SIBANI PANDA

Backend Developer | Node.js | Microservices | AWS | TypeScript

Phone: +91-**9777817402** | Email: **sibani.cse@gmail.com** | LinkedIn: **linkedin.com/in/sibani-panda-1149731a1**

PROFILE

• Results-oriented Backend Developer with over 5 years of experience in designing, developing, and deploying high-performance web applications.

• Specialized in building scalable microservices and secure RESTful APIs using Node.js, TypeScript, and NestJS.

• Proficient in deploying cloud-native solutions on AWS (EC2, Lambda, S3, RDS), containerization with Docker, and CI/CD using GitHub Actions and GitLab.

• Strong background in database design, query optimization (MySQL, PostgreSQL, MongoDB), and Redis-based caching.

• Adept in Agile practices, clean code, system design, and driving team productivity with engineering best practices.

SKILLS

Languages & Frameworks: Node.js, TypeScript, JavaScript, NestJS, Express.js, GraphQL

Databases: MySQL, PostgreSQL, MongoDB, Redis, SQLite

Cloud & DevOps: AWS (EC2, S3, RDS, Lambda, CloudWatch), Docker, GitHub Actions, GitLab CI/CD, Jenkins

Security & Tools: OAuth 2.0, JWT, Swagger, Postman, Nginx, Visual Studio Code

Practices: TDD, DDD, CI/CD, Agile, Scrum, SOLID, Design Patterns, Jira, Trello, Bitbucket

EXPERIENCE

Senior Software Engineer — Happiest Minds Technologies, **Bhubaneswar Apr 2024 – Present**

• Developed scalable backend services using NestJS and TypeScript for an EdTech learning platform used by millions.

• Improved API response time by 40% through query optimization, caching strategies, and efficient controller design.

• Achieved 99.9% uptime by implementing health checks, monitoring with AWS CloudWatch, and error resilience patterns.

• Implemented secure user authentication and authorization using OAuth 2.0, JWT, and role-based access controls.

• Led CI/CD pipeline automation using GitHub Actions, enabling seamless deployments and rollback

Associate Consultant — Invincix Solutions Pvt. Ltd, **Bhubaneswar Sep 2021 – Nov 2023**

• Built modular and reusable RESTful APIs using Node.js and Express.js to support core business services.

• Migrated legacy monolithic applications to a microservices architecture, improving scalability and deployment flexibility.

• Implemented JWT-based access control and RBAC (Role-Based Access Control) for secure endpoint access.

Executive - Technology — Abstech Services P L, **Bhubaneswar Nov 2019 – Aug 2021**

• Created biometric authentication services using Node.js and MySQL.

• Designed cron-based jobs to sync biometric data with employee worklogs.

• Developed reusable API modules for real-time check-ins and attendance reports.

• Worked closely with QA and product teams to ensure 100% functional coverage.

KEY PROJECTS

Savvas Learning Platform (Happiest Minds)

• Built scalable and secure backend architecture using NestJS, Sequelize, and OAuth 2.0.

• Handled over 1M+ users with 99.9% uptime and 95% unit test coverage.

Milk Mantra - DailyMoo App (Invincix)

• Developed REST APIs for user onboarding, authentication, and order processing.

• Deployed containerized services on AWS EC2 and managed production support.

Furnish Vendor Management System (Invincix)

• Designed complete backend logic from BRD, incorporating procurement workflows.

• Reduced defect leakage by 40% with automated tests and integrated CI/CD pipeline.

Airface Pro - Biometric System (Abstech)

• Delivered biometric attendance APIs optimized for 10K+ daily check-ins.

• Refactored core modules for better throughput, stability, and database performance.

GenInvinci - Internal HR & Task Management Tool (Invincix)

• Developed full backend service using Node.js, Sequelize, and MySQL.

• Integrated role-based permissions, timesheets, and task tracking.

• Implemented project-level reports and employee dashboards.

Time Tracker - Biometric & Worklog System (Abstech)

• Created microservice-based APIs to sync biometric data with employee worklogs.

• Scheduled cron-based sync with high data integrity and optimized DB performance.

EDUCATION

M.Tech in Computer Science & Engineering, College of Engineering & Technology, Bhubaneswar (2019)

CERTIFICATIONS

• Node.js API Development and Testing (Udemy, 2023)

• AWS Cloud Practitioner Essentials (Udemy, 2023)
