Vijay M

Software Test Engineer | Java, C# | Selenium | SpecFlow | BDD | API Testing

Location: Chennai | Phone: 8438059002 | Email mvj8438@gmail.com

Professional Summary

Software Test Engineer with **4 years of total experience** (3.5 years professional + 5 months internship) in designing, developing, and executing automation frameworks using **Selenium WebDriver** with **C# (SpecFlow, NUnit)** and **Java (JUnit, Cucumber)**. Proficient in **BDD-Cucumber, API Testing, and Agile methodologies**. Skilled in developing **scalable frameworks using OOPS concepts** and implementing **test automation strategies** to improve quality and efficiency across the SDLC.

Technical Skills

Category	Tools/Technologies
Languages	Java, C#
Automation Tools	Selenium WebDriver,
Testing Framework	BDD-Cucumber (Java), SpecFlow-Nunit (c#)
Build Tools	Maven
API Testing	Postman
Project Management	Azure DevOps, JIRA, Wrike
Oops Concept	Applied Encapsulation, Inheritance, Polymorphism, and Abstraction in designing scalable Selenium automation frameworks using Page Object Model and reusable base classes

Professional Experience

- **Senior Test Engineer | ConcertIDC** – Chennai | April 2024 – March 2025
    - Actively participated in building **Selenium C# automation suites** using SpecFlow and NUnit as part of a team with senior engineers.
    - **Automated regression test cases**, reducing testing time
    - Integrated automation results with Azure DevOps

QA Tester | Mediwave Digital Private Limited – Pondicherry | Oct 2021 – Dec 2023

- Developed **Java Selenium BDD test scripts** using Junit and Cucumber.
- Enhanced **scalable Selenium C# automation framework** using SpecFlow and NUnit.
- Created reusable **Page Object Models** with modular functions.
- Conducted **API testing** using Postman and reported bugs via JIRA.
- Collaborated closely in Agile teams during sprints, retrospectives, and reviews.

Wireless Test Engineer | W2BI Mobile Technologies Pvt Ltd – Chennai | May 2021 – July 2021

- Created and executed **manual test cases** for web application.
- Tracked defects and progress in JIRA and coordinated with developers.

Intern – Software Test Engineer | Versuche Technologies Pvt Ltd – Chennai | Jan 2021 – May 2021

- Learned **the fundamentals of software testing**, including manual and automation concepts.
- Prepared and executed **manual test cases** based on software requirements.
- Gained exposure to the Software Testing Life Cycle (**STLC**) and defect reporting process.
- Observed and get assisted in **basic automation testing** using Selenium WebDriver.

Project Experience

- **Neurology – HealthCare**
  - Patient engagement portal configurable by both providers (NHS) and end-users.
  - Delivered personalized experience tailored to clinical priorities.
- **Thalamos – HealthCare**
  - Managed patient admission, treatment, and discharge workflows.
  - Enabled faster, safer, and simpler mental healthcare processes.
- **Brook – HealthCare**
  - Sexual health services platform including STI home test kits, pregnancy calculator, and contraceptives.
  - Managed roles, permissions, and order requests via admin portal.

- **Nibras – Oil & Gas**
  - Oil & well management system to monitor and maintain records.
  - Web-based platform for tracking assets and monitoring data quality.

Roles & Responsibilities

- Designed, developed, and executed **manual and automated test cases** based on software requirements.
- Created and maintained **robust automation scripts** following industry best practices.
- Performed **API testing**, validating endpoints, request/response structures, and status codes.
- Conducted **regression, integration, smoke, and sanity testing** to ensure software quality.
- Logged, tracked, and managed defects using **JIRA** and **Azure DevOps**.
- Collaborated with developers, analysts, and product managers to provide early feedback.
- Participated in Agile ceremonies including **sprint planning, daily stand-ups, reviews, and retrospectives**.
- Reviewed and validated test scenarios written by peers to ensure **complete test coverage**.
- Monitored test execution progress and ensured timely delivery of high-quality releases.

Education

BE – Tagore Engineering College

Declaration

I Vijay, hereby declare that the information provided above is true to the best of my knowledge and belief.
