Priyanka Sarraf

Associate II-Engineer

Email: sarraf1311priya@gmail.com Contact: 8147646045

Professional Summary:

Have a total 3 years of experience and Skilled **URRC,ERRC 3G,4G C/C++** Developer with 3 years of experience in designing, developing, and testing software applications in the **telecommunications** industry. Expertise in UTRAN Radio Resource Control (URRC) and ERRC Proficient in developing efficient and effective software solutions for telecom applications. Seeking a challenging position to leverage technical expertise and problem-solving skills in a dynamic environment.

Core Competencies:

Agile Methodologies, Scrum, Software Development Life Cycle (SDLC), Problem-Solving, Collaboration & Communication, URRC Layer in UMTS, ERRC Layer in LTE, Debugging of Telecom Protocols, Log Analysis & Bug Fixing

Technical Skills:

C, C++, Java, SQL, HTML, CSS, URRC, ERRC, 3G/4G/5G Technologies, RAN, Git, Linux, UTP, STT Log Analysis, OPTICM 6 , Layer 3 of 3G, Layer 3 of 4G

Work Experience:

Coral Telecom Ltd.

Associate II-Engineer(Dec 2023 – June 2025)

-Developed and maintained LTE Layer 3 (ERRC) for telecom networks.
-Implemented handover, bearer setup/modification, and mobility procedures for LTE eNodeB.
-Integrated RRC with EPC and Layer 2 over custom real time os, ensuring end to end call flow support.
-Validate RRC signaling flows using ddd tools and UE simulators.
-Ensured compliance with 3GPP Specification.
-Worked on ERRC and implemented enhancements in C++.
-Conducted log analysis and bug fixing.

Capgemini Engineering (Client: Intel)

Associate I-Engineer (Dec 2021 – Apr 2023)

- Developed and tested software applications for telecom networks (3G/4G).
- Worked on URRC and implemented enhancements in C/C++.
- Developed software solutions using C++11, C++14, C++17.
- Debugged and optimized telecom protocols and network software for better performance.
- Collaborated with cross-functional teams to ensure seamless software integration.
- Conducted log analysis and bug fixing.
- Worked on client-specific design specifications.

Certifications & Training:

- Core Java & SQL Training from **JSpiders** (Bangalore)
- C/C++ Certification from **Unnati Software Pvt Ltd**

Education:

- B.Tech: Dr. A.P.J Abdul Kalam Women's Institute of Technology – 2020 (CGPA – 7.6)
- 12th: M.L.S.M College (BSEB) – 2016 (Percentage: 60%)
- 10th: S.N.R.P Girls High School (BSEB) – 2014 (Percentage: 72%)

Achievements:

- Participated in a Hackathon at IIT Patna organized by the CSE Department of IIT Patna (August 2018).
