📍 Hyderabad, India

Professional Summary

Data Scientist & Solution Architect with 16+ years of IT experience and 7+ years in Data Science, GenAI, RAGs, ML Engineering, MLOps, NLP, and Cloud Architecture (AWS & GCP).

- Expertise in ML/ETL pipelines (Ariflow, PySpark, AWS Glue), Data Migration (Snowflake), and Query Optimization.
- Delivered Natural Language Query (NLQ) solutions using AWS Quicksight Q.
- Architected distributed data processing systems leveraging PySpark & Ray.
- Proven experience in developing POCs, guiding technical teams, and integrating cutting-edge technologies into enterprise solutions.
- Skilled in Python, R, Tensorflow, Scikit-learn, Docker, Kubernetes, and Cloud Services (AWS, GCP).

Technical Skills

Skill Category	Technologies / Tools
Programming Languages	Python (3.7), R, Google Apps script/javascript
ML Frameworks & Tools	Tensorflow, Keras, Scikit-learn, Gen AI, Seldon, DVC
Cloud Platforms	AWS (EC2, S3, Glue, Lambda, Quicksight Q), GCP (BigQuery, Vertex AI, Looker)
Data Analytics Visualizations	Tableau, Looker
Big Data Processing	PySpark, Airflow, CtrlM, Snowflake, BigQuery
Databases	MSSQL, MySQL, MongoDB, Neo4J, Cassandra
Deployment & CI/CD	Docker, Kubernetes, API Gateway
Version Control	Git, DVC

Certifications & Training

- Google Data Analytics Professional Certificate
- Deeplearning.AI: Neural Networks & Deep Learning
- Certified Snowflake Web UI Essentials
- PCAP – Certified Associate in Python Programming

Professional Achievements

- In pursuit of GCP Gen AI Leader
- Best Performer of the Year – Olive Technology Ltd (2 Years)
- Achieved Commendable Rating – Infosys Ltd
- Member of Birlasoft AI/Automation Technical Council
- Core Group Member – Free Software Foundation AP Chapter

Professional Experience

- Solution Architect | TCS | Hyderabad | Jan 2023 – 15th September 2025
    - Led AI/Automation solutions for Woolworths and Equifax.
    - Designed scalable cloud architectures on AWS & GCP.
    - Automated data workflows, generated lineage documents, and improved process efficiencies by ~40%.
    - Mentored technical teams and reviewed high-performance code.
- Solution Architect | Birlasoft Ltd (AI/Automation Group) | Hyderabad | Mar 2020 – Jan 2023
    - Implemented Clinical NLP solutions for Johnson & Johnson.
    - Architected ML pipelines integrating Seldon, DVC, and APIGateway.
    - Developed and deployed NLQ solutions leveraging AWS Quicksight Q.
- Technology Lead | Infosys Ltd | Hyderabad | May 2017 – Mar 2020
    - Delivered Data Migration projects (Hadoop to Snowflake).
    - Developed APIs supporting Snowflake integration, enhancing data accessibility and performance.
    - Spearheaded AutoML tools for Business Analysts using H2o and Cherrypy.
    - Optimized AWS Glue jobs by partitioning and scaling resources.
    - Implemented distributed computation workflows using Ray for performance efficiency.
- System Analyst & Sr. Programmer | ValueLabs LLP & Olive Technology Ltd | Hyderabad | 2011 – 2017
    - Designed and developed full-stack web application solutions for various domains such as ecommerce, banking using CMS and CMF
    - Improved code quality using OOPs and SOLID principles
- Software Engineer | DR Intellects / Digitam Pvt Ltd, StepLabs | Hyderabad | 2008 – 2011
    - Developed and maintained multiple ecommerce and marketing websites with single CMS
- Programmer | FSF (NGO) | Hyderabad | Jun 2007 – Mar 2008
    - Developed and supported website by CMS
    - Contributed to opensource platform in language translation

Key Projects

- IM-Finance Data Platform (Woolworths)
    - Automated documentation and lineage using **Gen AI**, Airflow, and App Scripts.
    - Reduced manual effort by ~40% and increased accuracy.
- BRM Automation (Equifax)
    - Automated Billing and Revenue Management process using Airflow, reducing manual errors.
    - Designed resilient workflow architecture with proactive monitoring.
- Clinical NLP Solution (Johnson & Johnson)
    - Built literature classification pipeline using NVIDIA Bio-Megatron, Google BERT, SVM.
    - Improved recall over precision to minimize false negatives.
- AWS Glue Optimization (Toyota)
    - Improved ETL job performance using vertical/horizontal partitioning and scaling strategies.
    - Reduced data processing time by 60%.
- AutoML Tool (Cisco)
    - Developed AutoML framework enabling Business Analysts to perform EDA and model training with minimal effort.
    - Generated actionable insights from warehouse datasets.

Education

Bachelor of Engineering in Computer Science
JNTU, Hyderabad, India | Sep 2003 – June 2007

Languages

English, French (Basic), Hindi, Telugu

Extra-Curricular Activities

- Member – Free Software Foundation AP Chapter
- Passionate about Trekking, Wild Boot Camps, and Horse Riding

`
