ISTQB Certified (00105710), ISTQB Certified (00005589)

Balika Madhukar Doke.
Senior Software Engineer, Apexon
Contact: +91 - 8591109925
E-Mail : dokebalika@gmail.com

- Having 6.4 Years of Experience in Investment Banking Domain, Telecom Billing and E -Commerce with Manual Testing, Web Service testing, Functional Testing and Performance Testing.
- Good Experience in SQL Server.

OBJECTIVE

To achieve a challenging position in **Software Testing** in a result-oriented company, where acquired skills and education will be utilized towards continuous growth and advancement.

PROFESSIONAL SYNOPSIS

Manual Testing Skills:

- **6.4 years** of Experience in **Software Testing, Functional Testing, Performance Testing, Web Service Testing**.
- Very good experience in **Investment Banking**, **Telecom domain and E Commerce** Project.
- Good knowledge on AGILE processes such as product backlog, user stories, sprint planning and retrospect meeting.
- Well versed with **SDLC, STLC**, Testing Concepts and **Agile Methodologies.**
- Good Experience of various types of testing like **Functional Testing, Usability Testing, Regression, Re-Testing**, **Smoke/Sanity Testing, Blackbox Testing, Whitebox Testing and Database Testing.**
- Strong experience in Analyzing requirements (SRS) and identifying **Test Scenarios**, **Test Cases Design**, **Test Case Execution** and Defect Reporting and analysis.
- Involved in **test case review.**
- Generate **test summary report**.
- Prepared **Traceability Matrix** to map Business requirements and test case.
- Experience in writing **SQL Queries** against database for **Data verification** using **SQL Server**.
- Worked on **Agile methodology** and participated in scrum meeting.
- Good exposure to Reliability, Compatibility, Globalization and Usability Testing.
- Used defect management tool such as **JIRA**.
- Excellent understanding of **Defect status life cycle.**
- Involved In **Production Issue or Hot Fix**.
- Involved in **Web service** testing.
- Performed **REST** based **API Testing** using **Postman/SOAP UI** Tool.
- Good team player with strong interpersonal skills.
- Flexible and Versatile to new environment and can work on any project.
- Strong communication skills with an ability to grasp new things quickly.

ISTQB Certified (00105710), ISTQB Certified (00005589)

EDUCATIONAL QUALIFICATION

- B.E (Computer Engineering) from Pune University with First Class.

EXPERIENCE SUMMARY

- Working as Senior **Software Engineer** with **Apexon,** from Aug 2022 to till date
- Worked as Senior **Software Engineer** with **Larsen & Toubro Infotech Ltd,** from Dec 2020 to Aug 2022
- Worked as Test **Engineer** with **Nihilent Ltd**, from July 2019 to Dec 2020.

Certifications

- **ISTQB Foundation Level Certificate in Software Testing (**Certificate Number-ITB-CTAE-00105710**)**
- **ISTQB Agile Tester Foundation Extension Certificate** (Certificate Number-ITB-CTAE-00005589)

TECHNICAL SKILLS

Operating Systems **:** Windows XP, Windows 7, Linux, Windows 8, Windows 10, UNIX (Basics)

Languages Known **:** C, C++ and SQL, Core Java, XML

Database : Oracle 11g, SQL Server 2008R2, Postgres, MongoDB.

Tools : SQL Developer, Eclipse, SOAP UI, Postman, Compass, Accelq, JMeter

Defect Management Tool **:** JIRA

Manual Testing Skills : Functional Testing, Regression testing, Retesting, Web Service Testing, Performance Testing

PROJECT SUMMARY

Project No: 1

Title **: Vitaminshoppe**
Domain **:** E Commerce

Tools and Technology Used : J2ee, oracle 11g, JIRA, JMeter, postman, Accelq

Testing : Functional Testing, Automation Testing, Performance Testing, Regression Testing

Description: Vitamin shoppe sells vitamins and health supplements. The Company offers whey protein, post workout recovery, dietary support, meal replacement, herbs, supplements, proteins, weight-management items, aromatherapy products, organic, non-GMO goodness, natural beauty and skin support.

Responsibilities:

- Experienced with front end back end and integration testing of data
- Extensive understanding of SQL query creation and analysis

- Proven experience with manual test scripts and cases preparation
- Strong functional and technical abilities
- Completed back-end database testing and Front End /UI testing .
- Reviewed and interpreted systems documentation and business requirements.
- Worked both independently and as part of a QA project team depending on project requirements.
- Independently managed time to meet all task deadlines.
- Completed front end UI testing and ADA testing.

Project No: 2

- **Title** **: Citi Life Cycle**
- **Domain** : Investment Banking Domain
- **Tools and Technology Used** **:** Java, Selenium, Cucumber, MongoDB, JIRA, Compass, JMeter
- **Role** : Functional Test engineer
- **Description:**

  Citi Life Cycle is web application created for internal citi user for real time trading and all other banking related activity. Whenever we receive any trade either that get processed or goes into exception. - Reporting the Regular status to the higher authorities in a timely manner.
- Involved in the Behavioral, Input Domain, Error Handling, Calculation, Base, And Service Level Coverage
- Log the defect in JIRA.
- Participated in client Interaction.

Project No: 4

Title **: Request Logic Calculator**

Domain : Telecom Billing Domain

Tools and Technology Used **:** Java, Selenium, SOAP UI, JIRA

Role : Functional Test engineer

Description:

RLC is a dynamic, Real time charging engine, enables faster launch of innovative next generation services and plans. RLC facilitates real-time and near real time rating and charging, enabling operators to unify billing processes for all customers. It achieves convergence at the network, service and catalog levels. It proactively minimizes revenue leakage, errors and fraud throughout the entire customer lifecycle by managing rate rules in a centralized interface. a highly flexible, real-time, prepaid-postpaid convergent rating & charging engine, meets the next generation IP, FTTH/HFC, wire line and wireless networks. Its integrated platform permits complex, value-added data, voice and video services to be launched rapidly accommodating a range of discounts, pricing plans and promotional offers Benefits of having an online account include:

Responsibilities:

- Understand the customer requirement by analyzing SRS document.
- Involved in Designing the Test Case.
- Participated in the Test case review meetings.

- Performed Functionality Testing, Retesting and Regression Testing.
- Interact with developers and discussed technical problems, Bugs Tracking.
- Reporting the Regular status to the higher authorities in a timely manner.
- Involved in Back-end Testing.
- Effective co-ordination between development team and testing team.

DECLARATION

I hereby declare that all above information is correct to the best of my knowledge and belief.
