Name: Gayatree Sahane.

Email: sagayatree@gmail.com
Mobile : +919130730937

PROFESSIONAL SUMMARY

- **7+ years of experience** in **Automation Testing**, **Performance Testing**, and **Manual Testing** in Agile environments.
- Strong proficiency in **Test Automation using Selenium WebDriver**, implementing **Page Object Model (POM)** and **Hybrid Frameworks**.
- Experienced in writing robust **test scripts** using **Java**, **Selenium**, and **TestNG**, including **custom XPath/CSS locators** and **WebDriver commands**.
- Skilled in **Playwright** for modern automation of web applications with support for multi-browser and cross-platform testing.
- Sound knowledge of **DevOps practices**, including **CI/CD integration** with **Jenkins**, **Git**, **Maven**, and test execution pipelines.
- Experience with **BDD frameworks** such as **Cucumber**, and reporting tools like **Log4j**, **Allure**, and **Extent Reports**.
- Expertise in **Data-Driven Testing (DDT)**, **Cross-Browser Testing**, and **Parallel Execution** using **TestNG** and **Selenium Grid**.
- Solid understanding of **SDLC** and **STLC**, with hands-on experience in **Functional**, **Regression**, **Exploratory**, **Smoke**, and **Sanity Testing**.
- Good experience in converting **manual test cases into automated regression suites** to improve test coverage and efficiency.
- Proficient in **REST API testing** using **Rest Assured** and **Postman**; experience with **Microservices** testing and validation.
- Familiar with **cloud-based testing platforms** like **Sauce Labs** for cross-browser and cross-platform testing.
- Hands-on experience with **AccelQ** for AI-powered automation across web, API, and mobile platforms.
- Knowledge of **test planning, design, execution**, and documentation, including **Test Scenarios**, **Test Plans**, **Test Data**, and **Defect Reports**.
- Worked with **issue tracking** and **project management tools** like **JIRA** and **Redmine**.
- Involved in **defect triaging**, client communications, **daily/weekly status reporting**, and stakeholder demos during UAT phases.
- Strong communication skills and experience participating in **Scrum meetings**, **sprint planning**, and **retrospectives**.
- Basic scripting knowledge in **JavaScript**, with exposure to tools like **AutoIT** for handling system-level popups.

Experience (7.3 Years):

1) **Trainee Staff – Slidewell Meilleur Tech Pvt Ltd., Nashik**
   (June. 2018 -2019**)**
2) **Software Test Engineer – SunAnd Technologies and Services Pvt Ltd., Pune**
   (March. 2019 -2022**)**
3) **Software Test Engineer – VHS Consulting India Pvt Ltd., Bangalore**
   (May. 2022 – Oct 2022**)**
4) **Software Test Engineer – SunAnd Technologies and Services Pvt Ltd., Pune**
   (Oct. 2022 -Present**)**

Technical Skills:

Automation Testing: Java, Selenium WebDriver, Playwright, TestNG, Rest Assured, Microservices API Testing, Git, Jenkins, BDD (Cucumber), Selenium Grid, Page Object Model (POM), AutoIT, Log4j, Assertions.

Performance Testing: Apache JMeter, LoadRunner.

DevOps & CI/CD Tools:
Jenkins, Git, Maven,CI/CD pipeline integration for test automation and deployment.

Monitoring Tools: New Relic, AppDynamics, Grafana, Kibana.

Manual Testing: Expertise in software testing techniques including test case design, execution, defect reporting, and exploratory testing.

AI-Powered Testing: AccelQ (Web, API, and Mobile Test Automation).

Applications & Utilities: Eclipse, IntelliJ IDEA, Jenkins, Maven, Mobile Device Connect, Toad, Jira, Zephyr, SoapUI, Postman, LSQM Testing.

Databases & Tools: SQL Server, Oracle.

Scripting & Web Languages: Java, HTML, JavaScript, Typescript.

Operating Systems: Windows, Linux.

Projects Information:

1. Project: NPS (Nordic Parcel Sorting)

Client/Domain: Sweden, Denmark, Finland, Norway / E-commerce
Team Size: 20
Platform: Windows
Description: PostNord's e-commerce initiative focused on enhancing logistics across the Nordic region. The system offers flexible delivery options, advanced parcel tracking, and real-time data analytics to connect e-retailers and consumers efficiently.

Skills & Tools Used: Java, Selenium WebDriver, TestNG, Cucumber, Rest Assured API, POSTMAN, Swagger, HTML, JavaScript, SQL, Agile, JMeter, Jenkins, Maven, Git, JIRA, ChroPath, Eclipse, Manual Testing.

