SHOBHITA DATH

BUSINESS ANALYST

Bangalore, India 560085 ◆ 9742366268 ◆ shobi.dath@outlook.com

PROFESSIONAL SUMMARY

Analytical and process-oriented Business Analyst with deep expertise in data mapping, validation, and migration across the Banking (BFSI) and Retail domains. Proficient in SQL, data reconciliation, and system integration to ensure accuracy and consistency during large-scale transformations. Skilled in leveraging Microsoft Excel and visualization tools to generate actionable business insights. Adept at translating complex technical requirements into clear, results-driven solutions that align with organizational objectives.

SKILLS

Microsoft Office Suite	API, SOAP XML
Business Analysis	Stakeholder management
SQL proficiency	Verbal and written communication
Agile methodologies	Documentation

WORK HISTORY

Business Analyst, 01/2022 - 08/2025

Societe Generale (Through O2F Info Solutions) – Bangalore

- Gathered and documented requirements for migration from a COBOL-based legacy system to a Big Data platform (Spark).
- Authored detailed Business Requirement Documents (BRD), Functional Requirement Documents (FRD), and Software Requirement Specifications (SRS) for data migration workflows.
- Collaborated with business users, data architects, and the mainframe team to define source-to-target data mapping, transformation logic, and validation rules.
- Developed and maintained the Requirements Traceability Matrix (RTM) to ensure complete coverage of business, functional, and data requirements throughout the migration lifecycle.
- Documented findings in Gap Analysis Reports, including process diagrams, impact assessments, and recommendations.
- Developed detailed UML diagrams and Visio process flows to model the extraction, transformation, and loading (ETL) stages of the data migration.
- Validated migrated data from legacy to target systems using SQL queries to ensure accuracy and completeness.
- Documented validation scenarios, test cases, and reconciliation reports to support migration sign-off.

- Collaborated with stakeholders to resolve discrepancies and confirm a successful migration.
- Acted as Scrum Master while balancing Business Analyst responsibilities.
- Facilitated daily stand-ups, sprint planning, backlog refinement, and retrospectives, ensuring smooth Agile delivery.
- Maintained and optimized Jira boards, tracked team velocity, and removed blockers to keep sprints on track.
- Developed Power BI dashboards using DAX and data models to track migration KPIs, and data quality.
- Actively participated in team meetings to share knowledge, exchange ideas, address challenges, and collaborate on potential solutions.

Quality Analyst, 11/2016 - 12/2021

Amazon Development Centre (INDIA) Private Limited – Bangalore

- Defined and documented the BRD and FRD for API-based data collection and price comparison workflows.
- Collaborated with application teams to analyze and validate API/web service responses used for fetching competitor pricing data across the US and SG markets.
- Collaborated with development teams to design and document API-driven, N-tier architecture for a web-based application that automated competitor data extraction.
- Creating detailed research reports and business reports on GLs, which include data analysis, pricing analysis, business potential, market trends, etc.
- Validated JSON and XML payloads from APIs to ensure accurate parsing of product attributes, price points, and promotional details.
- Used tools like Postman and Swagger to test API endpoints, verify response structures, and confirm business rule implementation for pricing updates.
- Created and executed complex SQL queries to extract and manipulate large datasets.
- Validated large datasets in Excel using formulas, Pivot Tables, and macros to verify extracted competitor pricing accuracy and completeness.
- Participated in Agile ceremonies, refining user stories, acceptance criteria, and sprint deliverables for pricing system enhancements.
- Mentored associates on API testing basics, JSON validation, and application workflows, driving knowledge sharing across the team.
