Salesforce Certifications

Salesforce Certified Administrator

About Me

- I have approximately 5.9 years of experience in Salesforce, with a strong proficiency in Sales and Service Cloud. I have successfully completed multiple projects from inception to completion, as well as provided ongoing support for various projects.
- Salesforce Cloud Expertise: Hands-on experience with Sales Cloud and Service Cloud, implementing end-to-end solutions to support business processes.
- Development & Customization:
- Developed and maintained Apex classes, triggers, Visualforce pages, and Visualforce components.
- Built scalable and responsive Aura Components and Lightning Web Components (LWC) to modernize the UI and improve user experience.
- Automation & Declarative Tools:
- Created and optimized Flows, Process Builder, and Workflow Rules for various business automation scenarios.
- Configured Duplicate Rules and Matching Rules to enforce data integrity and consistency.
- Security & Access Control:
- Implemented and managed security using Profiles, Permission Sets, Role Hierarchies, Organization-Wide Defaults (OWD), Apex Sharing, and Manual Sharing to ensure secure and compliant data access.
- Reports & Dashboards:
- Designed dynamic and interactive Reports and Dashboards for key stakeholders to monitor KPIs and make data-driven decisions.
- System Integration:
- Worked on external system integration using REST/SOAP APIs, Named Credentials, Remote Site Settings, and Platform Events.
- Asynchronous Processing:
- Developed robust Batch Apex, Queueable Apex, Scheduled Apex, and Future methods to handle large data volumes and long-running processes efficiently.
- Production Support & Optimization:
- Diagnosed and resolved critical production issues including:
- SOQL query limits (100 SOQLs)
- CPU timeout errors
- Null Pointer Exceptions
- Batch job timeouts and failures
- Mixed DML operation conflicts
- Performed code refactoring and optimization to improve performance and reduce technical debt.
- Tools & Environment:
- Salesforce DX, Git, VS Code, JIRA, Postman, Workbench, Agile/Scrum methodology