2. Project: ETMS (Enhanced Toll Management System)

Client/Domain: Toll Companies
Team Size: 20
Platform: Windows
Description: Toll Management System (TMS) enabling seamless toll plaza transactions and settlement processing with acquiring banks. Included backend validation of financial transactions via the CCH web application.

Skills & Tools Used: Java, Selenium WebDriver, TestNG, Cucumber, Oracle, Postman, Swagger, HTML, JavaScript, SQL, Agile, JMeter, DevOps Integration (Jenkins, Git, Maven), JIRA, ChroPath, Eclipse, Manual Testing.

3. Project: Suncms

Client/Domain: Sun Pharma / Pharmacy
Team Size: 12
Platform: Windows
Description: A regulatory documentation platform allowing users to search, retrieve, and analyze pharmaceutical records as per international medicine agreements and notifications by member states.

Skills & Tools Used: Java, Selenium WebDriver, TestNG, Cucumber, Rest Assured API, HTML, JavaScript, SQL, Agile, JMeter, Jenkins, Maven, Git, JIRA, ChroPath, Eclipse, Manual Testing.

4. Project: PayTm EDC Integration

Client/Domain: MMRDA / MTHL Atal Setu
Team Size: 5
Platform: Windows
Description: Developed and tested the integration of PayTM EDC devices for lane-based transactions through dynamic QR code generation, enabling real-time digital payments and transaction validation.

Skills & Tools Used: Java, Selenium WebDriver, TestNG, Cucumber, Rest Assured API, Postman, HTML, SQL, Agile, JMeter, Jenkins, Maven, Git, JIRA, ChroPath, Eclipse, Manual Testing.

5. Project: Integrated Command and Control Center (ICCC)

Client/Domain: Varanasi (VSCL), Aligarh (ASCL), Noida, MMRDA
Team Size: 9
Platform: Windows
Description: Centralized control platform for smart city operations including water & power supply, sanitation, traffic control, smart building management, and city-wide IoT connectivity and surveillance.

Skills & Tools Used: Java, Selenium WebDriver, TestNG, Cucumber, Rest Assured API, POSTMAN, Swagger, HTML, JavaScript, SQL, Agile, JMeter, Jenkins, Maven, Git, JIRA, ChroPath, Eclipse, Manual Testing.

Key Responsibilities & Contributions

- Analyzed business requirements and translated them into **comprehensive test plans**, **scenarios**, and **test cases** for both functional and non-functional testing.
- Designed and implemented **robust test automation frameworks** using **Selenium WebDriver**, **Playwright**, **TestNG**, and the **Page Object Model (POM)** for scalable and maintainable UI testing.
- Automated end-to-end test flows for **web and API applications**, integrating tools like **Rest Assured**, **Postman**, and **Swagger** for RESTful service validation.
- Developed and executed **data-driven**, **cross-browser**, and **parallel tests** using **Selenium Grid**, enhancing test coverage and reducing regression time.
- Contributed to **CI/CD pipelines** by integrating automated tests into **Jenkins** builds for continuous testing and faster feedback loops.
- Led **regression and integration testing efforts** across multiple modules, ensuring seamless functionality post-deployment.
- Transformed extensive manual test suites into efficient, maintainable **automated regression packs** for smoke and sanity validations.
- Wrote **complex SQL queries** to validate backend data integrity and ensure correctness across multiple database systems (SQL Server, Oracle).
- Participated in **Agile ceremonies** including sprint planning, backlog grooming, daily stand-ups, and retrospectives, contributing to continuous improvement.
- Reported and tracked defects using **JIRA**, collaborated with developers and business stakeholders for timely resolution and ensured traceability.
- Maintained detailed **test documentation** including test cases, test data, defect logs, execution reports, and traceability matrices.
- Generated **daily, weekly, and monthly status reports** for internal teams and client stakeholders, highlighting test coverage, progress, risks, and blockers.
- Actively contributed to knowledge sharing sessions, QA process improvements, and automation best practices within the team.
- Supported **DevOps efforts**, ensuring alignment between QA automation and release pipelines, improving deployment confidence and test efficiency.

Academic Details:

- **Pune University** **BE, Mechanical (Year-2015, Percentage-63.4%)**
- **Pune Board** **H.S.C (Year-2010, Percentage-57.17%)**
  Pune Board **S.S.C (Year-2008, Percentage-80%)**

Personal Details:

- **Name** **:** Gayatree Sahane.
- **Gender** **:** Female.
- **Marital Status** **:** Married.
- **Languages Known** **:** English, Hindi and Marathi.
- **Nationality** **:** Indian.
- **Permanent Address** **:** Wadner-Pathardi Road, Nashik - 422010.

Declaration:

I hereby declare that the information furnished above is true to the best of my knowledge.

Place: Visakhapatnam (Andhra Pradesh)

Date: **Gayatree Sahane.**
