Sagar Kakde

AWS Certified Cloud Practitioner | Cloud & DevOps Engineer

Contact No - +91 9511631901 **DOB** - 16-09-1998

Email-ID - kakdesagar196@gmail.com **Address** - Pune, Maharashtra, India

LinkedIn ID - https://www.linkedin.com/in/sagar-kakde-6337311a3/ **Gender** - Male

SUMMARY

- AWS Certified Cloud Practitioner with **4 years of experience** in designing and deploying scalable, secure, and cost-optimized cloud solutions.
- Skilled in **infrastructure automation** using **Terraform, Ansible**, and building **CI/CD pipelines** with Jenkins and Git.
- Proficient in core **AWS services**: EC2, VPC, IAM, S3, RDS, EBS, ELB, ASG, Route 53, CloudWatch, DynamoDB, SNS, SQS, and CloudFront.
- Experienced in **backup management (AMI, Snapshots, Volumes)**, **cross-region replication**, and **cloud security best practices**.
- Strong in **monitoring, logging, and alerting** using CloudWatch and cost optimization strategies.
- Hands-on with **Docker, Kubernetes/ECS**, and managing highly available containerized applications.

SKILLS

Category	Technologies / Tools
Cloud & DevOps	AWS, Cloud, Ansible, Terraform, Kubernetes, CloudFormation
Version Control & CI/CD	Git, GitHub, Bitbucket, Jenkins
Containerization	Docker
Monitoring & Logging	AWS CloudWatch, ELK Stack, CloudTrail, Nagios
Scripting & Programming	Python, Bash, Shell Scripting
Databases	MySQL, DynamoDB
Operating Systems	Windows, Linux
Ticketing Tools	ServiceNow, SSO, JIRA
Browsers	Internet Explorer (IE), Google Chrome, Microsoft Edge

EXPERIENCE

Senior AWS DevOps Engineer – Capgemini Ind Pvt Ltd, Pune, India **Sept 2021 – Till Now**

1 PROJECT – Farmers Insurance | Senior AWS DevOps Engineer | Dec 2022 – Present

Description – Designed and managed secure, scalable, and cost-optimized AWS infrastructure for insurance applications. Automated provisioning with Terraform & Ansible, built CI/CD pipelines with Jenkins/Git, and deployed apps with Docker, ECS & Kubernetes. Improved uptime to 99.9%, cut deployment time by 45%, and reduced cloud costs by 20%.

Responsibility –

- Implemented CI/CD pipelines with Jenkins, Git, and GitHub, reducing deployment time by 45%.
- Automated infrastructure provisioning using Terraform and Ansible, cutting manual effort by 60% and ensuring consistency.
- Deployed containerized applications with Docker, ECS, and Kubernetes/EKS, improving scalability and uptime to 99.9%.
- Designed secure cloud architecture with AWS (EC2, RDS, S3, VPC, IAM, Lambda, CloudFormation, KMS),

strengthening compliance and security posture.
- Integrated monitoring with CloudWatch, ELK Stack, and CloudTrail, reducing incident response time by 35%.
- Optimized costs with Auto Scaling, lifecycle policies, and storage management, achieving 20% cost savings annually.

2 PROJECT – Claims Management Platform | AWS DevOps Engineer | Sept 2021 – Nov 2022

Description – Migrated legacy insurance systems to AWS Cloud, reducing infra costs by 30%. Developed CI/CD pipelines in Jenkins, accelerating release cycles by 40%. Containerized applications with Docker & Kubernetes, improving scalability and performance. Enhanced monitoring with CloudWatch & ELK, reducing downtime by 20%, and implemented Blue-Green deployments for seamless updates.

Responsibility –

- Migrated on-prem insurance applications to AWS Cloud using CloudFormation & Terraform, reducing infrastructure costs by 30%.
- Built and maintained CI/CD pipelines in Jenkins, achieving 40% faster release cycles.
- Containerized legacy applications with Docker and deployed on ECS/Kubernetes, improving system performance by 25%.
- Designed secure, fault-tolerant cloud architecture with AWS (EC2, S3, RDS, VPC, IAM, CloudFront, KMS, CloudWatch).
- Centralized monitoring and logging with CloudWatch & ELK Stack, cutting downtime by 20%.
- Implemented Blue-Green deployment and Auto Scaling, enabling zero downtime deployments and seamless scalability.

EDUCATION

B-TECH - Electronics and Telecommunication Engineering - Jul-2017 to Aug-2021

CSMSS CHH. SHAHU COLLEGE OF ENGINEERING, AURANGABAD

CERTIFICATION

- AWS Certified Cloud Practitioner (CLF-C02)
- AWS Certified Solution Architect Associate (Udemy course)
- Agile Software Development
- SQL – HackerRank Certification (Intermediate)
- Kubernetes (Udemy course)
- Linux for Cloud & DevOps Engineers (Udemy course)
- Splunk Certification
- Ocean Certification
- Linux

Signature - Sagar Manikarao Kakde
