SUMMARY

Result-driven Senior Android Developer with 5+ years of experience in designing, developing, and maintaining high-performance mobile applications. Proficient in modern Android development using Kotlin, Jetpack Compose, MVVM, and Clean Architecture. Adept at implementing RESTful APIs, Firebase services, responsive UI/UX, and third-party integrations. Hands-on with modular architecture, CI/CD pipelines, and scalable solutions for phones, tablets, TVs, and custom hardware. Passionate about delivering intuitive, efficient, and maintainable apps that align with business and user goals.

SKILLS

- Android Studio, SDK, NDK
- Kotlin, Java, XML
- Jetpack Compose
- Clean Architecture - MVVM
- Jetpack Components
- Firebase, Room Database, SQLite, DataStore
- Dependency Injection - Hilt, Koin
- RESTful APIs - Retrofit, Ktor, GraphQL
- UI/UX - Figma, Adobe XD
- Version Control - GitHub, SourceTree
- Libraries - Coil, Glide, ExoPlaye
- Testing - JUnit, Mockito, Espresso
- SOLID Principles
- Data Structures & Algorithms, DSA

EXPERIENCE

Sr. Android Developer / Saregama India Ltd. - Mumbai, India *06/2023 - Current*

- Independently developed the 'Song Lab' application from scratch for Saregama India, Ltd.
- Worked on the digital "Caravan 3.0" application project for tablet, phone, and a custom device.
- Designed the 'Caravan TV' application in Figma, single-handedly collaborated with the product team.
