SHOBHARANI CHALLA

Mail : shobharanichalla2709@gmail.com

Mobile : 9980872072

Objective:

I want to grow both professionally and personally through continuous up – gradation of knowledge in field of Software development. I would like to shoulder increased responsibilities and move on the high echelons of the firm.

Brief overview:

- Result-oriented Java Developer with 5+ years experience in software development using Java, Spring Framework, Hibernate, JSP, and modern frontend technologies like React.js and JavaScript.Proficient in database design, asynchronous messaging with Kafka, and containerized deployments using Kubernetes.
- Worked on various Java frameworks like Spring, Spring Boot ORM tool JPA, Hibernate,Microservices.
- Proficient in Struts, Spring Boot (Core, MVC, Restful, Integration with Hibernate, Security, Spring Scheduler etc.) and Hibernate Framework, Restful Web services (JAX-RS),Micro Services and Web services-SOA (JAX-WS)
- Experience in XML and JSON technologies like XSL/XSLT, SAX, DOM, WSDL, XSD, Jackson, Json and JAXB.
- Experience in front-end technology such as HTML, CSS, JavaScript, jQuery, Angular,Node JS and React JS.
- Hands-on good experience in AWS cloud technology.
- Experience with test-driven development using a various unit testing framework such as J Unit and knowledge of Maven and Log4J.
- Good knowledge on IDE & Tools like Eclipse, Intellij, Jira.
- Experience in deployment of software and configuration on IBM Web Sphere application server, BEA Web Logic application server, J boss, Apache Tomcat web container.
- Handled database using PostgreSQL and SQL Server.
- Good knowledge and experience in applying design patterns like Singleton, Prototype, Factory, MVC and Session Facade.
- Good knowledge of messaging queues like JMS,Kubernetes,Apache Kafka.
- Experience in version control systems like Clear case GIT.
- High ability to work on Agile projects and also involved in Production support and having experience in identification of production bugs and issues.

PROJECT PROFILE:

PROJECT #1: Jan 2024 to till date.

Title : VTRANSACT DIGI TB
Client : FAB Bank

DESCRIPTION:

First Abu Dhabi Bank (FAB) is the largest bank in the United Arab Emirates. It was formed following a merger between First Gulf Bank (FGB) and National Bank of Abu Dhabi (NBAD).FAB offers financial solutions, products and services through its Corporate and Investment Banking and Personal Banking franchises. Headquartered in Abu Dhabi in Khalifa Business Park, the bank has a presence in five continents: Asia Pacific (APAC), Europe, Americas, Middle East and Africa (EAMEA).

Roles & Responsibilities	❖ Analyse requirements to define business objectives, Design implement and maintain applications that based on the requirement. ❖ Developing Java-based user interfaces. ❖ Implementing on Spring Boot and Microservices. ❖ Implementing Spring Data JPA and Restful web services. ❖ Good experience in developing the single-page applications using Angular. ❖ Implementing written Service and Repository interface along with their implementations. ❖ Experience in developing highly interactive web applications utilizing Angular. ❖ Injected the Repository into service classes using the Spring IOC pattern. ❖ Fixing bugs and testing for usability. ❖ Getting the requirements from the requirement analysis and Bug Tracking tool JIRA. ❖ Testing the developed modules to make sure everything working fine and prepare the documentation of test results.
Technology	Java,Spring,Spring boot,Angular,Node JS,Microservices,AWS,IntelliJ,Tomcat,JPA,Spring IOC,Maven,Jenkins,Jira,Swagger,SonarQube,Rest API,GIT,Postman,Junit,PostgreSQL,Multithreading,.

PROJECT #2: Oct 2021 to Dec 2023

Title : HIX (OLS Health Insurance Exchange)
Client : Well point

DESCRIPTION:

The scope of the project is to Online Store (OLS) HIX- In the United States, health insurance marketplaces, also called health exchanges, are organizations set up to facilitate the purchase of health insurance in every state in accordance with Patient Protection and Affordable Care Act (Obama care).

Roles & Responsibilities	❖ Writing the business logic for a given activity. ❖ Implemented hibernate components. ❖ Test the developer test cases and do the unit testing ❖ Coordinated the Onsite, Offshore teams for Requirements, development, deployment and delivery. ❖ Participated onsite discussion for the requirement gathering . ❖ Analyse the system requirements ❖ Involved in the designing of activities. ❖ Involved in implementing restful web services ❖ Working with Agile methodology using Jira tool
Technology	Java,Hibernate,Spring,Microservices,Spring boot,React JS,Kubernetes,Kafka,Eclipse,Tomcat,Maven,Jenkins,Jira,Junit,Rest API,GIT,Postman,SQL.

PROJECT #3: Jan 2020 to Sept 2021
Title : Fleet Cart
Client : GE Rail Service, USA

DESCRIPTION:

GE Rail Service offers a wide variety of railcars; inter modal equipment and solutions for transporting a broad range of products across spectrum of industries. It is the leading service provider to the rail industry. It offers administrative, management and maintenance services for bad order railcars. This application is a self-service website for the vendors, customers and servicing centers that enables customers to easily access shop location, contact information and frequently asked questions on billing, repair, maintenance and regulatory practices.	
Roles & Responsibilities	❖ Implementation of Web Pages using JSP and HTML. ❖ Implement the code as per design and developed business logic. ❖ Used Spring Framework for Dependency injection. ❖ Implementation of Web Pages in JSP using Spring Form Tag Library. ❖ Involved in developing JSP forms and navigation using View Resolver. ❖ Used Spring Hibernate for Querying data from the database. ❖ Involved in developing Controllers using Spring ORM. ❖ Implementation of Web Pages in JSP using Java Script for validations. ❖ Develop the site and integrate the dynamic pages with the static designs.
Technology	Java,J2EE,Hibernate,React JS,Kafka,Spring,Spring ORM,HTML,CSS,Bootstrap,Java Script,Eclipse,JSP,Bit bucket,Visual Studio,Junit.SQL.

PROFESSIONAL EXPERIENCE:

☑ Working as a Software Engineer in **Capgemini,** from Jan 2020 to till date.

SKILLSET: :

☑ Programming Language	: Core Java, J2EE.
☑ JSE Technologies	: JDBC
☑ JEE Technologies	: Servlets, Jsp
☑ Frameworks	: Spring, Spring Boot, Microservices,
☑ Cloud	: AWS
☑ ORM Tools	: Hibernate,JPA.
☑ Web Technologies	: HTML,CSS,JavaScript,React JS,Angular,Node JS
☑ Build Tools & CI/CD	: Maven,Jenkins
☑ IDE's	: Eclipse,IntelliJ
☑ Web Servers	: Tomcat, Web Logic, Web Sphere
☑ Database	: SQL,PostgreSQL
☑ Other Tools	: Junit,GIT,Bit bucket,Postman,Kafka,Kubernetes,Multithreading.

ACADEMIC:

☑ **BSc From CNR Degree College,SV University.**
