Professional Summary

Azure Data Engineer with 4+ years of experience building scalable data pipelines and architectures. Skilled in Databricks, PySpark, SQL, Airflow, and Delta Lakehouse, with expertise in handling 20TB+ datasets. Improved PII data architecture to enhance compliance, optimize storage, and cut costs. Recognized for driving migration, automation, and performance optimization to deliver analytics-ready data.

Skills

Cloud & Big Data: Azure, Databricks, Delta Lake, ADLS Gen2, Hadoop Hive, Data Lakehouse

Data Processing: PySpark, SQL, Python, Pandas

ETL & Orchestration: Airflow, Spark Streaming, Structured Streaming

Cloud & Big Data: Azure, Databricks, Delta Lake, ADLS Gen2, Hadoop Hive, Data Lakehouse

Work History

Senior Data Engineer - Senior Analyst, 01/2025 to Current
Accenture – Hyderabad, Telangana, India

- Designed and optimized large-scale data pipelines (~20TB) on Databricks using PySpark, Delta Lake, and Structured Streaming for real-time and batch processing.
- Implemented PII data handling solutions including tokenization, masking, and architecture redesign, improving compliance, performance, and cost efficiency.
- Automated and orchestrated workflows using Databricks utilities and Airflow, enhancing scalability and reducing operational overhead.
- Developed scalable data models and transformations with PySpark, SQL, and Python to deliver analytics-ready datasets.
- Collaborated with clients to gather requirements, build POCs, and ensure future readiness with tools like Unity Catalog for data governance.

Azure Data Engineer, 03/2021 to 01/2025
Tata Consultancy Services – Bengaluru, Karnataka, India
Adobe GMI - Market Response Platform

- Captured and preprocessed market response data across Adobe products, enabling predictive analytics for the data science team.
- Designed, built, and maintained ETL workflows using Python, SQL, PySpark, Databricks, Azure Blob, and Delta Tables, optimizing data pipelines and Power BI reporting.
- Improved ETL pipeline performance by **30%** , enhancing data quality, efficiency, and scalability.
- Extracted and processed campaign data using Hadoop Hive & Presto for targeted email marketing (Promo, LinkedIn, MAX Campaigns – Japan market).
- Partnered with marketing and client teams to ensure accurate, analytics-ready datasets; recognized for critical data migration and engineering solutions.
- **Key Achievement:** Recognized by the client for successfully implementing critical Data Migration and Data Engineering solutions.

Education

Bachelor of Technology: Computer Science And Engineering, 08/2020
Gandhi Institute of Engineering And Technology - Gunupur, Rayagada, Odisha
CGPA : 8.6/10
