GOWSALYA

DATA ENGINEER

+91-9384290042 | gowsalya.kt@gmail.com

Serving Notice period

SUMMARY

Detail-oriented and highly motivated Data Engineer with over 4 years of experience in designing and maintaining scalable big data and cloud-based data solutions. Proficient in building robust ETL pipelines, optimizing data models, and ensuring data quality across complex data systems. Skilled in working with stakeholders to enable high-quality analytics and data-driven business decisions.

TECHNICAL SKILLS

Languages: Python, SQL, Scala, Java

Big Data Technologies: Hadoop, Hive, HBase, Sqoop, Spark (PySpark, Scala)

Cloud Platforms: AWS (S3, EC2, Lambda, Athena, Glue), Azure, GCP

Data Warehousing: ETL/ELT, Data Lakes, Data Marts, Data Modeling

Tools: Apache Airflow, dbt, Power BI, Tableau

Other: Docker, Kubernetes, Linux, Unix, Jira, Scrum, Oracle

PROFESSIONAL EXPERIENCE

SMS Techsoft India – Software Engineer (Data Engineer)

📍 July 2021 – Present

- **Project: Rhythm of Business (Revenue Impact Analysis)**

• Automated ingestion pipeline using Python scripts to convert CSV to Parquet and load into S3, triggered via AWS Lambda and managed via SQS.

• Created Athena tables for data validation and built scalable Glue jobs to process and transform S3 data for reporting.

• Enabled business insights via Power BI using AWS Drill driver for Parquet files.

- **Project: Role Readiness (Employee Performance Analytics System)**

• Ingested data from RDBMS to HDFS using Sqoop and structured it with Hive tables.

• Developed Spark jobs for daily transformation of Hive data, scheduled via Crontab.

• Designed staging and final data layers in HBase to support performance reporting.

• Integrated Power BI with HBase via ODBC for dynamic dashboarding.

EDUCATION

Master of Engineering (CSE), Nandha Engineering College, Erode – 84% (2018–2020).

Bachelor of Engineering (CSE), Nandha Engineering College, Erode – 70% (2014–2018).

CERTIFICATIONS & TRAINING

- AICTE Faculty Development Programme: Data Science using Python.
- Internship: Shiash Info Solutions Pvt Ltd.
- Paper Presented: Big Data Security.
- Completed internship in Data Analytics at NoviTech R&D Private Limited.

KEY STRENGTHS

- Strong grasp of data engineering fundamentals including data quality, modeling, transformation, and governance.
- Experienced with cloud-native tools (AWS Glue, Lambda, Athena) and big data ecosystems.
- Effective communicator and collaborator in Agile environments.
- Committed to continuous learning and adapting emerging technologies.
