Ashwini

Software Developer with 5 years of Experience
8197532939
javashwini25@gmail.com

Professional Summary

- Having 5 years of total technical experience focused on development of software applications, responsive web design with Java and J2EE technologies.
- Good hands-on development and visual composition of UI applications, Responsive Page Designs and Layouts with React JS, Angular, JavaScript, jQuery, HTML, CSS.
- Good experience in Spring,Microservices,Node JS,Spring boot and Framework.
- Worked extensively on Spring frameworks (Spring Core Container, Spring Web MVC, Spring Data Access/Integration) along with Hibernate,JPA.
- Experienced in using design patterns and J2EE design patterns like Singleton Design pattern, Factory Design Pattern, Abstract Factory Pattern, Model View Controller (MVC), Data Access Object, Business Object and Value Object.
- Experience in working with RESTFULL Web Services using JAX-RS APIS.
- Experience in using AJAX and JSON for implementing Web Services.
- Experience in Application Server Apache Tomcat.
- Hands on good experience in SQL and PostgreSQL databases.
- Capable of working independently with excellent technical and communication skills.
- Self-motivated professional who achieves results and has superior ability to coordinate and perform several projects simultaneously.

Projects

1.Title : Health Management System
Client : Way India Software Solution
Duration : Apr 2024 to Till date.

Description : Health Management System was developed to provide better online services to the patients and helpful to the hospitals to maintain individual patient's life time medical record. The records can be accessed anytime, anywhere, instantly, with recently updated information of all the patients particularly ICU patients. It is used to store patient information regarding various lab reports that he had taken previously. Patients can take appointment through online. The patient is billed for the services rendered such as surgery cost of medicines, and visits by physicians, and room rent. It is also used to generate reports on demand.

Environment : Java,Spring,IntelliJ,Spring boot,JPA,Spring IOC,Microservices,Junit,Rest API,Multithreading,Tomcat,Maven,Jenkins,Docker,Jira,Angular,Linux,Node JS,AWS,GIT,Postman,PostgreSQL.

Responsibilites :

- Working as a JAVA developer and coordinating with development to track the delivery of the module on time.
- Implementing on Spring Boot and Microservices.
- Analyse requirements to define business objectives, Design implement and maintain applications that based on the requirement.
- Testing the developed modules to make sure everything working fine and prepare the documentation of test results.
- Implementing on Spring Data JPA and Restful web services.
- Getting the Requirements from the requirement analysis and Bug Tracking tool JIRA.
- Analyzing the requirements and understanding the requirements by preparing Requirement Understanding Document.
- Experience in developing highly interactive web applications utilizing Angular.
- Good experience in developing the single-page applications using Angular.
- Implementing written Service and Repository interface along with their implementations.
- Injected the Repository into service classes using Spring IOC pattern.

2.Title : Operational Data Store
Client : American International
Duration : May 2022 to Mar 2024

Description : The Operational Data Store (ODS) is a consolidation hub for regions that holds atomic level transactions relating to the Policy and Claims domains. The ODS also holds related Party and Object (e.g. Vehicle, Vessel) data as well as a common set of

reference data. This allows each application to publish and subscribe to data from other aligned applications via a single standardized interface, versus customized interfaces to each other application.

Environment : Java,Microservices,Spring boot,Spring,React JS,Kafka,Kubernetes,HIbernate,Maven,jenkins,Jira,Rest API,Junit,GIT,SQL,Postman,IntelliJ,Tomcat,SonarQube.

Responsibilites :

- Writing the Business logic for a given activity.
- Implemented Hibernate Components.
- Test the Developer test cases and doing the unit testing
- Coordinated the Onsite, Offshore teams for Requirements, development, deployment and delivery.
- Participated in discussions with the Onsite team
- Analyze the system requirements.
- Optimize memory usage by identifying unnecessary re-renders in React components or Angular directives.
- Consume RESTful APIs in React using libraries like Axios, Fetch API.
- Involved in the designing of activities.
- Involved to implement the restful web services.

3.Title : Neimanmarcus.com
Client : Neimanmarcus
Duration : July 2020 to Apr 2022

Description : Neiman Marcus, originally Neiman-Marcus, is an American luxury specialty department store owned by the Neiman Marcus Group. The company also owns the Bergdorf Goodman department stores, and operates a direct marketing division, Neiman Marcus Direct, which operates catalogue and online operations under the Horchow, Neiman Marcus and Bergdorf Goodman names. In the US, Neiman Marcus competes with luxury retailers Saks Fifth Avenue, Barneys New York.

Environment : Java,J2EE,Spring,Spring ORM,Hibernate,HTML,CSS,Javascript,Bootstrap,Angular,Kafka,Eclipse,Visual Studio,Bit bucket,Junit,SQL.

Responsibilites :

- Involved in developing Controllers using Spring ORM.
- Implementation of Web Pages in JSP using Javascript for validations.
- Implementation of Web Pages using JSP and HTML.
- Used Spring Framework for Dependency injection.
- Implementation of Web Pages in JSP using Spring Form Tag Library.
- Involved in developing JSP forms and navigation using View Resolver.
- Used Spring Hibernate for Querying data from the database.
- Implement the code as per design and developed business logic.
- Develop the site and integrate the dynamic pages with the static designs.

Technical Skills

- Languages : Java
- J2EE Technologies : JDBC, Servlets, JSP.
- Frameworks : Hibernate,JPA,Microservices,Spring boot,Spring,Node JS
- Web Technologies : HTML, Javascript, J Query,Bootstrap,CSS,Angular,React JS
- Servers : Apache Tomcat
- IDE Tools : Eclipse,IntelliJ
- Source Version Control : GIT,Bit bucket
- Build Tool& CI/CD : Maven,Jenkins,Jira
- Databases : SQL,PostgreSQL
- Other Tools : Linux,Mutithreading,Kubernetes,Kafka,Junit,Postman.

Professional Experience

Company : Synechron Technologies
Designation : Software Consultant
Duration : July 2020 to Till date.

Education

- **MCA from RNS Institute Of Technology,VTU .**
