8283854116

As a dynamic Software Developer, I create top-notch web applications with ReactJS, JavaScript, TypeScript, and Apollo GraphQL. I ensure performance, scalability, and usability, leading projects from development to deployment, emphasizing testing, CI/CD practices, and SQL Server optimization.

Work Experience

Software Development Engineer

Nov 2021 - Present

BridgeNext

- working as a React JS developer
- worked on Reactjs, Javascript, Cypress, Jest, Rest Api, Postman, Git.

Trainee Software Developer

Jul 2019 - Feb 2021

MothersonSumi Infotech Design & ltd.

- Worked as software developer
- Created some web pages in Epay and BDS projects using .net core.
- Worked on C#, SQL Server, HTML, CSS

Projects

Minion (User Access) | BridgeNext

Dec 2021 - Present

This system features a tab menu for creating roles, assigning specific permissions, and managing user profiles. Users can create/edit profiles and assign roles, enabling comprehensive access rights and organizational role management within the Minion application.

- Role: Team Member (React JS Developer)
- Responsibilities: Developed the Security & User Access Panel for the Minion application. Implemented restricted permissions based on specific roles. Conducted unit testing with Jest and end-to-end testing with Cypress. Provided guidance and mentorship to junior frontend developers throughout the project.
- Technologies Used: ReactJS, JavaScript, Typescript, web API, CI/CD, Cypress, Jest, GraphQL, REST API, Git, Postman, Insomnia.

Custom Theme (Keycloak) | BridgeNext

Jan 2024 - Apr 2024

We are required to incorporate a custom theme for Keycloak and design our login page to meet specific requirements.

- Role: Team Member (React JS Developer)
- Responsibilities: Developed a custom login page for the Mastermind and Minion applications. Implemented custom SPIs to override backend changes.
- Technologies Used: Freemaker, Git, Keycloak, React.

Epay | MothersonSumi Infotech & Designs Ltd.

Aug 2019 - Feb 2021

This project was based on the salary management/structure of the employees.

- Role: Team Member (Junior Software Developer)

- Responsibilities: Developed web pages according to specified requirements. Conducted unit testing of test cases.
- Technologies Used: .NET, SQL Server, C#, Javascript, typescript.

Core Skills

User Interface, JavaScript, Performance Testing, Redux, Webpack, Application Performance, Design and Build, CSS, Codebase, Computer Science, Front-End Coding, Front-End Development, HTML, Responsive User Interface, User Interface Design, Web Applications, React.js, Context API, GraphQL, Web API, Jest

Education

Thapar Institute of Engineering and Technology Dec

Aug 2016 - May 2019

Bachelor of Engineering Computer Science
GPA 7.4

Thapar Polytechnic College

Aug 2013 - May 2016

Diploma Computer Science
GPA 7.0

Young Scholars School(C.B.S.E)

Mar 2012 - Mar 2013

Matriculation (Class X)
GPA 8.6

Languages

English, **Hindi**

Certificates

Coding Ninja , Data Structure and Algorithm in JavaScript

Apr 2019

Newton School, Full Stack Development

Oct 2021
