PROFESSIONAL SUMMARY

I'm a results-driven AWS Cloud Engineer, Administrator with hands-on experience designing, automating, and optimizing mission-critical deployments in AWS. Over the years, I've worked across AWS administration, DevOps implementation, and infrastructure automation—delivering scalable, secure, and high-performing cloud environments.

SKILLS

AWS Cloud | DevOps | Terraform IaC | Harness CICD Pipeline | Terragrunt | Git | Bitbucket | Infrastructure automation | Source Code Management | Migration | EC2 | S3 | IAM | VPC | Security Group | NACLs | Cloud Trail | AWS Config | Amazon CloudWatch | SNS | System Administration | Windows | Linux | JIRA | SNOW

WORK EXPERIENCE

TATA CONSULTANCY SERVICES LIMITED

5 Years 10 Months

Full time 11 Dec 2019– Present

AWS CLOUD ENGINEER

TCS Client 2, Pune 2023-Present

❖ Developed and maintained reusable Terraform modules for provisioning scalable, secure AWS infrastructure across multiple environments (Dev, QA, Staging, Prod).

❖ Automated infrastructure provisioning and deployment pipelines using Harness CI/CD, reducing manual steps and improving deployment reliability.

❖ Collaborated with cross-functional teams (Developers, QA, Cloud Architects) to gather infrastructure requirements, resolve technical issues, and ensure alignment with project goals using DevOps practices.

❖ Utilized Bitbucket for source code management, version control, and implementing branching and pull request workflows aligned with DevOps workflows.

❖ Used JIRA for tracking tickets, managing project tasks, and maintaining visibility into delivery progress as part of the DevOps methodology.

AWS CLOUD ADMINISTARTOR

TCS Client 1, Bangalore 2019- 2022

❖ Cloud Infrastructure Deployment: Deployed and configured AWS services including EC2, S3, IAM and networking components such as VPCs, subnets, security groups, and NACLs.

❖ Infrastructure Automation: Executed a proof of concept using Terraform to advance infrastructure as code (IaC) automation.

❖ CI/CD Implementation: Automated infrastructure provisioning using Terraform integrated with GitLab CI/CD pipelines; conducted Proof of Concept (PoC) and managed GitLab administrative tasks for streamlined DevOps operations.

❖ Cloud Migration & Transition: Assisted in the migration of on-premises systems and applications to AWS, working with cross-functional teams to ensure smooth transitions with minimal downtime.

❖ Backup & Disaster Recovery: Knowledge of AWS Backup, snapshots, and disaster recovery strategies.

❖ Cloud Security: Assisted in the implementation and maintenance of security best practices and compliance standards within AWS environments.

❖ Monitoring & Incident Management: Set up CloudWatch metrics and CloudTrail logs to monitor the health and performance of cloud infrastructure, proactively identifying and resolving issues to maintain system uptime and reliability.

❖ Cost Management & Optimization: Experience with AWS Cost Explorer, AWS Budgets, and Trusted Advisor to manage and optimize cloud expenditures.

❖ Collaboration & Documentation: Collaborated with cross functional teams (development and security) to provide technical support and ensure alignment on cloud infrastructure requirements.

TECHNICAL SUPPORT ENGINEER

TRIGENT SOFTWARE INC., Bangalore 17 Jul 2018- 20 Nov 2019

❖ Diagnosed and resolved complex issues with Windows operating systems, including installation, updates, and system performance.

❖ Ability to diagnose and repair hardware issues, including desktops, laptops, printers, and peripherals.

❖ Configured and supported multi-factor authentication (MFA) for enhanced security and user convenience.

❖ Used ticketing systems such as ServiceNow or JIRA Service Desk to log, track, and prioritize support requests.

❖ Collaborated effectively with cross-functional teams to address technical issues and implement solutions.

❖ Documented technical issues and resolutions, created knowledge base articles, and provided training to end-users for self-service support.

IT OPS ANALYST

EIT Services India Private Limited (Full Time for EIT Services), Bangalore 4 Oct 2017– 17 Jul 2018
Lobo Staffing Solutions Pvt.Ltd. (Contractor for EIT Services) 1 Aug 2017–3 Oct 2017
Metafore Systems Pvt.Ltd. (Contractor for EIT Services) 1 Feb 2017-31 Jul 2017

❖ Provided technical support for Windows operating systems, resolving software issues, and ensuring optimal performance.

❖ Managed Active Directory accounts, including user creation, permission management, and password resets.

❖ Configured and troubleshoot network connectivity issues, including LAN and Wi-Fi setups.

❖ Utilized remote support tools (e.g., RDP, TeamViewer) to assist users with technical problems and system configurations.

❖ Created and maintained detailed documentation of support procedures and incident resolutions, enhancing team knowledge and efficiency.

❖ Demonstrated strong customer service skills by addressing user concerns with empathy and clear communication.

❖ End users on functions of hardware and usage of new software applications Windows operating system installation.

CERTIFICATIONS

❖ AWS Certified SysOps Administrator – Associate (Issued Aug 2023 · Expires Aug 2027)

EDUCATION

❖ Bachelor of Engineering (Electronics) FY 2009-10 to 2014
