KR

SUMMARY

I have 11.7 years of experience in Software Testing, specializing in both Manual and Automation testing, particularly within the Salesforce domain. I've demonstrated a robust capability to lead testing efforts across diverse projects in Industries such as Insurance, Healthcare, and Utilities. My expertise includes TOSCA automation, manual testing strategies, and effective defect management processes. I pride myself on my attention to detail, adaptability, and mentorship abilities, continually striving for quality and efficiency in every project

EXPERIENCE

Automation Test Lead

Tata Consultancy Services (TCS)

02/2022 - 09/2025 Hyderabad, India

Tata Consultancy Services is a multinational IT services and consulting company

- Experienced QA professional with a strong background in both manual and automation testing across domains like Insurance, Healthcare, and Utilities
- In the Insurance domain, worked on underwriting, MTAs, renewals using tools like TGSL and OGI Software House
- Created test cases, raised bugs, and managed dashboards in Jira
- In the Healthcare domain, focused on automating functional and regression test cases using TOSCA
- Gained hands-on experience in TDS, TOSCA Server, TOSCA Excel, and Mainframe testing
- Integrated TOSCA with Jira, provided training to juniors while acting as a communication bridge between junior testers and senior management
- In the Utilities domain, conducted data verification and bill comparison testing during a major data migration

Test Specialist

Mindtree Ltd 06/2021 - 12/2021 Hyderabad, India

Mindtree is a global technology consulting and services company

- Experienced QA Engineer with expertise in creating and executing functional, regression, and UAT test cases based on business requirements
- Skilled in defect management using VSTS and HP ALM, CI/CD testing in Azure Pipelines, and smoke testing post-deployment
- Proficient in TOSCA automation (UI, XML, SAP GUI) with database validation
- Experienced in preparing test documentation, execution reports, and collaborating with cross-functional teams

STRENGTHS

Detail-oriented
Detail-oriented with strong defect analysis and reporting skills

Adaptability
Quick learner with adaptability to new tools and domains

Problem-solving
Strong problem-solving and analytical thinking

Collaboration
Collaboration & communication skills, working closely with developers, business teams, and stakeholders

Mentorship
Mentorship and leadership experience – trained juniors while ensuring smooth communication

KEY ACHIEVEMENTS

Automation Testing Initiative
Led a successful automation testing initiative that improved testing efficiency and reduced time to market for software releases

Utility Data Migration
Contributed to the successful migration of utility data systems, ensuring accuracy and consistency across applications

EXPERIENCE

Senior Test Engineer

Wipro | 12/2013 - 06/2021 | Hyderabad, India

Wipro is a global information technology, consulting and business process services company

- Performed functional, regression, UAT, and performance testing of the Enovia application
- Designed and executed test scenarios, cases, and end-to-end flows based on business requirements
- Managed defects using VSTS and HP ALM, participated in triage meetings, and prepared execution/defect reports
- Contributed to URS and OQ documentation and conducted smoke testing post-deployment

EDUCATION

MS/M.Sc(Science)

Vellore Institute of Technology

08/2018 - 07/2020 | Vellore, India

B.Sc

Andhra University | 07/2010 - 06/2013 | Visakhapatnam, India

TRAINING / COURSES

Tricentis Tosca Fundamentals (AS1)

Automating web application testing

Tricentis Tosca Fundamentals (AS2)

Optimizing test automation with centralized test data

VOLUNTEERING

AUTOMATION SME IN TRICENTIS TOSCA

TATA CONSULTANCY SERVICES | 12/2022 - 03/2025

A Tosca automation SME (Subject Matter Expert) for the NASCO account in TCS is responsible for leading and optimizing test automation initiatives specifically tailored to the healthcare or insurance domain platforms managed by NASCO. The SME ensures robust, scalable, and efficient automation frameworks using Tricentis Tosca, acting as a bridge between technical teams and business stakeholders to deliver high-quality, automated testing solutions that align with NASCO's complex requirements.

Key Responsibilities

•Design, develop, and maintain end-to-end Tosca automation frameworks and reusable test components for various NASCO applications, including web, SAP, and APIs.[scribd +1]

•Define and implement best practices, standards, and strategies for test automation to ensure coverage, maintainability, and reusability.

•Integrate Tosca automation with CI/CD pipelines (e.g., Jenkins, Azure DevOps) and manage test data using Tosca TDM and distributed execution (DEX) for parallel testing across multiple environments.

•Provide technical leadership, upskill team members, and act as the go-to expert for troubleshooting, optimizing automation, and upgrading frameworks or tools as required.

SKILLS

ALM · Apache JMeter · Automated Testing · Azure · Azure Devops · Azure Pipelines · Dataflow · ETL · Functional Testing · GUI · HP ALM · IBM DB2 · Integration Testing · JIRA · Manual Testing · Salesforce · Salesforce Lightning · Salesforce Sales Cloud · Sanity Testing · SAP · Service Cloud · SFDC · TOSCA · UAT · Visual Studio Team Services · WinSCP · XML · Gmail · Acting

PROJECTS

Nokia Project

01/2019 - 05/2022

Nokia Project – Enovia Application

- Performed manual testing of the Enovia application, including test case design and execution using QC
- Gained valuable experience in performance testing with JMeter, ensuring application stability and efficiency

Philips Project

01/2019 - 05/2022

Philips : Xcellent care Application

- Tested the implementation of Sales Cloud (Campaign, Lead, Account management) integrated with Salesforce
- Performed testing on Service Cloud implemented in Salesforce Lightning with regression testing
- Hands-on experience in TOSCA automation and with the ValGenesis tool

ETL Testing

06/2021 - 12/2021

Philips Account in Mindtree - ETL Testing

- Performed ETL testing on PDH, validating data flow across multiple systems
- Automated the end-to-end validation process using TOSCA, ensuring accuracy in data migration

PROJECTS

Insurance Project

01/2020 - 09/2020

Aviva - Manual Testing on Insurance Project

- Created and validated underwriting cases, MTAs, and renewals
- Designed and executed test cases in JIRA, with strong experience in bug reporting

Healthcare Project

01/2018 - 12/2019

Healthcare Project - Automation Testing

- Automating functional and regression test cases using TOSCA
- Acted as a bridge between juniors and senior management, providing training and mentoring

Data Migration Testing

06/2020 - 01/2021

Genesis Energy - Utility Project

- Worked on utility-based account for power and gas across New Zealand
- Performed data verification and bill comparison testing during migration
