- CMMI: Services: Auditing and implementation of the CMMI Services to the several projects for different clients like Coal India, AMTRON, Webel, Tripura State Government, South Eastern Central railways, SAIL.
- ISO 20000/ITIL
- Auditing and implementation of the ISO 20000 to the several projects for different clients like Coal India, AMTRON, Webel, Tripura State Government, South Eastern Central railways, SAIL.

Jul 2005 – Oct 2010: Cognizant Technology Solutions, Kolkata, India | Associate of Projects

Responsibilities

- Conducted comprehensive Business Requirement Analysis to understand client needs and ensure alignment with CRM solutions.
- Designed Test Plans and executed Test Cases across multiple domains, including Functional, Regression, Integration, Business Process, Interface, and Data Testing for diverse CRM applications.
- Performed Quality Assurance (QA) for various business software solutions, ensuring adherence to functional specifications, performance standards, and client requirements.
- Managed software upgrades and enhancements, improving efficiency and functionality for client applications.
- Developed and deployed custom applications for Medical Representatives across multiple countries for a global medical client, enhancing operational efficiency.
- Created web pages using .NET technologies, contributing to the client's digital interface development.
- Developed COM components using VB6, facilitating modular and reusable software components.
- Designed and implemented Stored Procedures in SQL Server 2005 to support robust backend data operations and reporting.

Projects

Dun & Bradstreet (D&B Max CV Application)

- Developed the D&B Max CV application for searching company and individual profile information.
- System developed using Agile methodology.
- **Technologies:** Java, J2EE, Oracle, HP ALM

John Hancock

- Worked on two systems, Genesis and F1, managing the lifecycle of insurance policies, contacts, and accounts.
- Project involved upgrading existing applications from Siebel 7.8 to Siebel 8.0.
- Performed complete regression testing for the upgraded systems.
- **Technologies:** Siebel 7.8, Oracle 9i, HP ALM

Pfizer Inc

- Validated Sales Force Automation (SFA) and Territory Alignment (TA) applications, namely ECMS and ACEIQ.
- Validated PCCM, a CDI application developed in Siperian XU, upgraded to Siperian XT.
- Validated ETL logic in DataStage.
- **Technologies:** Siebel 7.8, Oracle 9i, Siperian XU, Siperian XT, DataStage, HP ALM

Boehringer Ingelheim

- Validated SFA and TA applications.
- **Technologies:** Siebel 7.8, Oracle 9i, HP ALM

❑ Academic Credentials

2005	B,Tech (Instrumentation & Control Engineering) (73.1%) from University of Calcutta
2001	B.Sc. (Physics) (57.1%) from University of Calcutta

❑ Certifications

- ISO 9001:2008 from BSI
- UFT from cognizant Technology Solutions
