles, Responsibilities & Interest

- Developed and maintained scalable web applications using **C#, ASP.NET,.NET Core and MVC** significantly improving system performance and user experience00
- Built and customized **3-tier applications**, focusing on dynamic web pages and client-side interactivity with JavaScript, HTML, and CSS.
- Implemented **Restful APIs** to enhance data exchange and service interactions for client applications and **third-party integrations**.
- Collaborated with cross-functional teams to gather requirements, ensuring timely delivery of high- quality solutions.
- **Optimized** database queries and application code, achieving a **20% reduction in load times** and improved efficiency.
- Conducted code reviews and participated in daily stand-ups, actively contributing to **Agile development** processes. Gained hands-on experience with user stories and change requests related to server-side programming.
- Analyzed and tested server-side transactions using SQL from **Microsoft SQL Server**.
- Created SQL **Stored Procedures for production deployments**, following unit testing protocols before code release.
- Contributed to projects in the **health, life and device** insurance domains, enhancing application functionalities.

EDUCATION

BE - CSE

C.Abdul Hakeem College Of Engineering &Technology College.

07/2015 - 04/2019 *vellore*

HSC

Ethiraj Matriculation Hr.Sec School.

06/2013 - 05/2015 *vellore*

SKILLS

C# | ASP.NET | MVC | .NET CORE | SQL | JAVASCRIPT | JQUERY | WEB API | RESTFUL API | POSTMAN | ENTITY FRAMEWORK | AGILE | REACT | GIT | AZURE | MICRO SERVICES

PROJECTS

ABSLI(Life Insurance)

- Developed and maintained core modules including **Client Master, New Business, Underwriting, and Claims** to streamline the insurance policy lifecycle.
- Implemented features to create and manage master policies, upload and validate member data, and automate **premium deductions** from advance payments.
- Designed underwriting workflows for evaluating **financial** and **medical documents**, improving risk assessment and **policy issuance accuracy**.
- . Built a secure **claims module** allowing users to submit and track insurance claims through the portal, reducing manual intervention.
- Collaborated with cross-functional teams to align system functionalities with **business requirements** and **regulatory standards**.
- Optimized system performance and **validation logic, leading to faster claim processing** and an enhanced user experience.

Device Insurance

- Built and maintained an insurance **platform** for electronic devices, enabling policy management, claims, and repairs across **Admin**, **Agent**, **Service Center**, and **Customer** portals.
- Designed **and** implemented complex **database schemas** and **optimized queries** using **SQL Server** for efficient data storage and retrieval.
- Integrated **Entity Framework** for seamless database communication, improving data access speed and scalability.
- Implemented key business modules, including **user management, reporting** , and **automated workflows** , reducing manual effort by 25%.
- Enhanced user interface with **jQuery** , delivering a responsive and user-friendly experience.
- Collaborated with cross-functional teams to gather requirements and ensure alignment with business objectives, leading to a **20% improvement in process efficiency** .
- Conducted comprehensive **manual testing** and **debugging** to ensure system reliability and minimize production issues.

ACHIEVEMENTS

Team Award

Recognized with a Team Award for exceptional collaboration and teamwork, improving project delivery times by 20%
