WORK EXPERIENCE

Senior Manager – Data Science
L&T Finance Ltd.

04/2022 - Present *Bangalore*

Key Projects

- **Application Scorecard – Urban Finance**: Developed and deployed a credit risk scorecard to assess customers at onboarding, enabling smarter approvals and product cross-sell strategies. Achieved **4.5%** reduction in delinquency and **13%** uplift in net approvals post-implementation.
- **Collections – 90+ DPD (NPA) Settlement Model**: Built a model to identify delinquent customers likely to settle or normalize using internal and bureau data. improved NPA resolution by **22%** through targeted recovery campaigns.
- **Self-Cure Identification Model**: Predicted customers in early delinquency buckets are likely to self-cure within 7 days of bounce, reducing unnecessary collection efforts and enhancing efficiency.
- **Collections – Pre-Delinquency Management (PDM) Model**: Designed a predictive model to flag customers likely to miss upcoming EMIs for proactive collections and captured **75%** of events in the top 3 deciles, improving bounce control and operational focus.
- **Call Centre Efficacy – Onboarding Journey Optimization**: Analyzed customer drop-offs to identify optimal calling times and follow-up strategies. Collaborated on Qlik Sense dashboards to track onboarding stages and guide call centre interventions.

Tools Used : *Python, R-Studio, BigQuery, SQL, SAS, Vertex-AI, Excel, Neural Network, Google Cloud, PowerPoint, Logistic Regression, XG Boost, Light GBM, Decision Tree, Random Forest, Pandas,Polars,Seaborn,MatPlotLib,NLP, ML Ops*

Senior Financial Analyst
Wells Fargo India LTD.

04/2018 - 08/2021 *Hyderabad*

Tasks

- Worked as Financial Analyst in Fraud and Claims Management.
- Investigated and resolved debit card fraud and non-fraud cases through data analysis and transaction monitoring.
- Designed interactive Excel dashboards to improve monitoring of performance KPIs and resolution timelines.
- Led automation of steps in the claim resolution process to enhance efficiency and accuracy.

Tools Used : *DAT, Hogan, Excel, SQL*

SOFT SKILLS

~

Effective Communicator & Active Listener
Resilient and Outcome-Oriented

TECHNICAL SKILLS

SQL | Python | R-Studio | Tableau | GCP | BigQuery | Neural Network | Clustering | VertexAI Studio | Machine Learning | pandas | Statistical Analysis | Classification | Cat Boost | Linear/Logistic Regression | scikit-learn,TensorFlow | LightGBM | XGBoost | Bagging | Decision Tree

CORE COMPETENCIES

* Machine Learning & Quantitative Modeling
* Programming (Python, R, SQL)
* Data Analysis, Mining,Storytelling & Visualization
* Analytics Strategy & Roadmap Execution
* Problem Solving & Critical Thinking
* Risk Analytics & Management

EDUCATION

Post-Graduation in Data Science
Praxis Business School, Bengaluru

CQPI - 5.56/8

Graduation - B-Com (Accounting – Honours)
Khallikote Unitary University (KUU), Berhampur, Odisha

70%

ACHIEVEMENTS

Fast-tracked to senior roles within two years at both organizations, reflecting strong performance, adaptability, and ownership.

Recognized by CE – Digital, L&T Finance for delivering a high-impact project under tight timelines with exceptional outcomes.
