SKILLS

JavaScript, **Angular** (7, 12, 15, 16)

ReactJs, NodeJs, RxJs**,** Ngxs

NgRx, Html, Css, Bootstrap,

Tailwind, , Typescript, jQuery, Git, Jira,

Azure, Nx workspace, CI/CD Pipelines

Figma, Adobe Photoshop, React Js,

Angular Material, Kendo Ui, Toast Ui,

SQl, MongoDB, Postman, Swagger

EDUCATION

Bachelor Engineering | BE E&TC

Pune University

2012-2016

Relevant Coursework: Fundamental programming languages, Data Structures Object orient languages and Computer Network .

LANGUAGES

English

Hindi

Marathi

PROFILE SUMMARY

With over **five** years of experience as a **Full Stack Developer**, significant expertise has been gained in building robust and scalable web application systems. This includes a deep understanding of programming languages such as **JavaScript** and **TypeScript**, alongside proficiency in software development using the **Angular, React** frameworks within the **Nx** workspace. Specializing in crafting dynamic UI components with a strong focus on user experience and accessibility. Skilled in state management using **NgRx**, **RxJS** (BehaviorSubject, Observables) for reactive, maintainable apps. Extensive experience with dynamic tables, file upload modules, and permission-based feature handling.

WORK EXPERIENCE

Software Engineer

Full-Stack Developer

Topsource Infotech Solutions Pvt Ltd — Oct-2023 to Present

- Responsible for developing and maintaining web applications with UI/UX behavior, state management, and performance optimization.
- Worked on complex features like dynamic tables, permission handling, dialog control, and file management, along with handling state management using RxJS and Ngxs store.
- Ensured a smooth user experience by refining menu behavior, sidebars, form validations, etc.
- Developed and maintained RESTful APIs using Node.js, ensuring robust performance and scalability.
- Used tools like Postman and Swagger for testing and documenting APIs.
- Collaborated with development teams to optimize Angular application for performance and maintainability.
- Integrated continuous integration/continuous deployment(CI/CD) pipelines into Angular projects, ensuring rapid and consistent delivery of software updates.

Front End Developer

Cuembux Software Solutions Pvt Ltd — May-2022 to July-2023

- Implement multiple modules for different sections and create cross-browser-compatible, responsive UI components.
- Analyzing, debugging and fixing the issues for enhancement of the application.
- Collaborated with backend developers and QA teams to ensure smooth delivery of new features and addressed SonarQube code quality issues to maintain clean and maintainable code.

UI Developer

Globeminds Technologies — Apr-2020 to May-2022

- Using the Bootstrap framework for making responsive pages. Using JavaScript and jQuery in old and new projects.
- Analyzing, debugging, and fixing the issues for the enhancement of the application.
- Creating wireframe to propose any interaction or functionality

EXPERTISE

- Front-End Frameworks: Mastery of popular frameworks like **Angular, ReactJs** and technologies **JavaScript**, **NodeJs**, **TypeScript**, **HTML**, **CSS**,
- Proficient in front end and backend technologies as ReactJs, Nodejs
- Strong focus on UI/UX behavior, state management using NgRx & Rxjs, and performance optimization.
- Expertise in dialog/modal control, sidebars, and refined menu behavior for seamless navigation
- Proficient use of Git and tools like **GitHub** or **Jira** for collaborative repository management.
- Ability to multitask and manage multiple priorities and commitments concurrently along with excellent troubleshooting and debugging skills.
- Experience in Education, Experience research domain, Finance (Global Payroll) and onboarding employee recruitment portal.

ACHIEVEMENTS

Topsource Infotech solutions
FEB-2025
Awarded “Star-Performer” for successfully implementing a scalable Global Payroll module.

Won 1st place in an inter-company chess tournament

Cuembux Sotware Solutions
Nov-2022
Commendable work

WORKED PROJECTS

Global EOR (Employer of Record)

Role : Front End Developer

www.topsourceworldwide.com is the official website of Topsource Infotech Solutions Pvt Ltd. Its main focus is on providing global payroll solutions and employer of record services to facilitate seamless and compliant international business expansion for the clients. This project handles all aspects of international hiring, including onboarding, payroll management, benefits administration, tax compliance, foreign exchange, insurance, and legal responsibilities.

- Implemented user authentication and authorization mechanisms in Angular.
- Adept at API integration and optimizing payloads for performance. Hands-on experience in addressing SonarQube issues to ensure code quality and maintainability.
- Implemented state management using RxJS (BehaviorSubject, Observables) for reactive, maintainable apps. Extensive experience with dynamic tables, file upload modules, and permission-based feature handling.
- Implemented multiple modules for different sections and cross-browser compatible responsive UI components. Along with handling state management using RxJS and Ngxs store.
- Collaborated with backend developers and QA teams to ensure smooth delivery of new features and addressed SonarQube code quality issues to maintain clean and maintainable code.
- Worked in Agile methodologies with a focus on timely delivery.

Employee Onboarding

Role : Front End and Backend Developer

- Worked on both UI side using **React.js** and the backend side on **Node.js**
- Develop, maintain, and improve the server-side logic and functionality of the Recruitment Portal.
- Built reusable React components and implemented state management using React hooks for better UI performance.
- Worked on **Node.js** with MongoDB(Cosmos Azure) database
- Integrated RESTful APIs with React to ensure smooth data flow between frontend and backend.
- Implemented error handling and logging to troubleshoot and resolve production issues efficiently.
- Used tools like Postman and Swagger for testing and documenting APIs.

Customer Feedback Management

Role : Front End Developer

www.cys.group is the official website of Cuembux. It offers insights into experience management through a flexible and automated research platform. CYS provides various types of insights in customized dashboard formats, such as NPS development, trend indicators, and more, based on customer and employee feedback.

- Build for Web and Mobile (Android & iOS)
- Utilize Angular libraries and third-party plugins to enhance the functionality of the UI and improve the development process. This can include libraries like Angular Material, Kendo UI for UI components.
- Implement designs provided by UI/UX designers, ensuring that the user interface matches the design mockups and wireframes.
- Developed and maintained the components, services (dependency injections), modules, and directives
- Integrated the UI with backend REST APIs and services, ensuring proper data binding and communication between the front-end and back-end systems.
