SUMMARY

- 12+ years of experience as a Consultant/Business Analyst specializing in Oracle Financials across E-Business Suite R12 and Oracle Fusion, delivering enterprise-scale financial transformation initiatives across EMEA, APAC, and North America regions.
- Extensive experience in end-to-end Oracle Financials implementations including solution design, configuration, business process mapping, gap analysis, testing, and post-production support.
- Proficient in configuring and supporting core financial modules such as General Ledger, Accounts Payable, Accounts Receivable, Fixed Assets, Cash Management, and Purchasing in both Fusion and EBS environments.
- Strong background in stakeholder engagement and requirement gathering, collaborating closely with business partners to design innovative, scalable, and effective financial solutions.
- Skilled in preparing functional documentation including BR100, MD50, TE40, UTs, and user guides, ensuring consistency and traceability throughout the project lifecycle.
- Experienced in leading and organizing onshore-offshore status calls, managing project communications, and tracking deliverables in high-pressure, deadline-driven environments.
- Worked on multiple Oracle implementations with integrations of Oracle Cloud Success Navigator along with a focus on aligning business goals, performance metrics, and dashboard configuration.
- Experienced in Oracle Cloud Infrastructure (OCI) integrations and well-versed in strategic consulting through client workshops and business process analysis.
- Multiple Oracle implementations with deep knowledge of Finance, Supply Chain, and HR modules, mentoring team members and ensuring quality across deliverables.
- Adept in testing custom components during SIT and UAT phases, identifying and resolving defects, and supporting seamless production deployments.
- Hands-on experience working with technical teams to design and validate custom reports, Web ADI templates, and interfaces tailored to client-specific requirements.
- Well-versed in Oracle Financials incremental setups in lower instances and driving configuration alignment across development and production environments.
- Successfully executed implementation, support, and testing roles, demonstrating flexibility and adaptability across diverse project models.
- Proven ability to lead initiatives with minimal supervision, prioritize multiple tasks, and thrive in fast-paced environments while ensuring high-quality deliverables.
- Highly motivated, detail-oriented team player with excellent communication skills and a strong commitment to continuous learning and solution delivery excellence.

CERTIFICATES

- Oracle Financials Cloud: General Ledger 2022 Certified Implementation Specialist
- Oracle Financials: Account Payable Certified Implementation Specialist

SKILLS

- **ERP:** Oracle EBS R12**, Fusion,**
- **Cloud & Integration**: Oracle Cloud Infrastructure (OCI), Integration tools, End-to-end Oracle EBS and Fusion implementations.
- **Collaboration & Delivery:** Onshore-offshore coordination, Project communications, Deliverable tracking, High-pressure environments
- **Tools: JIRA**, Service Now, Cherwell, Oracle Testing tool (OATS).

- **Functional Expertise**: **Finance, Supply Chain, and HR modules**, Requirement gathering, Gap analysis, Solution design, Configuration
- **Documentation & Testing:** BR100, MD50, TE40, User Guides, SIT/UAT, Defect resolution, Test planning

PROJECT EXPERIENCE

Meritor _Cummins | NOV-2020 till date

EBS R12 -Upgrade and Production Support

Sr Oracle Consultant

Technologies Used: Oracle EBS R12, Oracle Support (SRs), Oracle Fusion Cloud Financials, ServiceNow, Cherwell, Web ADI, Oracle Testing Tool (OATS), SQL, India GST Localization, Custom Payment Files, Dashboard Reporting, UAT/CRP, GL/AP/AR/FA/CM/Procurement Modules, Integration Tools AS400. IICS, Client Workshop Facilitation

Responsibilities:

- Provided production support for Oracle Fusion and EBS R12 systems for North America and APAC regions.
- Interfaced with client stakeholders and onshore teams to gather business requirements and designed functional solutions across financial modules.
- Configured GL, AP, AR, FA, Cash Management, and Procurement setups in multiple environments.
- Conducted CRP and UAT sessions, coordinated testing phases, and provided end-user training.
- Loaded master and transactional data (Supplier, Customer, GL Balances, AR Open Transactions, FA Registers) using FBDI templates and ensured data accuracy through reconciliation packs.
- Collaborated with technical teams to design and test custom reports, dashboards, and Web ADIs based on business requirements.
- Created and maintained documentation including Config Master, BR100, MD50, TE40, User Guides, and Data Migration strategy.
- Handled SRs with Oracle Support for issue resolution, coordinated with DBA and tech teams for patch analysis and bug fixing.
- Worked on India GST financials functionality including new tax code derivation and customizations, providing manuals and guidance to users.
- Led Oracle Cloud Success Navigator-related workshops and contributed to strategic consulting deliverables aligned with client KPIs and success metrics.
- Supported integration planning and execution with OCI components to streamline business process flows across Finance and Procurement modules.

General Motors Finance (GMF)| AUG-2017 – OCT 2020

EBS R12 -Production Support

Sr Oracle Consultant

Technologies Used: Oracle EBS R12 (Financials), ServiceNow, Oracle Support (SRs), SQL, Oracle Testing Tool (OATS), Web ADI, GL/AP/AR/FA Modules, Documentation Tools (BR100, MD50, TE40, User Guides), Oracle Cloud Infrastructure (OCI), Client Workshop Participation, Oracle Fusion Exposure

Responsibilities:

- Delivered production support for Oracle EBS R12 Financial modules including GL, AP, AR, and FA.
- Collaborated with onshore leads and business users to gather requirements, perform root cause analysis, and deliver functional solutions.

