Skills

- Java
- Spring, Spring-Boot, Hibernate
- Microservices
- MySQL , MongoDB
- Angular
- Python
- Sonar and Code reviews

Lead Java Fullstack Developer with **8+** years of experience in delivering secure, scalable, and high-performance enterprise applications in Banking, Capital Markets and Payments. Adept at architecting and optimizing solutions, resolving vulnerabilities, and leading teams in Agile/DevOps environments. Recognized for mentoring engineers, ensuring code quality, and driving end-to-end SDLC delivery.

Core Skills

- **Backend**: Java (8–17), Spring Boot, Spring MVC, Hibernate, REST APIs, Microservices
- **Frontend**: Angular, TypeScript, React, JavaScript, Responsive SPA design.
- **Cloud & DevOps:** AWS, OpenShift, Docker, Kubernetes, Jenkins, GitLab CI, TeamCity, uDeploy, OCP, Splunk.
- **Databases**: Oracle, MySQL, PostgreSQL, MongoDB, ElasticSearch.
- **Integration & Messaging:** Kafka, Event-driven architecture.
- **Security & Quality:** OWASP, SonarQube, Checkmarx, BlackDuck, SAST/DAST, JUnit, Mockito.
- **Practices**: Agile/Scrum, Secure coding, Performance & scalability optimization, Code reviews, Mentoring.

Work History

2021-07 – Present

Lead – Technology

Synechron Technologies, Pune

Project#1 Opus – Deal Management System (Capital Markets)

Responsibilities:

- This is digitalized solution for Capital Markets Bankers to manage deal lifecycle and workflows related to any deal.
- Designed and developed cloud-native microservices for workflows including KYC, Expense Tracking, Sanctions, MIFID, and FinCEN compliance.
- Built secure RESTful services with Java 11/17, Spring Boot, MongoDB, ensuring reusability, extensibility, and code coverage (80–100%).
- Integrated external services for KYC and approvals, optimizing API performance and scalability.
- Resolved component vulnerabilities by upgrading Spring and Angular libraries, ensuring OWASP compliance.

- Contributed to design reviews, technical documentation, and system architecture discussions.

Technologies involved: Java 11/ Java 17, Spring Boot, Microservices, Angular, MongoDB, Jenkins, OCP, uDeploy, Splunk, Mockito, SonarQube.

Project#2 Structured Digital Database

Responsibilities:

- Developed REST APIs and microservices for transaction audit and deal data capture.
- Built Single Page Applications (SPA) with Angular for audit trails and deal lifecycle management.
- Enhanced system reliability and performance in production, ensuring regulatory compliance.

2020-09 – 2021-07

Lead Engineer - Development

FIS Global, Bangalore

Project#3 SMB-ecommerce

Responsibilities:

- Designed and implemented merchant-facing ecommerce solutions, including real-time online transactions, payment settings, and card data storage.
- Developed secure microservices for transaction retrieval, card storage, and payment data, incorporating OWASP and PCI-DSS principles.
- Delivered responsive Angular UI and ensured seamless API integration.

2017-06 – 2020-09

Application Developer

BNY Mellon Technology, Pune, Maharashtra

Project#4 ERI (Excess Reportable Income)

Responsibilities:

- Built RESTful APIs to compute tax-related income (dividends/interest) for client reports.
- Collaborated with business teams to define acceptance criteria and implement requirements.
- Integrated services with Angular front-end for client-facing delivery.

Education

2022-01 - 2023-12

M. Tech: Software Engineering:

Birla Institute of Technology & Science- Pilani, Rajasthan

- Graduated with Distinction – 8.8 CGPA

2013-08 - 2017-07

B.E: ECE

Pune Institute Of Computer Technology - Pune

- Graduated with Distinction - 74.6%

2011-06 - 2013-02

Associate of Science: H.S.C.

R.Y.K. Science College - Nashik

Secured 81.83%

2001-06 - 2011-05

S.S.C.

St. Philomena Convent High School - Nashik

Secured 93.82% with 1st rank in School

Projects & Research (Python/ML)

- Built models for credit card default prediction, property price prediction, spam email detection, and breast cancer classification using **Logistic Regression, Decision Trees, Random Forest, TensorFlow.**
- Developed a COVID-19 chatbot using **AWS Lambda & Google Dialogflow**.

Accomplishments

- Received ***Pride of the Tribe*** award for Apr 2023 for BCMA project.
- Received **STAR** Award and **Employee of the month** Award numerous times during project contributions in Syncehron.
- Received **Distinguished Performance** Pershing Connect Award for Credit Risk project.
- Completed **NCFM Level 1 certification**- Financial Markets.
