## Professional Summary

Experienced Data Engineer with 4 years in designing and implementing scalable data pipelines, ETL workflows, and big data solutions. Proficient in AWS services, Apache Spark (PySpark), Snowflake, SQL, and Python. Adept at data validation, transformation, and EDA with a strong focus on healthcare data processing.

## Technical Skills

- **Big Data & ETL:** PySpark, AWS Glue, Snowflake, SQL
- **Programming:** Python (pandas, FastAPI)
- **Cloud:** AWS (S3, EC2, Glue, Lambda)
- **Databases:** Oracle, Snowflake
- **API Development:** FastAPI, Swagger, Postman

## Professional Experience

### ConcertAI(Aroha Technologies) (May 2023 – Present)

#### Data Engineer

##### EIS – Leqembi Implementation (Client: Eisai)

- Designed, developed, and maintained scalable data pipelines using PySpark and AWS Glue.
- Implemented ETL processes to extract, transform, and load data from various sources into Snowflake.
- Managed and optimized data storage solutions using AWS S3.
- Configured and managed AWS EC2 instances for compute resources.
- Developed serverless applications using AWS Lambda for event-driven processing tasks.
- Collaborated with cross-functional teams to ensure seamless data integration and transformation.

##### TEV Implementation (Client: Teva)

- Designed and maintained big data pipelines using PySpark and AWS Glue.
- Implemented robust ETL workflows to transfer and transform data into Snowflake.
- Managed AWS S3 storage and configured AWS EC2 instances for scalable processing.
- Developed serverless applications using AWS Lambda for real-time data processing.
- Monitored and optimized data processing jobs for efficiency and timely data availability.
- Implemented best practices for data partitioning, indexing, and query optimization.

### Dvara Solutions (Aroha Technologies) (Oct 2021 – May 2023)

#### Software Engineer

##### Northern Arc Service (Client: Northern Arc)

- Gathered and analyzed requirements, prepared documentation, and conducted testing for software development projects.
- Designed and developed RESTful APIs using FastAPI, with comprehensive testing using Swagger and Postman.
- Utilized Python (pandas) for data processing and integrated SQL database operations using Oracle.
- Maintained high code quality, ensuring timely delivery and proper documentation throughout the development lifecycle.

## Education

**BTech in Electronics and Communication** – 2018