- Handled issue resolution through service requests (SRs) with Oracle Support and coordinated closely with DBAs and tech teams for patch analysis.
- Supported system configurations and incremental setups across multiple instances (Dev, Test, Prod).
- Developed functional specifications and test cases, and conducted SIT and UAT testing, including defect resolution and deployment to production.
- Worked with the technical team to develop and test custom reports, Web ADIs, and interfaces based on business requirements.
- Maintained project documentation such as BR100, MD50, TE40, and user guides in shared repositories.
- Actively participated in daily status calls with onshore teams to track project progress and manage deliverables.
- Engaged in business process discussions during client-facing workshops to align EBS solutions with evolving financial strategies.
- Supported the transition roadmap and impact analysis for potential Oracle Fusion adoption initiatives.

Flowserve Corporation, Texas, US| APR 2015 - JUL 2017

EBS R12 Implementation and Support

Senior consultant

Technologies Used: Oracle EBS R12 (Financials), GL, AP, AR, FA, Procurement, SQL, Web ADI, Oracle Testing Tool (OATS), BR100, MD50, TE40, FSD, CRP/UAT, Oracle Support (SRs), Integration Tools like AR 200. AS 400, IICI, Client Workshop Exposure

Responsibilities:

- Participated in full-cycle Oracle EBS R12 implementation and post-go-live production support for Financials and Procurement modules.
- Gathered business requirements and prepared functional documents including BR100, FSD, MD50, and user manuals.
- Configured Financials modules (GL, AP, AR, FA, and Procurement) as per client-specific requirements across different environments.
- Supported data migration activities including loading Supplier Master, Customer Master, GL Balances, and FA data using FBDI templates.
- Conducted CRP and UAT sessions, created test cases, executed SIT, and handled defect tracking and resolution.
- Coordinated with technical teams to design, test, and deploy custom reports and interfaces, and ensured alignment with business needs.
- Engaged in root cause analysis and troubleshooting of functional issues, worked with Oracle Support through SRs for resolution.
- Provided end-user support and training, including documentation and walkthrough sessions.
- Contributed to early-phase cloud adoption discussions by identifying readiness gaps and supporting functional alignment for OCI migration.
- Participated in client-facing sessions to translate business goals into actionable functional configurations and interface requirements.

MPPMCL Govt of MP, India | JAN 2014 - MAR 2015
EBS R12 Implementation Project
Associate Consultant

Technologies Used: Oracle EBS R12 (Financials), GL, AP, AR, FA, Procurement, SQL, FBDI Templates, Web ADI, BR100, MD50, BP040, BP080, TE40, Oracle Testing Tool (OATS), Oracle Cloud Readiness Assessment, Integration Tools, Strategic Consulting Inputs for Public Sector

Responsibilities:
- Worked on Oracle EBS R12 implementation project for the Government of Madhya Pradesh (MPPMCL), focusing on Financials and Procurement modules.
- Conducted business requirement analysis and prepared key documentation including BP040, BP080, BR100, MD50, TE40, and user guides.
- Configured Oracle Financials modules such as GL, AP, AR, FA, and Procurement based on government-specific accounting and procurement processes.
- Participated in data migration using FBDI templates for loading master and transactional data including suppliers, customers, and GL balances.
- Coordinated CRP and UAT phases, created test scripts, executed functional testing, and resolved identified defects.
- Collaborated with the technical team to develop custom reports and interfaces aligned with public sector compliance and reporting needs.
- Provided post-implementation support and training to end-users to ensure smooth transition and system adoption.
- Assisted in deployment and cutover planning, ensuring all configurations and data were migrated correctly to production.
- Contributed to cloud readiness assessment and integration planning to support future migration to Oracle Cloud solutions.
- Advised stakeholders on aligning financial transformation efforts with public sector regulations and strategic objectives.

RESMED, UK | ARP 2013 – DEC 2013
ERP R12 Upgrade (11i to R12)
Associate Consultant

Technologies Used: Oracle EBS R12 (Financials), GL, AP, AR, FA, Procurement, SQL, Web ADI, FBDI, BR100, MD50, TE40, User Training Docs.

Responsibilities:
- Contributed to the Oracle EBS upgrade project for RESMED in the UK, focusing on Financial and Procurement modules.
- Configured Oracle Financials modules (GL, AP, AR, FA, Procurement) according to RESMED's business processes.
- Created detailed documentation including BR100 (setup documents), MD50 (functional specs), TE40 (test scripts), and user manuals.
- Supported data migration efforts including Supplier and Customer Master, GL Balances, and Asset Register using Web ADI and FBDI.
- Executed system testing and supported UAT activities, logging and resolving defects in collaboration with the technical team.
- Coordinated closely with development and DBA teams for setup migrations and production readiness.

- Delivered user training sessions and walkthroughs to ensure effective knowledge transfer and system adoption.
- Assisted in OCI-based integration planning for potential cloud transition and ensured alignment with enterprise goals.
- Collaborated in early-stage Oracle Cloud discussions, contributing functional insights for future scalability and transformation.
