NARESH P

Mobile Application Developer | React Native Development | Android Development

+91 8885210414 | Pamulanaresh417@gmail.com

Techno-dexterous individual with **10 years** of progressive experience in **Mobile Application** development for **Native Android** and **React Native**; intending to be a part of an organization with a competitive environment and the scope to constantly learn and develop technical and management skills, and make the best use of it for the growth of the organization.

CORE COMPETENCIES:

Mobile Application Development Android Development S React Native Agile Methodologies
Team Management S Leadership
Technical/End-User Support
Application Architecture S Android UI Knowledge

TECHNICAL SKILLS:

- Languages: Core Java, ReactJS
- Databases: RoomDB, SQLite
- Development IDEs: VS Code, Android Studio
- Others: JSON, REST API, Postman
- Version Control: GitHub, Git

EDUCATION:

Bachelor of Technology in Electronics and Communication Engineering | JNTU University, Hyderabad, Telangana, India

KEY DELIVERABLES:

- A focused professional with over 10 years of experience in **Mobile Application Development** with specialization in **React Native** for both **Android** and **iOS** platforms.
- Currently working as **Associate Technical Lead**, driving creation and enhancement of mobile applications delivering exceptional performance and user satisfaction.
- Extensive experience in **Software Development Lifecycle** and **Agile** methodologies.
- Proven track record in designing **GUIs** and implementing services for mobile applications with asynchronous programming in Android.
- **Expertise** in Android UI Toolkit, Layout Managers, Fragments, Activities, Jetpack Components such as Room DB, ViewModel, LiveData, Data Binding and libraries like Retrofit.
- Proficient in developing cross-platform mobile applications using React Native JavaScript, optimizing performance, creating responsive UIs, and integrating with native modules.

WORK EXPERIENCE:

Monocept Consulting Pvt. Ltd | Associate Technical Lead | May 2019 – Present

Innovare Technologies | Software Engineer | 11 Oct 2018 – 8 May 2019

Khusaki Technologies | Software Engineer | 2015 – 10 Oct 2018

PROJECTS WORKED ON:

Project #1: Aditya Birla Health Insurance

Responsibilities:

- Designed and developed a cross-platform app for agents to create policies.
- Implemented AWS Amplify, Redux, Axios, custom packages.
- Created product flavours for different environments (Sandbox, Dev, Prod, QA).
- Managed workflow using JIRA and Figma designs.

Tech Stack and Tools: React Native, ReactJs, Axios, Product Flavours, Custom packages, Postman, Figma, VSCode, Android Studio, Xcode.

Project #2: CARE Health Insurance

Responsibilities:

- Designed and built advanced Android applications using Jetpack components.
- Collaborated with cross-functional teams to define and deliver features.
- Performed unit testing for robustness and reliability.

Tech Stack and Tools: Product Flavours, Custom packages, Postman, Android Studio.

Project #3: Juggernaut Books by Airtel S Wynk Music

Responsibilities:

- Developed Android apps with payment gateway integration.
- Optimized UI rendering and API calls for performance.
- Developed cross-platform mobile apps using React Native, FlatList, SectionList, hooks, and native modules.
- Improved responsiveness with asynchronous programming patterns.

Tech Stack and Tools: Android Studio, Product Flavours, Custom packages and Postman.
