Yash Shetye

Senior Android Developer

+91-(720)-867-9964 Email – yshetye06gmail.com

SUMMARY

Android Developer with 4.5 years of experience building scalable and user-friendly mobile applications using **Kotlin** and **Java**. Skilled in **Jetpack components** and **MVVM architecture**, with proven ability to design responsive UIs, integrate APIs, and optimize app performance. Passionate about delivering high-quality Android solutions and staying updated with the latest advancements in the Android ecosystem.

SKILLS

Kotlin, Java, Android SDK, Jetpack (Compose, ViewModel, LiveData), MVVM/MVP Architecture, RESTful APIs, Retrofit, Firebase, Room, Object-Oriented Programming, Git, CI/CD, Problem-solving, Time Management, Handling multiple projects,Coroutines

EXPERIENCE

Android Developer

AnalyticsFox Softwares **Feb /2021 - Present**

- Joined as a fresher and quickly took ownership of complete Android projects—from sprint development to deployment on the Play Store.
- Independently handled end-to-end app development including new features, bug fixing, crash monitoring (Crashlytics), and timely releases.
- Redesigned one project's architecture from scratch, implementing MVVM to improve scalability, maintainability, and performance.
- Took initiative in writing reusable components, improving code quality and reducing development effort across projects.
- Collaborated with UI/UX designers to create a user-centric interface, reducing drop-off rates.
- Mentored new team members on Kotlin best practices, Git workflows, and Android architecture patterns
- Ensured compliance with Google Play guidelines, avoiding app suspensions and policy violations.
- Built and deployed a REST API using Spring Boot (Java) for one project, enabling seamless communication between the mobile app and backend services.

PROJECTS

Skillsignal Android App (2021-Present)

Construction safety and compliance app for workers in the U.S. market. Workers use it to manage safety records, training, and compliance requirements on job sites.

App link - https://play.google.com/store/apps/details?id=com.analyticsfox.skillsignal&pcampaignid=web_share

Skillsignal ID Android App (2021-Present)

Construction safety and compliance app for supervisors in the U.S. market. Supervisors use it to monitor workers, track compliance, and ensure job site safety.

App link - https://play.google.com/store/apps/details?id=com.analyticsfox.skillsignalid&pcampaignid=web_share

Ambit Finvest Android app (2024-Present)

A loan origination app that lets users initiate applications, add applicant/co-applicant details (individual or non-individual), and capture photos and documents.

App link - https://play.google.com/store/apps/details?id=com.nucleus.finnone.mobile.mserve.ambitprod.eng&pcampaignid=web_share

MIRI(Make in rural india) Android App (2022-2023)

MIRI (Making in Rural India) is a platform that connects rural producers and micro-enterprises with retailers, promoting sustainable production, efficient supply chains, and mutual growth.

App link - https://play.google.com/store/apps/details?id=com.drishtee.miri&pcampaignid=web_share

EDUCATION

Bachelor of Engineering in Computer Science
Mumbai University

Mumbai, India

03/2016 - 03/2019

Diploma in Computer Engineering
Mumbai University

Mumbai, India

06/2013 - 06/2016

KEY ACHIEVEMENTS

Increased Users Trust

Integrated crash reporting and stability fixes, leading to better reviews and stronger word-of-mouth growth.

Optimized App Performance

Refactored legacy code leading to a 20% decrease in application load times, enhancing user satisfaction.

Reduced Bug Reports

Streamlined code review processes which reduced app bug reports by 25% over a two-month period.

Boosted Team Productivity

Mentored junior developers and introduced new agile strategies that improved team productivity by 20%.

ADDITIONAL INFORMATION

- DOB - 6th July 1997
- Languages – English, Marathi and Hindi
- Extracurricular activities - Represented college in inter-college cricket tournaments, Served as Sports Secretary in the Student Council
