Professional Experience

Intense Technologies Limited, Angular Developer 2025 Feb – 2025 May | Pune, India

KRS Technologies Pvt Ltd Pune, Software Developer 2023 Oct – 2025 Feb | Pune, India

This project involves working on a banking application with a focus on API integration and bug fixing. The main responsibilities include developing and maintaining RESTful APIs to ensure smooth data flow between the frontend and backend systems. Additionally, the project involves identifying and fixing bugs related to the user interface (UI) and overall functionality of the application to enhance user experience and system performance.

Project: RIB – ICICI Bank Module: Deposit (Fixed Deposit & Recurring Deposit)
Working on the RIB project for ICICI Bank, mainly worked on the **Deposit module**, which includes **Fixed Deposit (FD)** and **Recurring Deposit (RD)** functionalities. Responsibilities include handling **bug fixes** and **Change Requests (CRs)** to improve system stability and performance.
Key Responsibilities:

- Working on **API integration** and **stub data** for testing and development.
- Fixing issues related to **functionality and UI**.
- Handling CRs for enhancements in the deposit flow.
- Ensuring smooth operation of both FD and RD processes.
- Collaborating with QA and backend teams for testing and deployment.
