SOMENDRA SAINI

Gurugram, Haryana | +91 7321032423 | somendra2406@outlook.com
https://somendrasaini.com | https://www.linkedin.com/in/somendra24

Professional Summary

A results-driven Senior Infrastructure Engineer with over 7+ years of experience specializing in Windows endpoint engineering, performance optimization, and IT administration. Proven expertise in managing large-scale enterprise environments using Microsoft Intune, SCCM, and Azure. Highly proficient in PowerShell scripting for automation, implementing security policies with Windows Defender Application Control (WDAC), and utilizing advanced diagnostic tools like WPA/WPR and the Sysinternals Suite to perform root cause analysis. Eager to leverage deep technical knowledge of Windows 11 internals and IT administration to enhance end-user computing experiences.

Technical Skills

- **Endpoint Management:** Microsoft Intune (Autopilot, Endpoint Security, Compliance), SCCM, MDM Policy Management, MDT, WDS.
- **IT Administration:** Active Directory, Azure AD, Group Policy (GPO), User & Identity Management, RBAC, OS Patching & Hardening, System Backups
- **Performance Diagnostics:** Windows Performance Analyzer (WPA), Windows Performance Recorder (WPR), Sysinternals Suite (ProcMon, ProcExp), PerfMon, ETW Tracing
- **Operating Systems:** Windows 11/10, Windows Server 2016/2019/2022, Linux
- **Scripting & Automation:** PowerShell (Advanced), Bash, Python
- **Security:** Windows Defender Application Control (WDAC), BitLocker, Microsoft Defender, CIS Baselines
- **Cloud & Identity:** Azure Active Directory (Azure AD), Hybrid Identity, Azure Virtual Machines
- **Programming & DB:** JAVA, C++, .NET, SQL, MongoDB, Python, Bash, ASM, JS

Professional Experience

Senior Infrastructure Engineer / Official Microsoft Support Concentrix[STA] / Microsoft | Gurugram, India | 2023 - Present

- **SCCM, Intune & Autopilot Deployment:** Spearheaded the management of Windows 11 endpoints using Microsoft Intune, configuring Autopilot profiles for zero-touch provisioning and streamlining device onboarding for enterprise clients.
- **Performance Engineering:** Performed advanced root cause analysis on complex performance issues, including boot/login delays and memory/CPU bottlenecks, using **Windows Performance Analyzer (WPA), ProcMon, and PerfMon**.
- **Automation & Scripting:** Developed and maintained a library of **PowerShell scripts** to automate OS updates, driver integration, application packaging, and configuration management, reducing manual deployment time by over 40%.
- **Security & Compliance:** Implemented and managed **Windows Defender Application Control (WDAC)** policies to enforce strict application whitelisting. Ensured endpoint configurations aligned with enterprise security baselines, including BitLocker and Microsoft Defender.
- **IT Administration & Identity Management:** Managed user identities, groups, and access controls within Azure AD and hybrid environments. Implemented Role-Based Access Control (RBAC) policies and served as the final escalation point for complex IT administration issues related to infrastructure and endpoint access.

Senior Software Engineer Alpha Trucking | Seattle, WA / Noida, India | 2023 - 2023

- **Hybrid Role (Dev & IT Admin):** Architected server infrastructure on Azure while performing key IT administration duties for the development team. Managed user accounts, permissions, and access to development servers and version control systems.
- **Server Administration:** Conducted comprehensive administration of Windows and Linux servers hosting the TMS application, including responsibility for OS patching, security hardening, and performance monitoring to ensure high availability.
- **AI Tool Development:** Developed AI-powered telemetry tools to analyze system performance data, demonstrating strong analytical skills applicable to endpoint performance diagnostics.

Integration Analyst Kal Freight Inc | Fontana, CA / Noida, India | 2022 - 2023

- **System & Cloud Administration:** Managed and administered Azure cloud services and the underlying Windows Server VMs. Performed routine IT admin tasks including system backups, user account management for service integrations, and OS maintenance.
- **Network & Endpoint Troubleshooting:** Diagnosed and resolved network connectivity and OS-level issues on integration endpoints to maintain 99.9% uptime and ensure seamless data exchange between carrier systems.
- **Automation Pipeline Development:** Developed robust Python and .NET automation pipelines for system integrations, showcasing proficiency in scripting and creating efficient, automated workflows.

Under Officer Tech Cadre Indian Army Deputation, 2/19 JH Battalion | 2018 - 2022

- Administered a mixed environment of Windows and Linux servers, responsible for OS patching, configuration, and performance monitoring.
- Assisted in the deployment and maintenance of standardized **Windows client images**, ensuring consistency and reliability across all endpoint devices.
- Designed and developed OT and IT network and infrastructure for Army Administration.

Education

Masters in Data Science (AI and Machine Learning) Amity University, Gurugram | 2023 - 2025 (Expected)

Bachelor's in Physics (Quantum & Mathematical Physics) Dr. Shyama Prasad Mukherjee University, Ranchi | 2018 - 2022

Projects

- **ISOVISION:** An AI tool for image segmentation and generation, demonstrating advanced problem-solving skills. Hosted on Firebase. isovision.somendrasaini.com
- **STORAGE BOX:** A self-hosted enterprise cloud storage alternative, showcasing abilities in infrastructure setup and maintenance. storageboxdemo.somendrasaini.com
- *Other projects on my web portfolio at somendrasaini.com*
