Relevant Skills

- **Languages:** Advance SQL, Python(Data Science), Linux, Unix, Hadoop commands
- **Tools:** Informatica PowerCenter (Support + Development), Tableau, Azure, **Familiar with-** Talend, Snowflake
- **Key Expertise:** Big Data, ETL, DBMS, Data Structures and Algorithms, Mathematics for Data science.

Work Experience

- **Senior Data Engineer - Tata Consultancy Services (Client: Hewlett Packard (HP))** (*Dec'23-Present*)
  - Leading a team of Data Engineers ensuring timely and complete data delivery across complex data pipelines.
  - Managing user-requested enhancements and driving internal improvements in data architecture and processing.
  - Created and modified Informatica mappings and workflows as per change requests and enhancement requirements.
  - Analyzed data issues and implemented performance tuning techniques (e.g., optimizing source qualifiers, joins, lookups)
  - Optimized Informatica workflows and transformations, resulting in a 25% reduction in overall processing time.
  - Regularly engaged with business stakeholders for requirement gathering, change management, and release planning.
  - Used advanced Excel techniques (pivot tables, power query, lookups) for quick insights and ad-hoc business reporting.
  - Tech Stack: SQL, Informatica, Hive, HDFS, Azure, Linux, Excel (Advanced), cDNA and Tableau BI Tool
- **Data Engineer - Tata Consultancy Services (Client: Hewlett Packard (HP))** (*July'22-Dec'23*)
  - Delivered end-to-end data flows, from ingestion(Linux) to processing(Hadoop, Informatica) to consumption (Snowflake, Tableau BI). Handled business tickets, coordinated with users for enhancements.
  - Analyzed data issues and optimized Informatica workflows, source qualifiers, joins, and lookups and pre-/post-SQL, achieving an average of 20% improvement in processing time.
  - Assisted business users with Excel-based data reports, helping them slice and filter processed datasets for custom views.
  - Supported data quality checks and validation through Excel comparisons and SQL analysis.
  - Tech Stack: Talend, Hive, Snowflake, SQL Server, Linux, HDFS, Excel (Intermediate), cDNA BI
- **Asst. Data Engineer - Tata Consultancy Services (Client: Hewlett Packard (HP))** (*Nov'20-July'22*)
  - Monitored Talend and Informatica jobs and scheduled data pipelines on a daily basis using Talend TAC and Tidal jobs.
  - Performed end-to-end validation of data in Hive and SQL Server tables, ensuring consistency and integrity.
  - Maintained daily operational reports and log summaries using Excel for dashboarding and job tracking.
  - Tech Stack: Talend TAC, Hive, SQL Server, Linux, HDFS, Excel (Basic), Shell scripting

Projects

- **HPI Exploratory Data Analysis**, **Client:** Hewlett Packard (HP) (*Nov'20-Present*)
  - Tools and technology used: Sql, Big Data and Hadoop, Informatica, Talend, Tableau.
  - Delivered end-to-end data flows, from ingestion(Linux) to processing(Hadoop, Informatica) to consumption (Snowflake, Tableau BI). Handled business tickets, coordinated with users for enhancements.
- **Target Brazil Sales Analysis using SQL and Python** (*May'23-July'23*)
  - Analysed the Brazil **Target sales dataset** which has information on 100k orders from 2016 to 2018 made in Brazil.
  - Gathered the data insights from the Target Brazil Sales dataset using **Exploratory Data Analysis**.
  - Based on the insights, recommended different **Business improvements** that can build customer trust, reduce delays in delivery and help in improving revenue.
- **Data Analysis and Visualization on Netflix Data** (*May'23-July'23*)
  - Performed the **Exploratory Data Analysis** on **NETFLIX dataset**. Netflix has over 10000 Movies or TV Shows available on their platform, as of mid-2021, they have over 222M Subscribers globally.
  - Using **Matplotlib** and **Seaborn** libraries, plotted different graphs for **finding insights** and **visualization** purposes.
  - Based on the insights, recommended the best mapping of the genre, casts etc to make a successful movie/TV show.

Academic Qualifications

Year	Degree/Certificate	Institute	CPI/%
2016-20	B.Tech(Computer Science & Engg.)	Institute of Engineering and Technology, Lucknow	7.87/10
2013-14	XII(UP)	S.V.M.I.C Jharkhand	85%
2011-12	X(UP)	T H I C Paliagol Par Sultanpur	79%

Certifications and Assessments

- The Ultimate Hands-On Hadoop: Tame your Big Data! (Udemy) (*2021-2022*)
- Python (by the University of Michigan on Coursera) (*2019*)
- Foundations of Data Science (by Google on Coursera) (*2019*)
- Algorithm Toolbox (by the University of Michigan on Coursera) (*2018*)

Scholastic Achievements and Extra-curricular Activities

- Solved **600+** coding problems on Leetcode and HackerRank coding platforms combined. (*2016-Present*)
- Currently having **5*** in SQL and **4*** in Python at Hackerrank. (*2017-Present*)
