SUMMARY

Experienced Software Engineer proficient in full-stack development with expertise in Node.js and Angular 6+ Known for delivering secure and scalable applications. Adept at bridging technical concepts with business needs, ensuring project success and client satisfaction.

WORK EXPERIENCE

Elixia Robotics PVT. LTD. **JAN 2025 - PRESENT**

Senior Full Stack Developer

- Developed and maintained scalable backend services using Node.js and NestJS for logistics automation platforms, enhancing system efficiency and reducing manual processes.
- Designed and optimized complex database schemas across MongoDB and MySQL to handle real-time logistics and supply chain data, improving query performance and system reliability

Gupshup Technology India PVT. LTD. **NOV 2021 - JAN 2025**

Software Engineer

- Developed chatbots on various platforms with Node.js, integrating MongoDB and MySQL for data storage, and optimising data structures for efficiency.
- Developed an Analytics Dashboard web app with Node.js and Angular 13, offering clients insights into chatbot performance.
- Led and supported a development team, delegating tasks, resolving technical queries, and offering solutions to clients for applications supporting conversational journeys.

Mediaware Infotech **NOV 2019 - NOV 2021**

Software Developer

- Developed and deployed ATL, BTL, and TV Monitoring apps, revolutionising campaign analysis.
- Employed Angular 6 for a user-friendly front-end, .NET and Node.js for robust APIs, and optimised Excel data import to SQL dynamic tables.
- Created a Campaign Tracker for insights on deviations across channels, collaborating with cross-functional teams to ensure a bug-free application.

BridgeLabz Solution LPP **Feb 2019 - Nov 2019**

Intern Software Developer

- Created a Google Notes replica with .NET and Angular 6.
- Designed Registration/Login app with JWT on .NET and Angular.
- Developed various modules for Mediaware Infotech.
- Taken care of quality checks and validity of data inputs

HERE Technologies **Aug 2017 – Dec 2018**

Spatial Data Specialist 1

- Conducted pre-processing, refining, and merging source inputs for usability.
- Analyzed source inputs, comparing them with the existing database for accurate interpretation.
- Digitized mapping databases with specified platforms/tools, ensuring adherence to defined processes and quality checks for data validity.

SKILLS

- Node.js
- Nest.js
- ASP .NET
- Javascript
- Angular 6+/Angular Material
- MongoDB
- MySQL
- SQL Server
- Entity framework
- RabbitMQ

EDUCATION

B.E.(Electronics & Telecommunication) **Jul 2013 – Jun 2017**

- Mumbai University
