PROFILE SUMMARY

Proficient software developer with 6+ years of experience in JavaScript and TypeScript. Skilled in designing, developing, and deploying scalable web applications using Node.js and Angular. Extensive experience with AWS services, database management (MySQL, PostgreSQL), and cloud technologies. Adept at optimizing performance, integrating payment gateways, and building microservices with Docker. Strong Agile and DevOps knowledge. Passionate about continuous learning and staying up-to-date with emerging technologies.

EXPERIENCE

Software Engineer (Back-end Developer)

Mobile Programming Pvt. Ltd. | **Sep 2023 – Present**
Technologies: JavaScript, TypeScript, Node.js, Express, Firebase, MySQL, Azure, AWS Services

Projects:

- **PTK Korean Mobile App and Website**
  - Designed and developed a mobile app and responsive website for event scheduling, quizzes, and device history tracking.
  - Led a team of 6 members, overseeing design, development, and delivery of scalable APIs.
  - Ensured secure and efficient data synchronization across devices with centralized data management.
  - Optimized performance and scalability of both the app and website.
  - **Technologies:** Node Js Typescript, JavaScript, cross-platform development, RESTful APIs, MySQL, user authentication, cloud hosting, data synchronization.
- **Plant Application**
  - Developed a task management application for resource allocation, manpower optimization, and reporting.
  - Led the team in designing and developing scalable APIs.
  - Built an interactive forecasting dashboard using data visualization tools for resource and task predictions.
  - Integrated real-time updates and APIs for task assignments.
  - Automated workforce tracking to improve operational efficiency.
  - **Technologies:** Node Js Typescript, JavaScript, cross-platform development, RESTful APIs, MySQL, user authentication, cloud hosting, data synchronization.
- **E-commerce Website**
  - Designed and implemented an e-commerce platform for online sales, inventory tracking, and order fulfillment.
  - Led design and development of scalable APIs.
  - Developed a user-friendly interface using HTML, CSS, JavaScript, and modern frameworks.
  - Integrated secure payment gateways (Stripe, PayPal) and real-time inventory tracking.
  - Optimized scalability, responsiveness, and performance for high traffic.
  - Implemented SEO strategies and analytics tracking to increase visibility and improve conversion rates.
  - **Technologies:** Node Js Typescript, JavaScript, cross-platform development, RESTful APIs, MySQL, user authentication, cloud hosting, data synchronization..

Software Engineer (Back-end Developer)

Systango Technology Pvt. Ltd. | **May 2022 – Jun 2023**
Technologies: JavaScript, TypeScript, Node.js, Koa, AppSync, SST, GraphQL, AWS, Serverless Lambda, MongoDB, MySQL, PostgreSQL

Software Engineer (Back-end Developer)

Ideal IT Techno Pvt. Ltd. | **Jan 2021 – Apr 2022**
Technologies: JavaScript, Node.js, Express, Molecular, Serverless Lambda, AWS, MongoDB, MySQL, PostgreSQL

Software Engineer (Front-end Developer)

Anaxee Digital Runners Pvt. Ltd. | **Oct 2019 – Dec 2020**
Technologies: JavaScript, TypeScript, Node.js, Angular, HTML, CSS, Bootstrap, MySQL

Software Engineer (Front-end Developer)

Arbutus Infotech Pvt. Ltd. | **Jan 2019 – Oct 2019**
Technologies: JavaScript, TypeScript, Angular

EDUCATION

- **Master of Computer Application** – Vellore Institute of Technology, 2016 – 2018
- **Bachelor of Computer Application** – M.M.Y.V.V., 2012 – 2014

KEY SKILLS

- **Programming Languages:** JavaScript, TypeScript, HTML/CSS, Data Structures & Algorithms
- **Web Development:** Node.js, Angular, Express, Koa.js, React.js
- **Cloud Technologies:** AWS (EC2, S3, IAM, Cognito, Secret Manager, EventBridge, API Gateway, SES, SNS, CloudWatch), Azure
- **Libraries & Frameworks:** Express, Koa.js, Molecular, GraphQL, Bootstrap, Material-UI, Firebase, WebSocket, Sequelize, Prisma, TypeORM
- **Databases:** PostgreSQL, MySQL, MongoDB
- **APIs:** GraphQL, JSON APIs
- **Developer Tools:** Git, GitLab, Docker, JIRA, Swagger, Postman, VSCode, Slack
- **Payment Gateway Integration:** Stripe, Payment Processing Solutions
- **Microservices & Containerization:** Docker, Docker-Compose
- **Operating Systems:** Windows, Linux (Ubuntu)
