JAIKIRAN GEDI

Automation Test Lead

+91-8374669000 **jaikiran.gedi@gmail.com**

PROFILE

Talented Automation Lead with **10+ years of experience** in designing, developing, and implementing enterprise-wide test automation strategies. Proven expertise in building scalable and secure automation frameworks for API, functional, and performance testing. Passionate about leveraging cutting-edge technologies like **Selenium, Appium, Java, Python, JavaScript, and CI/CD pipelines** to enhance product quality and engineering velocity. Adept at fostering collaboration across cross-functional teams and mentoring engineers to adopt best practices in automation testing.

INNOVATION

- **Flash** – Built a proprietary in-house test case management platform integrated with CI/CD, improving traceability and reducing manual reporting by 70%. Also Integrated RAG model for AI test cases generation. Integrated Jira to quicly raise issues through the tool.
- **FlashVision** – Developed a PyQt5-based Airtest-like IDE with image previews and codeless automation, cutting regression cycles by 45%.
- **GameBooster** – Created an Android app that optimized CPU/GPU and network usage, reducing frame drops by 30% during gameplay.
- **JobFlow Pro** – Engineered an HR workflow tool with AI-driven resume parsing and auto-applications, streamlining candidate processing by 60%.

KEY SKILLS

- **Programming Languages:** Java (9 years), Python (2 years), JavaScript (React.js - 1 year)
- **Test Automation Tools:** Selenium (9 years), Appium (9 years), Rest Assured (4 years), Playwright (familiarity)
- **CI/CD Integration:** Jenkins (4 years), Docker (2 years), Git (4 years)
- **Performance & Load Testing:** JMeter (proficient), custom bots for load simulation
- **Frameworks:** Hybrid Framework (Page Object Model + TestNG + Cucumber), RestAssured for API automation
- **Cloud & Enterprise Tools:** Google Firebase, AWS (familiarity), Salesforce (familiarity)
- **Soft Skills:** Strong communication, technical documentation, training, and mentorship

EMPLOYMENT HISTORY

Automation Test Lead, Head Digital Works Pvt Ltd

Apr 2024 — Present

Hyderabad

- **Automation Strategy Development:** Designed and implemented a robust test automation strategy for enterprise applications, achieving **widespread adoption and usage** across teams.
- **Scalable Solutions:** Developed an in-house codeless automation process enabling testers with no coding experience to create **4,500+ test cases** , improving productivity significantly.
- **Device Farm Optimization:** Built an in-house device farm capable of executing **7,000 test cases under 4 hours** , ensuring scalability and faster feedback loops.
- **Load & Performance Testing:** Created bots to emulate end-user actions for **load and performance testing** , ensuring system reliability under stress.

- **Mentorship & Training:** Trained **8 testers** to transition into full-time automation roles, enhancing team capabilities and efficiency.

Module Lead, Head Digital Works
Apr 2021 — Mar 2024
Hyderabad

- **Chatbot Implementation:** Reduced QA and customer support configuration time from **20 minutes to 6 seconds** by creating a chatbot using **Rasa** .
- **Containerization & Scalability:** Containerized Appium setups using **Docker** for multi-threaded execution and integrated with **Jenkins** for scheduled test runs, improving operational efficiency.
- **Performance Optimization:** Reduced app First-Time User Experience (FTUE) load time from **12 seconds to 3 seconds** using network analyzers and Firebase insights.
- **Team Leadership:** Supervised a team of **40 members** , reducing invalid issue rates from **10% to 1%**through structured processes and mentorship.

Senior QA Analyst, Head Digital Works Pvt. Ltd
Apr 2019 — Mar 2021
Hyderabad

- **Framework Creation:** Developed a **Hybrid Automation Framework** combining Page Object Model, TestNG, and Cucumber for Appium/Selenium, enabling efficient functional and API testing.
- **API Automation:** Built a **RestAssured framework** to support API automation, streamlining integration testing for enterprise applications.
- **Quality Improvement:** Raised **100+ actionable suggestions** in JIRA, leading to feature enhancements and bug fixes.
- **Root Cause Analysis (RCA):** Identified and resolved RCA for **30+ customer-reported issues** , prioritizing them as P0 for immediate resolution.

Test Engineer, Head Digital Works India Pvt. Ltd
Nov 2017 — Mar 2019
Hyderabad

Testing Proficiency: Reported **1,950 issues** across 10 updates, with **550 high-severity issues**tagged as P0 priority for immediate resolution. Maintained a **97% valid rate** for reported issues.

QA Tester, Electronic Arts India Pvt. Ltd
May 2015 — Oct 2017
Hyderabad

- Conducted **cross-platform testing** (Windows, Android, iOS) for popular games like Sims Freeplay, Real Racing 3, and Tetris Blitz.
- Ensured compliance with **App Store and Play Store requirements**, contributing to seamless app releases.

EDUCATION

International Institute of Information Technology - Bangalore
Nov 2020 — Nov 2021

Post Graduation Diploma: Machine Learning And Artificial Intelligence

Jawaharlal Nehru Technological University - Hyderabad
Aug 2011 — Apr 2015

Bachelor of Science: Electronics & Communications Engineering
