Professional Summary

Senior SDET with 9+ years of experience in software testing, automation, and quality assurance across font, finance, medical, IoT, and enterprise domains. MBA (Finance & General) from USMS, GGSIP University, and B.Tech in Computer Science, ISTQB Certified. Currently at Monotype, driving test strategy, automation framework development, and cross-functional collaboration. Strong expertise in UI/API automation, CI/CD pipelines, and stakeholder alignment, ensuring high-quality and timely releases.

Skills

Leadership & QA Strategy: Test Planning, Risk Management, Stakeholder Reporting, Agile (Scrum/Kanban), UAT Management
Automation & Tools: AccelQ, Selenium, Rest Assured, Postman, Cucumber, BDD, TestNG, Java, Python, GraphQL, MCP(Modal Context Protocol), Cursor, Copilot, RabbitMQ,
DataDog
QA Management Tools: Jira, Xray, TestRail, Confluence, JamGPT
CI/CD & DevOps: Jenkins, GitHub Actions
Reporting & Analytics: Power BI, Custom Dashboards, Defect Metrics **Database:** MySQL, MongoDB, PostgreSQL, Heap Analytics, Adobe Analytics

Work Experience

Senior SDET — Monotype Pvt. Ltd., Noida (Feb 2023 – Present)

- Built an automation framework supporting localization testing across 6 languages, improving coverage and user experience validation.
- Optimized application performance by analyzing data logs to reduce Largest Contentful Paint (LCP), ensuring faster load times and improved user experience.
- Designed and developed a scalable QA automation framework, successfully transitioning from AccelQ to Java Selenium architecture
- Managing and mentoring a team of 4 QA members, ensuring collaboration, productivity, and high-quality deliverables.
- Developed and executed robust API automation test suites using Rest Assured, enhancing test reliability and reducing validation time for critical services.
- Designed and implemented comprehensive test plans and strategies, ensuring >95% test coverage across critical modules.
- Automated Web UI test cases and API test suites, cutting manual regression effort by 40%.
- Delivered end-to-end validation of enterprise applications, improving release quality and reducing production defects.
- Collaborated with developers, UX designers, and product owners to align QA with business goals.
- Presented client demos at sprint closure, strengthening client confidence and transparency.

Senior Quality Analyst — VVDN Technologies Pvt. Ltd., Gurugram (Feb 2017 – Jan 2023)

- Built and maintained automation frameworks using Java, Selenium, Cucumber, and TestNG.
- Automated REST API validations with Rest Assured and Java, improving API testing accuracy and speed.
- Conducted functional, regression, and mobile (iOS & Android) testing, reducing critical defects by 30%.
- Mentored junior QA team members and drove best practices, improving overall team productivity.
- Performed validation of business-critical workflows, improving software reliability for end-users. • Generated detailed test reports to support release decisions.

Quality Analyst — Reval Pvt. Ltd., Gurugram (Jan 2016 – Dec 2016)

- Created, executed, and reported functional test cases, ensuring high-quality delivery.
- Partnered with cross-functional teams to identify and resolve defects early, reducing cycle time.
- Conducted end-to-end validation of financial software modules, improving customer satisfaction.

Key Projects & Achievements

- **Enterprise (Monotype):** Led end-to-end testing of critical application modules powering Monotype's core engines. Automated complex workflows, built a **framework supporting 6 different languages** for localization testing, and enhanced QA processes, reducing release cycle defects by 35%.
- **Delta (IoT-based Electricity Distribution System):** Automated Web UI workflows and built API automation framework, reduce regression cycle time by 40%.
- **MHS Netgear Nighthawk:** Developed automation scripts for UI and APIs, ensuring device parameters and alarms were accurately controlled via web and mobile apps.

Education

MBA (Finance & General), USMS, GGSIP University, New Delhi — 2023–2025
B.Tech (Computer Science), USICT, GGSIP University, New Delhi — 2011–2015
